ÖNSÖZ

Sistemimizdeki Level1 ve Level2 çalışmaları, daha çok günlük bir dil ile kelime dağarcığını geliştirmeyi amaçlarken akademik düzeyde gramer ve dil becerisini geliştirmeyi amaçlamaktadır. Akademik kelime dağarcığı ve akademik içerikli makaleler için ise Level3 kitabı ön plana çıkmaktadır. Gramer ve okuma becerisi açısından Level1 ve Level2 aşamalarını bitirenler Level3te herhangi bir sorun yaşamazlar ama kelime dağarcıklarını burada geliştirmeleri gerekmektedir. Bu kitapta sosyal, sağlık ve fen alanlarında temel akademik kelimelerden oluşan metinler bulunmaktadır. Hangi alanda okuma yapmak isterseniz isteyin sizlere gerekli olacak akademik kelimeler bu kitapta verilmektedir. Bu kitabı bitirdikten sonra kendi alanlarınızdaki spesifik kelimelere ve okumalara rahatlıkla yönelebilirsiniz. Ayrıca kitabımızın bu yeni formatı ile birlikte daha önce kitap içinde her 6 parçada bir olan mekanik kelime çalışmaları ayrı bir ek kitapta toparlanmış çıktı alıp almamak kullanıcının isteğine bırakılmıştır. Söz konusu alıştırmalar bazı öğrenciler tarafından çok zevkli ve gerekli bulunurken başka öğrenciler tarafından sıkıcı bulunmuştur. Taktiri öğrencilerimize bırakıyoruz ☺!.

Parçaların dinlemelerini yaparak akademik dinleme becerinizi de geliştirebilirsiniz. Ayrıca www.phdakademi.com üzerinde metinlerin ayrıntılı çözümlemeleri ve kelime açıklamalarını ve detaylarını her bir metin için video formatında bulabilirsiniz. Söz konusu videolarda özellikle YDS, YÖKDİL, YDT ve TIPDİL gibi sınavlar göz önünde bulundurulması gereken açıklamalar yapılmış ve bu sınavlarda sizlere kolaylık sağlayacak ipuçları verilmiştir.

Dil alanındaki eksikliklere az da olsa katkıda bulunmaktan mutluluk duyar, çalışmalarınızda başarılar dileriz.

1. Louis Pasteur

Louis Pasteur was one of the greatest scientists of all time. Pasteur made very important **discoveries** in biology and chemistry, and the techniques he developed helped **greatly** to develop medical science and the **agricultural** and food industries. Pasteur was born in a small town in France during the year 1822. When he was a young man, Pasteur studied science at a university in the city of Paris. He soon did some excellent work in chemistry, and later began his famous study of germs. Pasteur was one of the first scientists to understand that many diseases could be caused by **extremely** small, **invisible** organisms. Only a few other scientists had believed this before Pasteur. He **advised** doctors to wash their hands **thoroughly** before treating **patients**. Pasteur also **demonstrated** that life forms did not **arise spontaneously**. His **research** **confirmed** the idea, **developed** by **previous** scientists, that a living organism would not appear ***unless*** other **individuals** of its kind were present. One of Pasteur's most important **contributions** was a technique that has been **named after** him: pasteurization. Pasteurization kills the germs that are found in drinks such as milk or beer. Because of Pasteur's technique, people are no longer infected with diseases by drinking these liquids. Just as important as pasteurization was a technique called **immunization**. Pasteur found that a person or animal could be made safe, or immune, from a disease, by injecting the person with some **weakened** germs that **cause** the disease. The body can **resist** the disease after being immunized in this way. Today, many diseases are prevented by the use of this technique. Pasteur's discoveries also helped to save people who had already been infected with diseases. One such disease is **rabies**. Rabies is a disease that sometimes **occurs** in animals. This disease usually kills the animal, but before dying, the animal becomes very aggressive, and may **spread** the disease by **biting** a person or another animal. One day, the parents of a young boy came to Pasteur. Their son had been bitten by a dog that had the rabies disease. The parents knew that their son would die from the disease, unless something could be done to save him. Pasteur agreed to help the boy, and the immunization technique saved the boy's life. Pasteur died in 1895. He was greatly admired around the world for his **achievements**, which have helped all of **humankind**. Today, Pasteur is **considered** to be the greatest **figure** in the history of medicine.

discovery	keşif
greatly	büyük ölçüde
agricultural	tarımsal
ındustry	endüstri
excellent	mükemmel
extremely	son derece, oldukça
ınvisible	görünmez
to advise	tavsiye etmek

Soruları çözmeden önce sonraki sayfadaki "**Kelime Kullanımı Ve Kelime Sorularının Çözümü"** bölümünü okuyun lütfen.

1. Einstein ----- that the speed of light is constant, regardless of the motion of the observer.

A) advised B) weakened
C) demonstrated D) infected
E) prevented

Einstein, ışığın hızının sabit olduğunu ne yaptı?

2. The story of George Washington Carver's life is interesting and inspiring, as it shows how some people can ----- success despite adversity.

A) weaken B) arise
C) consider D) achieve
E) solve

İnsanlar başarıyı ne yapabilirler? Ve Carver'ın yaşamı bunu gösterebilir?

3. The president gave to the press that terrorists had threatened to ----- the water supply with a deadly virus.

A) suffer B) infect
C) attach D) attract
E) arise

Su kaynağını ölümcül bir virus ile ne yapacak?

4. There is always the chance that a/an ----- will use nuclear weapons and start a nuclear war.

A) extremist B) discoverer
C) patience D) demonstration
E) contribution

Bir ne nükleer silah kullanıp nükleer savaş başlatır?

5. What we teach to our students in class is no doubt closely related to what we have learned or discovered from our -----.

A) violence B) achievers
C) advice D) prevention
E) researches

Çocuklara öğrettiğimiz şeyler nelerimizden öğrendiğimiz şeylerdir?

6. There is ample evidence that ----- for the safety of the public is not always a priority in business decisions.

A) aggression B) consideration
C) disinfectant D) extremity
E) weakness

Kamu güvenliği için olan neler ticari kararlardan bi öncelik değil?

7. In 1798, Edward Jenner proved that people could be vaccinated against ----- diseases.

A) excellent B) achievable
C) infectious D) undeveloped
E) patient

Insanlar nasıl hastalıklara karşı aşılanır?

8. It is ----- to take the stairs instead of the elevator in case of an emergency such as earthquake, tsunami and fire.

A) advisable B) contributory
C) superhuman D) inconsiderate
E) extremist

Deprem anında asansör yerine merdiveni kullanmak nedir?

9. The Islamic world generally held far more ----- attitudes toward people with mental illnesses, unlike western countries which tortured them.

A) humane B) searching
C) demonstrative D) weak
E) violent

Zihinsel engellilere eziyet eden batı ülkelerinin aksine İslam dünyası onlara karşı nasıl bir tutum sergilemiş?

10. Newton answered the objections carefully and at first ----- <u>but</u> later with growing irritation.

A) extremely B) searchingly
C) patiently D) repeatedly
E) violently

Adam başlangıçta nasıl bir şekilde cevap vermis ama daha sonra git gide artan bir sinir ile cevap vermiş?

11. Although Edison was a/an ----- creative man, he believed that his success was due to many hours of hard work.

A) violently B) humanely
C) weakly D) extremely
E) impatiently

Edison nasıl yaratıcı bir adamdı?

12. Beethoven performed some music for Mozart, who was -----impressed by the talent of this young man

A) infectiously B) knowingly
C) greatly D) decidedly
E) considerately

Mozart nasıl/ne kadar etkilenmiş?

Kelime Kullanımı Ve Kelime Sorularının Çözümü

Her parçadan sonra verilen kelime türemelerinin aktif olarak kullanımını anlamak için aşağıdaki açıklamaları lütfen dikkate alın. Daha sonra da türemeler listesi altındaki kelime sorularını çözün.

1. Verbs/Fiiller

Derse başladığımız ilk günden beri hep I love you deyip durduk ve yine I love you ile devam edeceğiz. Bir cümle içinde love yerinde kullanılan yapıya verb/fiil diyoruz. Sos tablosu ile genel olarak fiillerin İngilizcedeki kullanımlarını verdik. 1. sütunda am/is/are/was/were/will be yapılarını verirken her ne kadar o dönemdeki seviyelere bağlı olarak fiil yok desek de aslında "be" fiili söz konusu idi. Diğer sütunlarda da zamanlar bağlamında kullanımlarını gördük. Bunlara ek olarak "Modals" konusu içinde de fiillerin kullanımı var. Ayrıca "Gerund- Infinitive" konusu içinde fiillere yönelik birtakım özellikleri gördük. Birkaç örnek ile fiilleri görelim. Fiillerin altlarını çizip koyu olarak göstereceğim.

I **love** you.
You **have learnt** English up to now.
İrem **is studying** at the moment.
I can **hear** the kettle **boiling**.
When I **was walking** in Hançerli, I **saw** many birds.

Kelime soruları içindeki fiil sorularını çözerken:

Kelime sorularında sorulan fiil sorularını çözerken fiilin geçişli olup olmadığına dikkat etmeliyiz. Neymiş bu geçişli-geçişsiz fiil ve bunu nasıl kullanacağız bakalım.

a. Transitive - Geçişli fiil: Bu fiiller kendinden sonra nesne alabilen fiillerdir. Hani taaa level1 içinde love diyorsanız devamında you'sunu da demelisiniz derdik ya ve eklerdik: Fiilin nesnesini mutlaka kullanmalıyız diye işte o günden fark ettirmeden bu konuya dikkat çekmeye çalışırdık. Ve yine passive konusu içinde bu konuya değinmiştik. Passive yapabilmek için nesnenin kulağından tutup başa almamız lazım demiştik. Eğer nesnesi yoksa passive fiil olmaz demiştik. Dolayısıyla fiil geçişli ise mutlaka nesnesini kullanmamız gerek devamında. Eğer passive yapmışsak nesneyi başa almalıyız.

eat a banana, drive a car, love a girl, watch a film, break a glass…

Bu durumda geçişli fiillere dair soru sorulmuşsa nasıl çözeceğiz. Tabii ki nesnesine ve öznesine bakacağız. Özne o nesne ile ne yapar.

I ----- tea. (drive-drink-see-eat). Çok mu kolay oldu? 😊amacımız nasıl düşünmeniz gerektiğini öğretmek. Bu soruda "Ben çayı ne yaparım?" diye düşünmemiz lazım. Drive ve eat olamayacağına göre see ve drink arasında kalıp daha uygun olanını seçmemiz gerek.

I ----- a car. (drive-drink-see-eat). Ben arabayı ne yaparım? Bu kez drink ve eat gider ve drive ve see kalır. Anlam olarak drive çok daha güzel duruyor ama soru kökünde başka bağlam varsa ona bakmak gerekir.

An apple was -----. (eaten, drunk, read, seen). Bu kez passive bir cümle var. Nesne ne yapıldı? Diye düşünmemiz lazım.

b. Intransitive- Geçişsiz fiil: Bu fiiller kendinden sonra nesne almıyorlar. Yani sürecin başından beri love varsa you olacak kuralımız bu fiiller için geçerli değil çünkü bunların nesnesi olamıyor. Mesala, yükselmek/artmak anlamında "rise" fiili. Enflasyon yükseldi/arttı. Güneş yükseldi. Dediğimizde fiilin nesnesi olamıyor. Aynı durum Türkçede de geçerli.

The inflation **rose**.
The building **collapsed**.
I **lived** in Elazığ.
The girl **smiled**.
Ali **sat** down.

Bu durumda fiilleri öğrenirken geçişli olup olmadıklarına da dikkat etmemiz gerekiyor.

Soru çözerken eğer geçişsiz fiil sorulmuşsa bu durumda o özne "ne yapar/ ne olur" diye düşünmemiz gerekir.

Önemli not: Burada örnekleri bilerek çok kolay yapıyorum ki daha rahat bakış açısı geliştiresiniz.
The inflation ----- in 1985. (rose-smiled-ate-drove). Enflasyon ne oldu? Yükseldi? Gülümsedi? Yedi? (Nesne gerekirdi.) Sürdü (nesne gerekirdi.) (Bu arada sürdü derken devam etti anlamında değil araba sürdü anlamında. Türkçemizin azizliğine de dikkat etmek gerek :P)

2. Nouns/İsimler:

I love you cümle dizgisi içerisinde öncelikle I ve you yerinde kullanılır. Yani başlıca özne ve nesne konumunda kullanılır. Ama Noun Clause konusu kapsamında anlattığımız gibi temel 5 yerde kullanmak mümkün.

1. Özne konumunda (fiilden önce): **The girl** loves the cat.
2. Nesne konumunda (fiilden sonra): The girl loved **the cat**.
3. Preposition'dan sonra: The girl was interested in **cats**. The girl saw a cat in **the garden**.
4. Sıfattan sonra: The girl saw a cute **cat.** The clever **boy** saw an old **lady** in the busy **street**.
5. To be fiilinden sonra (am/is/are/was/were/be…'den sonra): Ayşe is the girl who saw the cute cat in the big garder.

Soruları çözerken bu konumlara dikkat ederek çözersek çok daha rahat çözeriz.
Mesela **özne konumunda** bir isim sorulmuşsa o fiili ve nesneyi Kim/ne yapar diye düşünmek gerek.

The ----- ate the mouse.(cat-girl-inflation-car) 😊 çok zor oldu ama işte fikriniz olsun. Fareyi ne yedi? Kedi yedi? Kız yedi :P ? Enflasyon yedi? Araba yedi?

Nesne konumunda ise özne neyi/kimi yaptı? Fiile dikkat etmek gerekecek.

The cat ate the -----. (girl- mouse-inflation-car) Kedi neyi yedi?

Preposition'dan sonra ise prep'in ne tür prep olduğu önemli. Zaman/Mekan ise bunlara uygun soru sorulmalı. Eğer bir fiile/sıfata bağlı ise ona göre soru sorulmalı.

Ali saw the cat in the -----. (garden-girl-inflation-table). Mekan prep'i olduğu için nerede gördü diye düşünmeniz gerek.

Ali saw the cat in the garden in the -----. (evening-girl-inflation-table). Mekanı zaten verdiğinden doğrudan zaman diye düşünüp sormak gerek.

Ali is intereseted in the ----- and he feeds one at home. (cats-girls-inflation-sky). Prep burada interested sıfatına bağlı dolayısıyla neye ilgi duyuyor diye düşünmek gerek ayrıca yukarıdaki örneklerden ayrı olarak bağlam da verilmiş. Bir tane evde besliyor diye. Dolayısıyla ne besliyor diye de düşünmek gerek.

Sıfattan sonra ise sıfat orada hangi ismi niteler diye düşünmemiz gerek. Mesala

Ali saw a massive ----- and was frightened.(kocaman devasa bir ne gördü ve korktu?) (mouse-car-table-book).

3. Adjectives/Sıfatlar:

Sıfatlar temel olarak bir isimden önce ve onu niteler şekilde ya da to be (am/is/are/was/were/be..)'den sonra gelir. Bazen özel bir takım fiillerden sonra da kullanımları mümkündür.
A beautiful girl/A clever boy/a cute cat/big cities/a fast car… (isimden önce)

Ayşe is clever. / Ali is hardworking. / The car is fast. (to be'den sonra)

Algıma fiilleri gibi bazı fiillerden sonra sıfat kullanmak yine mümkündür. (look,seem, taste, smell, feel, sound) Bu fiiller görünmek, tadında olmak, kokmak, hissini vermek, kulağa gelmek anlamlarında iseler yani geçişsiz iseler (nesne almıyorlarsa) devamlarında sıfat alırlar. (Zarf almazlar.)

The soup smells/tastes delicious. / She looks beautiful. / It feels rough. / That sounds crazy.

Ayrıca sıfatları fiil yapmak için kullanılan (get/become/prove/grow) fiilleri de kendilerinden sonra sıfat alabilir.

Get Become	beautiful = güzelleşmek (get/become beautiful) small = küçülmek better = iyileşmek worse = kötüleşmek cold =soğumak warm =ısınmak vb kullanımlar.

Soruları çözerken eğer ismin önünde ise sıfatın o ismi niteleyip nitelemediğine bakmak gerekir. Aynı durum to be sonrasında ise yine geçerlidir.

A ----- car (weak-cold-deep-fast) Nasıl araba? Zayıf araba? Soğuk araba? Derin araba? Hızlı araba?
The car is very ----- ((weak-cold-deep-fast) Aynı durum burada da geçerli. Araba çok ne?

Sıfat alabilen özel fiiller söz konusu ise o fiille beraber çevirmek gerekir.

The country has become -----. (thin-narrow-delicious-modern) Ülke ne oldu? İnce oldu? Dar oldu? Lezzetli oldu? Modern oldu?

4. Adverbs/Zarflar:
Zarflar genellikle bir fiili nitelerler ve bazen fiilden önce bazen ise fiilden sonra gelirler. Sıklık zarfları (never, always, usually, sometimes, hardly ever…) genellikle fiilden önce gelirler ama to be (am/is/are/was/were/be…)'den sonra gelirler.

She is **always** happy. (to be'den sonra sıklık zarfı) / She **always** gets up early. (fiilden önce sıklık zarfı).

She drives her car **slowly/carefully/carelessly/cautiously/fast**. (heps -ly alırken fast almadı çünkü zarf hali aynı) (örnekte zarflar fiilden sonra gelip fiilin nasıl gerçekleştiğini anlatıyor. O arabayı yavaş/dikkatli/dikkatsiz/tedbirli/hızlı sürüyor.

Ayrıca Zarflar sıfatlardan ve zarflardan önce gelerek onları da niteleyebilirler. Çoğunla -ly takısı alarak sıfatlar zarflara dönüşür. Ama bu durumun da istisnaları vardır.
Extremely beautiful/fast/modern (son derece güzel/hızlı/modern) sıfatı niteler konumda zarf kullanılmış.

She drives her car **very/really/extremely** slowly. (zarfı niteler durumda zarf)
Soruları çözerken sorulan zarfın neyi nitelediği belirlenip ona göre düşünülmeli.

2. Psychology

Are you interested in the **behaviour** of people and animals? If you are, then you might enjoy the study of psychology. Psychology is the study of behaviour, but this is a very large area of study. There are **several** different branches of psychology, each of which studies a different **aspect** of behaviour. Social psychologists study interactions **among** people. For example, a social psychologist might try to learn about the **situations** that **cause** people to **behave** **aggressively**. Another question studied by social psychologists is why **certain** people become **attracted** to **each other**. One of the interesting problems in social psychology is **conformity**: what causes people to behave in the same way, and to follow what others do and say? **Cognitive** psychologists study thinking, **memory**, and language. One problem studied by cognitive psychologists is how people remember numbers. For example, what is the best way to memorize some numbers? Is it better to repeat the numbers to **oneself**, or to try to **attach** some meaning to these numbers? A cognitive psychologist might also study language. For example, why can young children learn a second language so quickly and easily? Cognitive psychologists are also interested in the ways that people learn to **solve** problems, such as finding a new place. Clinical psychologists study mental illnesses. For example, a clinical psychologist might try to find out the causes of depression and to **figure out** ways of helping people who are depressed. Other clinical psychologists might study the behaviour of people who **suffer from** **addiction** to drugs, ***so that*** this problem can be **prevented** and treated. Another topic of interest to clinical psychologists is **violent** behaviour. It is very important to find ways of preventing **violence** and to change the behaviour of persons who act **violently**. Some psychologists are interested in the **measurement** of psychological **characteristics**. For example, psychologists might develop tests to **assess** a person's **intelligence**, **personality traits**, or interests. These tests can be used to help people **make decisions** about education, **occupation**, and clinical treatment. Psychologists who study the behaviour of animals are called ethologists. Ethologists often go into **wilderness** areas to watch the activity of birds, fish, or other animals. These psychologists try to figure out why it is that some animals have "**instincts**" for **various** behaviours such as **parenting**, **mating**, or **fighting**. Some ethologists have learned very much about the unusual behaviours **observed** in many animals. These are only a few of the many areas of psychology. **Truly**, psychology is one of the most interesting areas of **knowledge**!

behaviour	davranış
several	birçok
aspect	özellik, yön
interaction	etkileşim
among	arasında
situation	durum, hal
to cause	neden olmak
to behave	davranmak
aggressively	saldırgan bir şekilde

1. The minister denied the accusation that he ----- dishonestly during the time he was in office, and added that somebody was setting a trap.

A) attracted B) attached
C) behaved D) suffered
E) prevented

2. There is a blood test to ----- levels of a protein that might signal the presence of cancer.

A) solve B) measure
C) violate D) vary
E) attach

3. Manners ----- from culture to culture, but the intention is the same: to treat people with consideration.

A) act B) solve
C) behave D) violate
E) vary

4. Such documents, appended to an e-mail message, are called -----.

A) violence B) solution
C) attachments D) attraction
E) variance

5. By the end of this year, we certainly will have found a satisfactory ----- to our computer security problem.

A) suffering B) solution
C) intelligence D) decision
E) character

6. Scientists have gained detailed ----- of the complex process of photosynthesis, which will be summarized only briefly in this book.

A) repetition B) prevention
C) violence D) measurement
E) knowledge

7. There is increasing ----- regarding the possible effects of global climate change on worldwide patterns of rainfall, so no one knows for sure what will happen.

A) solution B) uncertainty
C) memory D) attraction
E) decision

8. Even though dolphins and monkeys have developed differently over time, their brains have developed a similar -----.

A) repetition B) violence
C) decision D) intelligence
E) measure

9. Other forms of therapy, such as ----- therapy and cognitive therapy, focus on the behavior itself and teach people skills to correct it.

A) violent B) measurable
C) soluble D) truthful
E) behavioral

10. In Nigeria, many tribes sometimes fight ----- with each other and with other minority groups.

A) violently B) truthfully
C) insufferably D) indecisively
E) memorably

11. People who get migraine headaches get them ----- month after month, year after year.

A) decisively B) truly
C) knowingly D) repeatedly
E) intelligently

12. Often an infected person remains unaware that he or she carries HIV and ----- transmits the virus to others during this phase of the infection.

A) unknowingly B) memorably
C) violently D) variously
E) knowledgeably

3. Corruption

When an **official** of a **government** or business is acting dishonestly, we say that this person is corrupt. **Corruption** is a serious problem in many countries around the world. There are several different kinds of corrupt practices, **including** **bribes**, **kickbacks**, **nepotism**, and **embezzlement**. A bribe is a **payment** of money or some other **benefit**, **in exchange for** a decision that would not **otherwise** be made. For example, an **accused** **criminal** might bribe a judge so that the judge would make a decision of "not **guilty**." Another example is that a business owner might bribe a government official so that the official would **allow** the **construction** of very **unsafe** buildings. A kickback is similar to a bribe, except that the official receives some part of the money in a dishonest business deal. For example, governments sometimes decide which **company** should build a road. A company might offer money to the government official who makes the decision, so that this company will be chosen, ***even if*** it is not the best company for the job. Nepotism happens when an official **unfairly** gives **advantages** to his or her relatives. For example, a government official might hire a brother or sister to do a job ***even though*** other people would be much better qualified for the job. Of course, all of us want to help our relatives, but it is wrong to do this **at the expense of** the public. Embezzlement happens when an official secretly steals some money from a company or government. For example, a **manager** at a company might secretly move some of the company's money to his or her own bank account, or that manager might lie about his or her expenses **in order to** receive more payment from the company. Corruption has very bad effects on people, **in several ways**. Sometimes it can **lead to** very dangerous **situations**. One example of this is when unsafe construction projects are **approved** by officials who have been bribed. Another example is when criminals are **freed** **as a result of** bribes. Also, a country's economy can be **damaged** by **corruption**. For example, if companies must pay bribes in order to do business, then they may decide to leave the country. Also, if people's tax money is stolen by corrupt officials, this makes the people poorer. **In addition**, when company officials are corrupt, it makes the company less able to **compete with** other companies. How can corruption be stopped? An important step is for each person to decide not to act in ways that are corrupt. People must agree to **take this problem seriously**. Also, each company and each government must have **strict rules** about corruption. It must be very clear to all employees-from the lowest to the highest-that corruption is **totally unacceptable**.

official	resmi, memur, subay
government	hükümet
corrupt	yolsuzluk yapan, şerefsiz
corruption	yolsuzluk, rüşvet alma
ıncluding	içeren, kapsayan

A) unsafe B) fair
C) unpaid D) guilty
E) acceptable

9. Juries were often reluctant to hang someone for stealing something small, and might declare the person "not -----".

A) guilty B) underpaid
C) official D) unacceptable
E) manageable

10. Mandela wrote much of his autobiography ----- in prison, where it was strictly forbidden for him write anything about his life.

A) freely B) safely
C) secretly D) approvingly
E) competitively

11. We need to find sensible ways to manage our resources, and to share them out more -----.

A) guiltily B) criminally
C) disapprovingly D) fairly
E) unacceptably

12. In 1942, the Manhattan Project, the American effort to develop an atomic bomb, ----- began although a lot of people were against it.

A) criminally B) accusingly
C) additionally D) fairly
E) officially

4. Canada : Provinces and Territories

Canada is one of the largest countries in the world. It is **located** in the **northern** half of the continent of North America, above the United States. Canada is **divided into** ten provinces and three territories, each of which is different from the others. The province of British Columbia is located at the far western end of Canada. British Columbia **stretches** from the Pacific Ocean, at the west, to the Rocky Mountains, at the east. British Columbia **contains** the city of Vancouver, where two million people live. Most of the **land** of British Columbia is very mountainous, with **vast** **forests** **covering** the mountains. In British Columbia, forestry is an important **industry**, **providing** wood for people around the world. Moving east from British Columbia, the next provinces are Alberta, Saskatchewan, and Manitoba. These are known as the prairie provinces, because they are mostly made of flat, grassy land **called** "prairie." Alberta is the province where the flat prairie meets the tall and beautiful **Rocky** Mountains. In Alberta, there are many fields where **oil** and gas are found, and there are also many farms where cattle are **raised**. Saskatchewan is the Canadian province that grows the most **wheat**. Wheat from Saskatchewan is sent around the world to make bread and pasta for many people. Manitoba is the other prairie province. Its largest city, Winnipeg, is about halfway between the Pacific and Atlantic oceans. Winnipeg has the coldest winters of any large city in the world, with temperatures sometimes reaching -40 degrees Celsius! Moving east, the next province is Ontario. The land in the northern part of Ontario is very rocky and contains many thousands and thousands of lakes. Many **mines** are found in northern Ontario. In the southern part of Ontario, there is good farmland, and there are also many cities where factories produce cars and **steel**. Ontario contains Canada's largest city, Toronto, ***as well as*** the capital city of Canada--Ottawa. In the southern part of Ontario are four of the largest lakes in the world, ***known as*** the Great Lakes. ***Next to*** Ontario is the province of Quebec. ***Unlike*** the other provinces, where most people speak English, most of the people in Quebec speak French. The capital of Quebec is called Quebec City, and this is one of the oldest cities in North America. Quebec City contains many buildings that are hundreds of years old. Also in the province of Quebec is the city of Montreal. ***Of all the*** French-speaking cities in the world, only Paris is larger than Montreal!

In the eastern part of Canada are the Atlantic provinces, which are next to the Atlantic Ocean. These provinces are New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland. In the Atlantic provinces, fishing is an important industry. Tourism is also important ***as*** many people come to see the beauty of these provinces. The people in these provinces are said to be the friendliest in Canada. In the far north of Canada are the three territories that lie ***beside*** the **Arctic** Ocean: Yukon, Northwest Territories, and Nunavut. Many of the people in these territories are the **Native** people of Canada, known as the Indians and the Inuit. The northern areas have very cold, dark winters. The summer is short, but the days are very long and bright.

to be located	bir yerde bulunmak, uzanmak

11. These are known as the prairie provinces, because they are ----- made of flat, grassy land.

A) mostly B)
C) D)
E)

12. The Carvers taught George to read and write, and he became known ----- as an expert on plants in his town.

A) B)
C) D)
E) locally

5. Two Great Artists : Leonardo and Michelangelo

Many people **admire** the paintings and **sculptures** that artists **create**. Some very beautiful paintings and sculptures were created by two men who lived in the same country at the same time. These men were Leonardo da Vinci and Michelangelo. They both lived in Italy around the year 1500. Leonardo da Vinci is most famous for his painting called the Mona Lisa. This is perhaps the best-known painting in the world. The Mona Lisa shows the head and shoulders of a dark-haired woman. When people look at this painting, they are often **captivated** by her smile and by her eyes, which have a look of **mystery**. Another painting of Leonardo's is called The Last Supper. This painting shows a famous scene from the Christian religion. In this painting, **Jesus Christ** is seated at the middle of a long table, with his followers (the **disciples**) seated around him. Many of the paintings that were created at this time have a religious theme. Leonardo was not only an artist; he was also interested in engineering. He actually worked for some time as an advisor to a military leader, helping him to develop new machines for use in war. Leonardo also made **rough** drawings of machines that are similar to those that were **invented** much later, such as **submarines** and helicopters. **Obviously**, Leonardo was an extremely creative man. Michelangelo was about 23 years younger than Leonardo. ***In addition to*** being a painter, Michelangelo was also a **sculptor**, and many **experts** consider him the greatest sculptor of all time. One of his most famous sculptures is David, which is a **statue** of a young man who was a famous figure in **the Bible**. Another great sculpture of Michelangelo's is called the Pieta. The Pieta shows Mary, the mother of Jesus, holding the body of her son across her lap. Michelangelo is also famous for painting the **ceiling** of a church known as the Sistine Chapel. The leader of the Roman Catholic Church, Pope Julius, asked Michelangelo to paint the ceiling of this new church. This project **required** many years of hard work, and the Pope **complained** that it took too long. ***However***, when the work was finished, the ceiling of the Sistine Chapel was covered with beautiful paintings of many scenes from the Bible. **Fortunately**, many of the works of Leonardo and of Michelangelo can still be seen today in the art galleries of Europe. During the past 500 years, the color of the paintings had **faded** **somewhat**, but ***in recent years***, some work has been done to restore the paintings to their **original** **appearance**.

to admire	hayran olmak
sculpture	heykel
to create	yaratmak, oluşturmak
to captivate	tutsak etmek, ele geçirmek
to be captivated	büyülenmek, hayran kalmak

A) In spite of B) Similarly
C) If D) Because of
E) Although

4. **In British Columbia, forestry is an important industry ----- it provides wood for people around the world.**

A) because B) as soon as
C) regardless of D) besides
E) before

5. **Leonardo was interested in engineering ----- art and he was really creative in both.**

A) such as B) in addition
C) even if D) however
E) besides

6. **Pasteur's techniques helped greatly to develop medical science ----- the agricultural and food industries.**

A) after B) while
C) nevertheless D) in addition to
E) in case of

7. **----- you are interested in the behavior of people and animals, you might enjoy the study of psychology, which is interested in behaviors.**

A) Even though B) But
C) If D) So that
E) In case

8. **----- an official secretly steals some money from a company or government, it is called embezzlement.**

A) Moreover B) As well as
C) Though D) Before
E) When

9. **Saskatchewan is the Canadian province that grows a lot of wheat ----- Alberta, where cattle are raised.**

A) in addition B) unlike
C) in case of D) because of
E) if

10. **When people look at this painting, they are often captivated ----- its mysterious appearance.**

A) due to B) whenever
C) but D) similarly
E) in spite of

11. **Because of Pasteur's technique, people are no longer infected with diseases by drinking liquids ----- milk or beer.**

A) but B) while
C) whether D) such as
E) after

12. **Ethologists often go into wilderness areas ----- they can watch the activity of birds, fish, or other animals.**

A) however B) even if
C) besides D) so long as
E) so that

13. **Corruption has very bad effects on a country; -----, a country's economy can be damaged by corruption.**

A) for example B) due to
C) in addition to D) except for
E) when

14. **The summer is short in the northern areas near the arctic region, ----- the winter is long.**

A) so that B) hence
C) so D) moreover
E) whereas

15. **Some work has been done ----- restore the paintings to their original appearance in recent years.**

A) before B) in order that
C) in order to D) even though
E) thanks to

16. **Many diseases could be caused by extremely small, invisible organisms; -----, Pasteur advised doctors to wash their hands thoroughly before treating patients.**

A) moreover B) when
C) owing to D) in case of
E) therefore

17. **Social psychologists study interactions among people, ----- cognitive psychologists study thinking, memory, and language.**

A) consequently B) while
C) in spite of D) because
E) in addition

18. **There are several different kinds of corrupt practices ----- bribes, kickbacks, nepotism, and embezzlement.**

A) so B) hence
C) moreover D) such as
E) however

19. **Wheat from Saskatchewan is sent around the world ---- make bread and pasta for many people.**

A) such as B) for example
C) in order to D) thanks to
E) except for

20. **----- Michelangelo was about 23 years younger than Leonardo, he was as successful as Leonardo.**

A) Although B) So
C) Except for D) Moreover
E) Because

21. Pasteur did some excellent work in chemistry ----- he was studying at a university in the city of Paris.

A) because B) due to
C) while D) therefore
E) in addition to

22. A cognitive psychologist might study language ----- thinking and memory.

A) as a result B) in spite of
C) however D) thanks to
E) besides

23. A business owner might bribe a government official ----- the official will allow the construction of very unsafe buildings.

A) similarly B) such as
C) therefore D) in order that
E) for instance

24. ----- Antalya, Winnipeg has cold winters, which is why hockey is played there.

A) Unless B) But
C) Unlike D) Consequently
E) Owing to

25. There are many sculptures of Michelangelo, ----- the most famous one is David.

A) so B) in order to
C) as soon as D) but
E) therefore

26. The body cannot resist the disease ----- being immunized in this way, so it should be immunized.

A) unlike B) as well as
C) until D) although
E) regardless of

27. Psychology is a very large area of study, ----- there are several different branches of psychology.

A) because B) so
C) in order that D) if
E) even so

28. ----- an official unfairly gives advantages to his or her relatives, this is called nepotism and it can cause considerable damage to that country.

A) Although B) Similarly
C) Even if D) When
E) But

29. Alberta, Saskatchewan, and Manitoba are known as the prairie provinces ----- they are mostly made of flat, grassy land called "prairie."

A) consequently B) in case
C) however D) as
E) moreover

30. Leonardo worked for some time as an advisor to a military leader, helping him to develop new machines for use in war ----- cannons and guns.

A) because of B) such as
C) moreover D) therefore
E) unless

31. Pasteur advised doctors to wash their hands thoroughly ----- they treat their patients.

A) because B) owing to
C) after D) thanks to
E) however

32. Clinical psychologists study mental illnesses ----- cognitive psychologists who study thinking.

A) in order to B) hence
C) unlike D) similarly
E) whether

33. Corruption can lead to very dangerous situations; -----, unsafe construction projects can be approved by officials who have been bribed.

A) so long as B) but
C) unless D) instead
E) for example

34. In the Atlantic provinces, fishing is an important ----- tourism and farming.

A) before B) so that
C) because of D) as well as
E) consequently

35. The boy was made safe, immune ----- he was injected with some weakened germs that caused the disease.

A) in case B) unless
C) while D) when
E) due to

36. The parents knew that their son would die from the rabies ----- something could be done to save him.

A) after B) regardless of
C) unless D) because
E) whether

37. Some animals have "instincts" for various behaviors ----- parenting, mating, or fighting.

A) such as B) in addition
C) although D) thanks to
E) as

38. A government official might hire a brother or sister to do a job ----- other people would be much better qualified for the job and this is called nepotism.

A) moreover B) even though
C) unlike D) if
E) unless

39. ----- Leonardo is known for his paintings, Michelangelo is known for his sculptures.

A) In case B) As a result
C) While D) After
E) Besides

40. ----- you want to see the works of Leonardo and Michelangelo, you can go to the art galleries in Europe.

A) As soon as B) However
C) Due to D) Instead
E) If

1. Test Zamanlar

1. **Louis Pasteur ----- one of the greatest scientist of all the time since he made very important discoveries in biology and chemistry like pasteurization.**

A) would be B) was
C) had been D) has been
E) will be

2. **When he was a young, Pauster ----- science at a university in the city of Paris, where a lot of famous scientists were lecturer..**

A) studied B) studies
C) will study D) has been studying
E) had studied

3. **Rabies is a disease that sometimes ----- in animals which are both wild and domestic.**

A) occurs B) will occur
C) occurred D) had occurred
E) was occurring

4. **Rabies usually ----- the animals infected, but before dying, the animal becomes very aggressive and may spread the disease by biting a person or other animal.**

A) killed B) will kill
C) kills D) had killed
E) has been killing

5. **Pasteur ----- one of the first scientist to understand that many disease could be caused by extremely small, invisible organisms.**

A) is B) will be
C) had been D) would be
E) was

6. **Pasteurization ----- the germs that are found in drinks such as milk or beer.**

A) killed B) kills
C) will kill D) had killed
E) was killing

7. **I ----- the behaviour of people and animals since my graduation from university.**

A) had worked B) have been working
C) was working D) will work
E) worked

8. **Psychology ----- the study of behaviour, which is a very large area of study and which is divided into many branches.**

A) will be B) was
C) has been D) is
E) had been

10. **There ----- several different branches of psychology, each of which studies a different aspect of behavior.**

A) were B) are
C) will be D) have been
E) had been

11. **Cognitive psychologists ----- only thinking, memory and language in the past, but today they also study brain and brain functions.**

A) study B) studied
C) will study D) have been studying
E) were studying

12. **Psychologists who study the behaviour of animals are called ethologists who ----- wildness areas to watch the activity of birds, fish or other animals.**

A) have gotten into B) go into
C) will go into D) were going into
E) had gone into

13. **Some ethologists ----- very much about the unusual behaviours observed in many animals up to now.**

A) had learned B) will be learning
C) have learned D) were learning
E) learned

14. **Psychology has a very large area of study, which I believe ----- one of the most interesting areas of knowledge in near future.**

A) is B) will be
C) has been D) had been
E) was

15. **Lately, I ----- a lot about clinical psychology, which is an important sub-branch of psychology.**

A) learned B) will have learned
C) have learned D) learn
E) was learning

16. **Corruption ----- a serious problem in many countries around the world for the last five years.**

A) is B) was
C) had been D) will be
E) has been

17. **Corruption ----- very bad effects on people in several ways, which can lead to very dangerous situations.**

A) has B) has had
C) had had D) will have
E) had

18. **When company officials are corrupt, it ----- the company less able to compete with other companies.**

A) made B) had made
C) has been making D) makes
E) was making

19. **Our company ----- strict rules since its foundation.**

A) had B) has had
C) will have D) has
E) had had

20. **Some workers in our company ----- their money yet. But, we will pay soon.**

A) didn't get B) hadn't gotten
C) haven't gotten D) don't get
E) won't get

21. The government ----- which company would build the new road when a new road was needed between the two neighboring countries.

A) decides B) will decide
C) has decided D) decided
E) was deciding

22. Nepotism often ----- when an official unfairly gives advantages to his or her relatives.

A) is going to happen B) happens
C) had happened D) has happened
E) happened

23. When an official of a government or business is acting dishonestly, we ----- that s/he is corrupt.

A) said B) will have said
C) say D) were saying
E) have been saying

24. Ali ----- as a manager at the company as my father over the last seven years.

A) has been working B) works
C) will work D) was working
E) had been working

25. A well-known company ----- several different kinds of corrupt practices, including bribes, kickbacks, nepotism and embezzlement recently.

A) had B) has
C) has had D) had had
E) will have

26. Canada ----- one of the largest countries in the world which is located in the northern half of the continent of North America.

A) was B) will be
C) has been D) is
E) had been

27. The province of British Columbia, which is located at the far western end of Canada, ----- from Pacific Ocean, at the west, to Rocky Mountains, at the east.

A) stretches B) will stretch
C) stretched D) has stretched
E) had stretched

28. Fishing and tourism ----- an important industry in the Atlantic provinces of Canada during the last three decades.

A) became B) become
C) will become D) have become
E) had become

29. Many people ----- Leonardo da Vinci and Michelangelo's painting and sculptures so far.

A) had admired B) will admire
C) have admired D) admired
E) admire

30. Leonardo da Vinci and Michelangelo ----- in Italy around the year 1500.

A) lived B) will live
C) had been living D) have lived
E) live

31. Leonardo da Vinci ----- most famous for his painting called Mona Lisa, which is perhaps the best known painting in the world.

A) was B) has been
C) is D) had been
E) will be

32. The experts ----- Michelangelo the greatest sculptor of all the time when they saw the sculpture "David".

A) have considered B) consider
C) will consider D) were considering
E) considered

33. Leonardo da Vinci ----- for some time as an advisor to a military leader, helping him to develop new machines.

A) will work B) works
C) worked D) has worked
E) is working

34. In Columbia, forestry ----- an important industry, providing wood for people around the world in 2000.

A) was B) will be
C) had been D) has been
E) is

35. The land in the northern part of Ontario ----- very rocky and contains many thousands and thousands of lakes.

A) is B) was
C) will be D) has been
E) had been

36. In the southern part of Ontario in Canada , there are many cities where factories ----- cars and steel which are sent all over the world.

A) produced B) will produced
C) will produce D) have produced
E) produce

37. Quebec City ----- many buildings that were hundreds of years old before they were destroyed because of the need for new buildings.

A) is containing B) contains
C) will contain D) has contained
E) had contained

38. Psychologists ----- tests to assess a person's intelligence, personality traits or interests in near future.

A) developed B) will develop
C) were developing D) have developed
E) develop

39. Unfortunately, nepotism ----- day by day in the last 50 years because everybody wants to help relatives.

A) is increasing B) is going to increase
C) increased D) had been increasing
E) has increased

40. A lot of people who are corrupt ----- because of getting involved in bribery soon.

A) will be punished B) were punished
C) is punished D) had punished
E) has punished

1. Test Passive

1. **Louis Pasteur ----- to have been born in a small town in France.**

A) is known B) will be known
C) knew D) has known
E) had been known

2. **Pasteur was one of the first scientists to understand that many diseases ----- by extremely small, invisible organisms.**

A) will be caused B) caused
C) could be caused D) have been caused
E) cause

3. **Doctors ----- to wash their hands thoroughly before they treat their patients.**

A) advise B) advised
C) were advised D) are advised
E) have advised

4. **Pasteurization kills the germs that ----- in drinks such as milk or beer.**

A) were found B) find
C) had been found D) are found
E) found

5. **Because of Pasteur's technique, people ----- no longer ----- with diseases by drinking milk or beer so far.**

A) x/infect B) x / infected
C) have/been infected D) were/infected
E) had/infected

6. **Today many diseases ----- by the use of pasteurization technique.**

A) have prevented B) were prevented
C) prevented D) prevent
E) are prevented

7. **Since he made his first discovery, he ----- around the world for his achievements, which have helped all of humankind.**

A) is admired B) admires
C) has been admired D) was admired
E) has admired

A) have solved B) is solved
C) solved D) was solved
E) solve

9. **Other clinical psychologists might study the behavior of people who suffer from addiction to drugs so that this problem -----.**

A) has treated B) can be treated
C) treat D) treated
E) was treated

10. **Ethologists often to into wilderness areas ----- the activity of birds, fish, or other animals.**

A) to watch B) watching
C) to have watched D) to be watched
E) being watched

11. **A bribe is a payment of money or other benefit, in exchange for a decision that ----- otherwise.**

A) was not made B) will not make
C) would not be made D) is not making
E) would not make

12. **A company might offer money to the government official who makes the decision, so that this company -----.**

A) was chosen B) has chosen
C) is going to choose D) will choose
E) will be chosen

13. **One example of bribery is when unsafe construction projects ----- by officials who have been bribed.**

A) have approved B) approve
C) had been approved D) are approved
E) were approved

14. **Canada ----- in the northern half of the continent of North America, above the United States.**

A) locates B) located
C) has been located D) is located
E) was located

15. **Alberta, Saskatchewan, and Manitoba ----- as the prairie provinces, because they are mostly made of flat, grassy land called "prairie."**

A) were known B) have been known
C) are known D) have known
E) know

16. **if people's tax money ----- by corrupt officials, this makes the people poorer.**

A) will be stolen B) was stolen
C) steals D) has stolen
E) is stolen

17. **Winnipeg ----- to have the coldest winters of any large city in the world, with temperatures sometimes reaching minus 40 degrees Celsius!**

A) is thought B) thought
C) thinks D) has thought
E) was thought

18. **Some beautiful paintings and sculptures ----- by two men who lived in the same country at the same time.**

A) had created B) were created
C) are created D) created
E) create

19. **Canada ----- into ten provinces and three territories, each of which is different from the others.**

A) divided B) is divided
C) divides D) had divided
E) has divided

20. **When people look at this painting, they ----- by her smile and by her eyes, which have a look of mystery.**

A) have been captivated B) captivated
C) are captivated D) captivate
E) were captivated

Çiçek to

1. Test RC

1. **Louis Pasteur, ----- was one of the greatest scientists of all time, made very important discoveries.**

A) which B) that
C) whose D) who
E) where

2. **Pasteurization kills the germs ----- are found in drinks such as milk or beer.**

A) whom B) where
C) which D) whose
E) who

3. **Pasteur's discoveries also helped to save people ----- had already been infected with diseases.**

A) why B) whose
C) where D) who
E) when

C) where D) who
E) why

39. Immunization technique ----- Pasteur discovered saved a boy's life in past.

A) whom B) where
C) why D) who
E) which

40. I don't know the reason ----- some people like Pasteur are more intelligent than us.

A) when B) why
C) where D) whose
E) whom

NOUN CLAUSES KONU ANLATIMI

Noun clauses oldukça önemli bir konu ama maalesef özellikle hazırlık sınıflarında ve bir çok dil öğretim kurumunda üzerinde çok durulmamakta. İngilizce bir makale elinize aldığınızda en fazla karşılaştığınız ve mantığını bilmiyorsanız en fazla zorlanacağınız konulardan biri bu maalesef. Ama ülkemizde siyasilerin çokça kullandığı bir kalıp olduğundan neyse ki çabuk kavranıyor (En azından bir işe yarıyorlar :P). Buradan söz veriyorum ki, biliyoruz ki…(Iyyy ki'nin bu kullanımını da hiç sevmem. Düzgün çevirisini öğrenin lütfen)

NCler cümlede bir ismin kullanılabileceği her yerde kullanılabilir. En çok 1. Kullanımı olan fiilin nesnesi olarak görürüz. Her kullanımı için birer örnek ezberlemek faydalı olabilir. Cümlede kullanıldıkları yere göre 5 başlık altında göreceğiz. Ayrıca That NC, Wh NC (Soru kelimeleri ile) ve If/Whether NC olmak üzere üç türü de vardır. Haydi cümlenin neresinde kullanılır bir bakalım. Her başlık altında 3 türüne de örnek vermeye çalıştım.

1)- Fiilin Nesnesi Konumunda:

I know **that** she is happy.
I know **what** she is going to do.
I don't know **whether/if** she will come (or not)

Not: That NC fiilin nesnesi konumunda ise "That" opsiyoneldir yani istersek kullanırız istersek kullanmayız.

I know **that** she is happy ya da I know she is happy.

Not: That NC'de That'ten sonra tam bir cümle gelir. Özne veya nesne eksik olmaz.

Not: Wh NC söz konusu ise dikkat edilmesi gereken en en en en en önemli nokta Wh'li sorunun düz cümleye çevrilmesidir. Yani normalde soru cümlesi içinde özneden önce olan yardımcı fiil Wh NC içinde özneden sonra olmalıdır.

What **are** you doing? (Bu bir soru çünkü yardımcı fiil "are" özneden önce)
I don't know what you **are** doing. (Wh NC çünkü yardımcı fiil "are" özneden sonra)

Who **is** Ayşe speaking to? (Bu bir soru çünkü yardımcı fiil "is" özneden önce)
I don't know who Ayşe **is** speaking to. (Bu bir düz cümle çünkü "is" özneden sonra)

Dikkat!!!

Who is speaking to Ayşe? (soru) (Özne olmadığı için)
I don't know who is speaking to Ayşe.
(Wh NC. Bu cümlede yardımcı fiilin yeri değişmedi çünkü zaten özne yok. Soru özneyi soruyor)

Not: Who ve What NC ise NC'li kısımda ya özne eksiktir ya da nesne.

I don't know **what** you are doing. (Do fiilinin nesnesi yok)
I don't know **what** happened to Ayşe. (NC kısmında özne yok)
I don't know **who** is speaking to Ayşe. (NC kısmında özne yok)
I don't know **who** Ayşe is speaking to. (Speak fiilinin nesnesi yok)

2)- To be Fiilinden Sonra:

Her ambition **is that** she wants to be a teacher. The question is when she will come.
The question **is whether/if** she will come (or not)

3)- Sıfattan sonra:

It is certain **that** she will come to the party. It isn't certain who will come to the party.
It isn't certain **whether/if** she will come to the party (or not)

4)- Prep'ten sonra:

I am not interested **in the fact that** she will come to the party.
(Prep'ten sonra That NC gelmez. "The fact that" kullanırız)
I am not interested **in whether** she will come (or not)
(Prep'ten sonra If NC olmaz. Fakat Whether olur)

I am not interested **in what** she is doing.

Not: Prep'ten sonra That NC kullanamayız ama "That" yerine "The fact that" kullanabiliriz ve anlamda ya da çeviride hiçbir değişiklik olmaz.
Not: Prep'ten sonra IF NC kullanamayız ama Whether kullanabiliriz.

5)- Özne Konumunda:

That she will come to the party isn't important. **When** she will come to the party isn't important.
Whether she will come to the party **(or not)** isn't important.
(Özne konumunda IF NC kullanılmaz ama "whether" olur)

Not: Özne konumunda IF NC olmaz fakat "Whether" olur
Not: Özne konumunda bir NC söz konusu ise NC'den sonra gelen cümlenin temel fiili kesinlikle tekil olur (is, has, goes, was).
Not: That NC özne konumunda ise That NC'nin That'i kesinlikle atılamaz. Eğer atılırsa iki cümle iç içe geçer(run-on sentence) (özne konumundaki That NC'nin That'i mutlaka kullanılmalıdır.)

NOUN CLAUSES'DA ZAMAN UYUŞMASI

Noun Clause'un birinci tarafı eğer present ise ikinci taraf hem past hem de present olabilir. Fakat Noun clause'un ilk tarafı past ise ikinci taraf Past olmalıdır.

I **think** that she **is** 15.
I **think** that she **was** 15.
I **thought** that she **was** 15.

I thought that she ~~is~~ 15. (Bu cümlede "is" kullanamayız.)

Not: NCnin ilk tarafı past olmasına rağmen ikinci taraftaki cümle eğer genel geçer bir durumsa ya da doğa olayı ise present olabilir fakat bu durumda da past olması daha uygundur.

Galileo said that the earth is round. Galileo said that the earth was round.

Not: Noun Clause'larda da cümlenin bir kısmı had done öteki kısmı present bir yapı olamaz. (Carrrrt kalıbı)

Not: Ask, wonder, want to know, want to learn ve inquire fiillerinden sonra THAT NC gelmez.

1. Test NC

1. **It isn't known exactly ----- Pasteur was born ,but it is thought to be a small town in France.**

A) which B) where
C) who D) whose
E) when

2. **It is obvious ----- Pasteur made very important discoveries in biology and chemistry.**

A) where B) whose
C) that D) when
E) who

3. **Pasteur was one of the first scientists to understand ----- diseases could be caused by extremely small, invisible organisms.**

A) when B) whose
C) which D) who
E) where

4. **The body can determine ----- virus it is in the body after being immunized.**

A) who B) whose
C) when D) where
E) what

5. **If you are interested in psychology, you can choose ----- subcategory of it you want.**

A) however B) wherever
C) whenever D) whichever
E) whoever

6. **A cognitive psychologist tries to find out ----- young children can learn a second language so quickly and easily but adults cannot.**

A) who B) why
C) where D) when
E) whose

C) who D) whether
E) which

19. **Nepotism happens ----- an official unfairly gives advantages to his or her relatives.**

A) what B) why
C) when D) how
E) whom

20. **It is wrong to give advantages to your relatives in an unfairly way no matter ----- they are.**

A) whose B) where
C) when D) that
E) who

Prepositions Konu anlatımı

Ah ki ah duyunca bile soğuk bir rüzgar esiyor (nerede, nereden, nereye :P). Articles (a, an, the) kadar olmasa da çok korkunç. O kadar korkunç ki Vh'nin el attığı son konu. Hep bir kaçası gelmiştir bu konuyu anlatmaktan. Sanki neresinden tutsa elinde kalacak gibi ama işte bir ucundan tutmak gerek.

Bir ucundan tutmaya çalışan tüm kaynaklar sınıflandırma yoluna gitmiş ve bu şekilde olayı çözmeye çalışmış ki bence de en güzel o.

Bu konuyu zor kılan şey bir prep'in (artık korkunç preposition kelimesi yerine bunu kullanacağım) bağlam içinde çok farklı anlamlarda ve konumlarda kullanılmasından kaynaklanıyor. "in" mesela içinde diye öğrendikten sonra bin farklı ortamda bin farklı anlama geldiğini görüyoruz. Of ki of. Hadi biz de kullanım sınıflarına bakalım.

1. Prep'leri zaman kelimeleri ile kullanmak mümkün. (on Monday, in 1998) gibi. Bu yüzden önce zaman kullanımlarında hangi kavramlarla hangi prep'leri kullanacağımıza bakacağız.
2. Prep'leri ayrıca mekan kelimeleri ile de kullanabiliriz. Bir şey nerede? İşte prep ile açıklarız.
3. Prep'leri hareketler ile de açıklamak mümkün. Yani nerede olduğu değil de hareket bildiren bir fiil ile nasıl bir hareket olduğunu anlatmak için kullanırız. (içinden, içine doğru, dışarı doğru….). Bu kullanımda fiiller çok önemli olacak.
4. Ayrıca ezberlememiz gereken bazı sıfatlar ve o sıfatlara ait prep'ler var. Ve bazı fiiller ve bazı isimler. (responsible for, interested in, depend on, vs.)
5. Ve bir de phrasal vebs var ki ah ki ah.

Şimdiden böööö olmakla beraber diyorum ki korkmayın aslında biraz soru çözünce çok kolay olacak. Sonuçta Vh olaya el attı 😊! Vira Bismillah.

1. Zaman İfadeleri ile Kullanılan Prep'ler

in

Uzun zaman dilimleri söz konusu olunca "in" kullanırız.

Aylarla	Months	in May, in June, in July, in January, in March
Yıllarla	Years	in 1980, in 2010, in 1980s, in 50 BC
Mevsimlerle	Seasons	in summer, in spring, in winter, in autumn
Asırlarla	Centuries	in the 19th century, in the 20th century, in Middle Ages
Günün belli saatinde		In the morning, in the evening, in the afternoon

Not: Eğer "morning, evening, afternoon" kelimeleri ile birlikte bir gün ismi varsa "in" yerine on kullanılır.

in the morning	in the afternoon	in the evening
On Monday morning	On Monday afternoon	On Monday evening

Not: Zaman kelimelerinin önünde "next, last, this" varsa prep almaz.

in summer	in winter	on Monday	
Last summer	Last winter	Last Monday	Last year
This summer	This summer	This Monday	This year
Next summer	Next winter	Next Monday	Next year

Not: Bir zaman dilimi içinde diyeceksek "in" kullanırız.
in five years, in two months, in a week, in five years' time, in two months' time, in a week's time

on

Günlerde ya da gün belirten tarihlerde on kullanırız. (day görürseniz :P)

On Sunday	On week**days**	On 18th January	On his/her birth**day**
On Monday	On Christmas **Day**	On 19th May, 1980	On Monday morning
On Friday	On her wedding **day**	On 1st June, 2020	On that date

Not: Normalde yıllarda ve aylarda in kullanılır ama bu ifadelerle birlikte bir gün verilmişse en küçük birim olan güne bakılır ve on denir. (in 1980, on 19th June, 1980)

at

Saatlerde	At 3:00, at 5 o'clock, at 10:00
Yemek saatlerinde	At tea time, at lunch time, at dinner time
Tatil günlerinde (**day** yoksa)	At Christmas, at easter
Kişinin yaşında	At 20, at the age of 20
At + time	At that time, at this time tomorrow, at this time yesterday
Bazı ifadelerde	At midday, at dawn, at midnight, at night, at noon, at the weekend, at the moment, at present, at the beginning of the year, at the end of the month

Not: "in the end, in the beginning" ifadelerine dikkat ediniz. Bunlar "in the end = sonunda, nihayetinde (finally, at last, ultimately)" ve "in the beginning = başlangıçta" anlamlarına gelir ve "in" ile kullanılırlar. Oysa aynı ifadeler "**at** the end **of** the year/month/lesson/term" şeklinde "of" ile de kullanılırlar. "Yılın/ayın/dersin/dönem**in** sonun**da"** anlamını verirler. Ve "**at** the beginning **of** the year/month/lesson/term" şeklinde ise "Yılın/ayın/dersin/dönem**in** başın**da"** anlamını verirler.

For

Normalde "için" anlamında kullanırız. Ama zaman ifadeleri ile bir süreçten bahsetmek için kullanırız. Bir şeyi **ne kadar süredir** yaptığımızdan, yapacağımızdan bahsederken kullanırız.

For ten years, for five days, for two weeks, for a month, for centuries, for ten hours For the last ten years (Fido kalıbı)

Not: bu prep genellikle perfect tenseler ile birlikte öğretildiğinden dolayı öğrenciler "for"un hep bu zamanlarla kullanıldığını düşünür. Oysa "for" hemen hemen her zamanlar kullanılabilir. (3. Sütun hariç)

I **have been** living in Niğde **for 10 years**. / I **lived** in Ereğli **for 7 years**. / I **will live** in Mersin **for 5 years**.

During

During, "**sırasında, esnasında, boyunca**" gibi anlamlara gelir ve devamında bir isim alır. (asla ama asla gerund (V+ing, doing) almaz.

During the lesson, during the war, during the night, during the winter During the last five years (fido), during the past ten years (fido)

Not: During ile While'ı birbirine karıştırmamak gerek. During bir prep'tir ve mutlaka bir isim alır. While ise bir bağlaçtır ve tam cümle (I love you) ya da Gerund (doing) alır.

During the lesson / While I was listening to the lesson / While listening to the lesson.
Ama ~~during listening to the lesson~~ asla olamaz.

From…to/till/until

"**Bir zamandan başka bir zamana kadar**" anlamını vermek için bu yapıları kullanırız. Ayrıca from…to kalıbı yerler için de kullanılabilir. Bir yerden bir yere anlamında.

From Monday to Friday, From June to October, from 2000 to 2022, from 13:00 to/till/until 18:00

Between…and…

İki zaman dilimi "**arasında**" anlamını verir. Ayrıca iki şey arasında anlamını da verebilir.

Between 2000 and 2022, between Monday and Friday, between 13:00 and 18:00

Towards

"**-e doğru**" anlamında kullanılır. Zaman prep'i olarak kullanıldığı gibi bir yere yönelme anlamında mekan için de kullanılabilir.

Towards 7 o'clock, towards midnight, towards the end of the year

Throughout

Zaman prep'i olarak "**boyunca**" anlamında kullanılır. Ayrıca mekanlar için "**baştan başa her tarafında**" anlamında kullanılır.

Throughout the year, throughout the day, throughout the week, throughout the history

After/Before/Until

Dikkat etmemiz gereken üç yapı. Bunların üçü de aslında 1g bağlaç olarak kullanılırlar. Yani iki tam cümleyi birbirine bağlarlar. Ama bu kullanımlarına ek olarak prep oarak da kullanılıp devamlarında bir isim alabilirler. **After = den sonra, before= den önce, until= e kadar**

After breakfast (kahvaltıdan sonra), after 1980, after the weekend, after 18:00 o'clock, after Monday
Before breakfast (kahvaltıdan önce), before 1980, before the weekend, before 18:00 o'clock, Before Monday
Until breakfast (kahvaltıya kadar), until 1980, until the weekend, until 18:00, until Monday Till breakfast (kahvaltıya kadar), till 1980, till the weekend, till 18:00, till Monday Not: Until ile Till'i prep olarak aynı şekilde kullanabiliriz.

By

By'ın birçok kullanımı vardır ama burada zaman kelimeleriyle kullanılınca "**-inceye kadar çooooktaaan, -e kadar çoooktaaaan**" anlamında kullanılır. O zamana kadar çooooktaaaan başka bir şey oldu/olacak gibi bir anlam verir. Bu kullanımda da eğer kendinden sonra past bir ifade varsa had done, geleceğe dair bir ifade varsa will have done ile çokça kullanılır.

By Sunday (pazara kadar çoookkkktaaaan), by 9 o'clock, by 2020, by 2050

Not: By ile by the time birbirine çok benzer. Ama by bu kullanımda prep'tir. Yani devamında bir isim alır. By the time ise 1g bağlaçtır. İki tam cümleyi birbirine bağlar.

By 2050, she will have learned 5 languages. (2050 = isim)
By the time she is 45 years old, she will have learned 5 languages. (She is 45 years old= cümle)

Not: By ile until/till Türkçede benzer şekilde çevrilirler (-e kadar, -inceye kadar). Ama aralarında ciddi anlam farkı vardır. Until eylemin değiştiği noktayı ifade eder. Eylem o ana kadar devam edip o anda bitmiştir.

Until 2015, the economy was bad. 2015'e kadar ekonomi kötüydü. Ama o zamandan sonra artık kötü değil iyi oldu.
Oysa by ile söz konu olan zamandan önce eylemin gerçekleştiğini anlarız.
By 2015, the economy had become better. 2015'e kadar ekonomi çoktan daha iyi olmuştu. (2015'ten önce)

Since

"Since"'in iki temel kullanımı vardır. Bunlardan birincisi "because" anlamına gelir ve 1g bağlaçtır. Yani iki tam cümleyi birbirine bağlar ve cümleler yer değiştirebilir ve bu anlamdan "-den dolayı" diye çevrilir.

İkinci anlamda ise "-den beri" diye çevrilir ve genellikle kendisinden sonra geçmişi ifade eden bir yapı gelir. Bir eylemin başlangıç noktasını belirtir. Bu anlamda hem prep olarak kullanılabilir yani hem isim alır hem de tam cümle alabilir. (offff çok sıkıcı tam kitap açıklaması gibi oldu.) Hadi örneklerle açıklayalım. Örneklerde birinci kullanımına örnek vermeyeceğim çünkü bağlaçlar içinde çokça gördünüz.

Prep olarak kullanımları (yani hep isim alan halleri). Dikkat edin hep başlangıç noktaları.

Since Monday (Pazartesiden beri), since 1980, since 10 o`clock, since the beginning of history, since the first man, since 20th century, since the morning

Kendinden sonra cümle alan halleri (bu kullanımda yine başlangıç noktasını belirtiyor ve yine past anlamlı.)

Since Vh came to Niğde (Vh Niğde'ye geldiğinden beri), since she learned how to drive, since he was born, since the Earth was created

Not: Since bu anlamda kullanıldığında malum since olan taraf past bir ifade oluyor. Diğer taraf ise perfect tense (have done/has done) olmalıdır.

Since **the beginning of history**, human beings **have invented** many new devices. (Tarihin başlangıcın**dan beri**, insanoğlu bir çok yeni cihaz icat **etti**.) Since Vh **came** to Niğde, he **has worked** at Niğde Ömer Halisdemir University. Since she **learned** how to drive, she **hasn't had** any accidents. Since'li kısmın yer değiştimesi mümkündür. Ama Kural değişmez. Since olan taraf past, diğer taraf have done/has done olmalıdır. Human beings **have invented** many new devices since **the beginning of history**. He **has worked** at Niğde Ömer Halisdemir University since Vh **came** to Niğde.

Not: Fidow kalıbı çok önemlidir. (Fido). Bu kalıbın olması için üç sütunun aynı anda olması gerekir. Ve bu kalıp present perfect (have done/has done) gerektirir.

for in during over within	the past the last recent	(Bir süreç) ten years five hours 2 centuries	, have done/has done
Son on yıldır, son beş saattir, son iki asırdır, (hangi satırdaki kombinasyonu kullanırsanız kullanın aynı anlam olur			

1. Test Prepositions of Time

1. **Pasteur was born in a small town in France ----- the year 1822 but unfortunately we don't know the exact day ----- which he was born.**

A) on/on B) for/in
C) in/at D) at/for
E) in/on

2. **Why can young children learn a second language ----- a short time?**

A) by B) during
C) for D) in
E) on

3. **Corruption has had very bad effects on people, in many ways ----- the foundation of the government.**

A) during B) by
C) since D) in
E) on

4. **British Columbia contains the city of Vancouver, whose population will have reached 3 million ----- 2060.**

A) for B) at
C) since D) by
E) on

5. **----- the past 500 years, the color of the paintings of Leonardo and Michelangelo has faded. (Which choice isn't true?)**

A) Over B) On
C) In D) For
E) During

6. **----- winters, Winnipeg has the coldest weather of any large city in the world, with temperatures sometimes reaching -40 degrees Celsius.**

A) On B) Until
C) At D) By
E) In

7. **The criminals had been freed as a result of bribes ----- the end of the year 2020.**

A) in B) on
C) by D) until
E) during

8. **There have been many farms where cattle are raised ----- the arrival of first Europeans, who brought first cattle there.**

A) during B) after
C) since D) before
E) until

9. **----- 1520, the leader of the Roman Catholic Church, Pope Julius, asked Michelangelo to paint the ceiling of the church only ----- 6 months.**

A) In/at B) In/in
C) At/in D) On/in
E) At/at

10. **Northern areas of Canada have very long and bright days ----- summers.**

A) in B) on
C) for D) since
E) by

11. **Corruption has been a serious problem in many countries around the world ----- the beginning of modern history.**

A) by B) before
C) since D) towards
E) on

12. **Many of the paintings that were created ----- the life of Leonardo had a religious theme.**

A) from B) during
C) for D) in
E) on

13. **Pasteur, who is considered to be the greatest figure in the history of medicine, died ----- 1895.**

A) in B) on
C) at D) for
E) by

14. **Leonardo da Vinci and Michelangelo lived in Italy ---- end of the 15th century.**

A) on B) from
C) in D) since
E) at

15. **Wheat from Saskatchewan used to be sent around the world to make bread and pasta for many people ----- the years 1980 and 2010.**

A) between B) until
C) about D) from
E) throughout

16. **----- recent years, some work has been done to restore the paintings of Leonardo and Michelangelo to their original appearance.**

A) At B) For
C) In D) Until
E) On

17. **As Michelangelo was born ----- 6 March, 1475, he was about 23 years younger than Leonardo.**

A) for B) during
C) at D) on
E) in

18. **The boy's body was able to resist the disease ----- the injection which was prepared by Pasteur, as a result, he survived.**

A) after B) for
C) in D) at
E) on

19. **The official allowed the construction of a building after embezzling money but unfortunately nobody did anything ----- the opposition of the public.**

A) between B) until
C) throughout D) by
E) since

20. **Many diseases have been prevented ----- Pasteur's discovery called immunization.**

A) by B) in
C) at D) towards
E) on

40. Pasteur studied science at a university, and he did some excellent work ----- his graduation.

A) after B) by
C) since D) on
E) from

2. Mekan/Konum İfadeleri ile Kullanılan Prep'ler

in (içinde, -de, -da)	Dünya'da, ülkede, şehirde, köyde, kasabada	in the World, in a country, in Turkey, in Germany, in Egypt, in the city, in Elazığ, in Niğde, in the village, in Camuzağılı, in Palu, in the west of Canada
	Kapalı mekanlarda	in the room, in the box, in the building
	Açık alanda	in the field, in the park
	Denizde, nehirde, gölde (içinde (yüzmek gibi))	in the sea, in the river, in the lake, in the water
	Yazılı/görsel kaynaklarda	in the book, in the newspaper, in the film, in the story
	diğer	in the sky, in bed (yatağın içinde), in the armchair, in the Sun, in a queue, in a line
at (bir noktada, bir kurumda)	İşte, hastanede, okulda, üniversitede…	at home, at work, at hospital, at university, at the meeting, at the station, at the airport
	Bir şeyin başında/sonunda	**At** the beginning **of** the street, **at** the end **of** the street (zamanlarla olan bu kullanıma da dikkat)
	Kapalı bir mekanın içinde önde, arkada	At the front, at the front of the class/cinema/theatre, at the back, at the back of the class/cinema/theatre
on (Üzerinde)	Bir şeyin üzerinde	On the floor, on the chair, on the bed (üstündeki bir kitap gibi), on the table, on the shelf, on the ground
	Basılı kaynağın sayfasında	On the cover of the book, on the front page of the newspaper, on the back of the magazine, on page 12
	Adada, kıyıda, yeryüzünde…	On the island, on the coast, on the Earth (world'den farkına bakın), on a river (kayık, bot gibi), on the sea (gemi, kayık gibi), on the west coast of Turkey
	Duvarda, tavanda, yüzde..	On the wall, on the ceiling, on my face, on my nose
to (-e, -a, bir yere yönelme)		To Elazığ, to Niğde, to university, to work, to hospital, to the airport, to the station, to PhD Akademi, Teknopark
from (-den, -dan, bir yerden/şeyden ayrılma)		From Niğde, From Malatya, from Toki, From school, from the station, from the airport, from London
		Ayrıca from… to …. Kalıbını göz ardı etmemek gerek.
		From Niğde to Kayseri (Niğde'den Kayseri'ye)
		From London to Amasya, From Veysel hoca to Birol Hoca
between (İki şeyin arasında)	Between….and…	**Between** Kayseri **and** Adana, between the two trees, between you and me, between Asia and Europe
among (arasında)	ikiden fazla şeyin arasında, bir grubun içinde	Among the trees, among the people, among the students, among the crowd
under (altında)	Bir şeyin altında	Under the table, under the chair, under the sky, under the bed, under the water, under the bridge
	Bir yaşın altında	Under 35 years of age, under the age of 12
over (üzerinde)	Bir nesnenin ötekinin üzerinde olduğunu anlatır.	Over the bridge, over your head, over the car,
	Bir yaşın üstünde	Over 35 years old
	Well over (çook üzerinde)	He is well over 50 years old.
	Üzerinden (hareket bildirir)	It flew over the bridge. (Bu kullanımı hareket bildiren prep'lerde de göreceğiz.)
above (Üzerinde)	Üzerinde (nesneler birbirine değmez)	The lamp is above his head., above the clouds, above the horizon
	Seviye olarak üzerinde	Above average, above zero, above sea level,
	Sınıf olarak üstte	Good health is **above** wealth. Health and strength is above all gold. Humans are above other animals. People above us
below (Aşağısında, altında)	Alta, daha aşağıda	Below the clouds, below the surface of sea, below ground
	Seviye olarak altında	Below the average, below zero, below sea level, below 40 dollars
	Sınıf olarak altta	The people below us
in front of (önünde)	Bir şeyin öteki şeyin önünde olduğunu anlatır.	In front of the cinema, in front of the TV, in front of the tree, people in front of us

behind (Arkasında)	Bir şeyin öteki şeyin arkasında olduğunu anlatır.	Behind the tree, behind the car, behind the TV, the car behind my house,
opposite (karşısında)	Bir şeyin karşısında, karşı tarafında	Opposite the cinema, opposite the TV, the opposite page, opposite directions
	Fikir olarak karşıt	Opposite views, the opposite effect, the opposite sex
	Anlam olarak karşıtı	Matter is the opposite of mind. Southwest is opposite to northeast.
beside (yanında, yanına)	Yanında, yanına (bu anlamda hareket bildirir) (besides ile karıştırılmamalıdır)	Beside the entrance, beside the fire, beside the river, beside the coffee shop, beside me, beside the door, beside the bed
by (yanında)	Yanında (zaman prep'i olan by ile ve tarafından anlamına gelen by ile karıştırılmamalıdır.) (Bunlar dışında da birçok anlamı var)	By the sea, by the lake, stand by me.
beyond (ötesinde)	Ötesinde, ilerisinde	Beyond the universe, beyond the river, beyond your power, beyond the bridge, beyond our understanding

3. Hareket Belirten Prep'ler

to (-e, -a)	Yönelme bildirir.	I **took** her **to** hospital. I **went to** Elazığ.
from (-den,-dan)	Ayrılma bildirir.	She **comes from** Canada.
		She **ran from** her house **to** school.
		I **took** the book **from** him.
into	İçine doğru, içine	He **walk**ed **into** the room. She **pour**ed the water **into** the bottle. He **drove** the car **into** the garage. The mouse **ran into** its hole.
onto	Üzerine doğru	He threw to bottle onto the table.
out of	Dışarı, dışarı doğru	They **ran out of** the room. After swimming, she **got out of** the pool. I saw him **get out of** a taxi.
off	Bir şeyden uzakta, sınırların dışında, bir şeyden uzayarak	The cat jumped **off** the table. She fell **off** her bike and got hurt. Off limits,
up	Yukarı, yukarı doğru	They went **up the hill**. He ran **up the stairs**. **Up the wall**, **up the road**
down	Aşağı doğru	He ran **down the stairs**. They climbed **down the tree**. **Down the road**, **down the hall**, **down the river**
along	Boyunca	He swam **along the river**.
		She drove **along the coast**.
		He walked **along the Mississippi.**
through	İçinden	They drove **through the tunnel**., **through the fields**, **through the door**, **through the woods**, fly **through the air**, **through many countries**, **through the darkness**, Blood flows **through the body**. She ran **through the trees**. She ran a comb **through her hair.**
	Vasıtasıyla, yoluyla	Through the mail,
across	Karşısında	Across the river, across the road, across the street
	Her tarafında	Across the country, across Turkey, across the world
towards	E doğru	Towards me, towards the wall, towards the west
		Towards the garage door
over	özerinden	He jumped over the fence. We flew over the bridge.
		She threw the ball over the net.
	Hakkında, üzerine	A research **over** monkeys (maymunlar hakkında bir araştırma)
under	altından	**Walk under** the ladder, **swim under** the bridge
around	Etrafında, çevresinde (round)	She went around the corner. The moon goes around the earth
		The boy looked around him with wondering eyes.
		He put an arm around her shoulder.
	Her tarafında	Around the world, around the country, around Turkey
past	Önünden geçme	He walked past me and didn't see me. Will go past the post office? Will you drive past the market?

1. Test Prepositions of Place and Movement

1. **Pasteur was born ----- a small town in France during the year 1822.**

A) at B) from
C) between D) in
E) on

Gerund and Infinitive Konu Anlatımı ve Zone'lar Tablosu

Zone 1

Önceki yapılara bağlı

Infinitive (to do)

1. *Sıfat + infinitive*

   I am happy to see you.
   I am afraid to fly.

2. *Passive Fiil + infinitive*

   You aren't allowed to smoke here.
   He was asked to fill in the gaps.

3. *Me grubu + infinitive*

   Vh allowed him to smoke.
   He told the children to sit on the carpet

4. *Too sıfat to do*

   He is too short to play BB

5. *Enough money to do*

   Rich enough to do
   She is rich enough to buy a TP
   She has enough money to buy a TP

6. Infinitive alan fiiller

   Want
   afford
   would like
   would love
   would prefer
   seem
   appear
   plan
   decide
   threaten
   promise
   hesitate
   refuse

Gerund (doing)

1. *Prep + gerund*

   I am afraid of flying
   I am tired of being sick

2. *My grubu + gerund*

   I love his smiling.

3. Gerund alan fiiller

Zone 2

İsimden sonar ismi açıklar

1. *Yapan kalıbı / Isim Ving*

   The girl running in the garden
   The fish swimming in the pool
   The bird flying over the trees

2. *Yapılan kalıbı / isim V3*
   The book written by Vh
   The fish caught by Ali
   The car driven by Ayşe

3. the first
   the second
   the third…
   the only
   the last
   superlative
   } + isim to do

He is the first student to pass the exam.
The only man to visit Niagara falls is Ali.

The last book to be published is about grammar.

Zone 3

üçgen üçgen ▲▲

1g bağlamında iki tarafın özneleri aynı ise bağlaç olan tarafın kısaltılması ile olur. O kısım active ise Ving, passive ise V3 ya da being V3 şeklinde olur. Bu bağlamda üç önemli bağlaç vardır.

1. *While*

While I was coming here, I saw Ayşe.
While coming here, I saw Ayşe.
Coming here, I saw Ayşe.

Not: While ▲▲ yapılırken hem atılabilir hem de tutulabilir.

2. *After*

After he saw Ayşe, Ali fell in love.
After seeing Ayşe, Ali fell in love.
Seeing Ayşe, Ali fell in love.
Having seen Ayşe, Ali fell in love.

Not: After ▲▲ yapılırken hem atılabilir hem de tutulabilir.

3. *Because*

Because Ali loves Ayşe, Ali was beaten by her brothers.
Loving Ayşe, Ali was beaten by her brothers.

Because he was beaten by her brothers, Ali left Ayşe.
Being beaten by her brothers, Ali left Ayşe.
Having been beaten by her brothers, Ali left Ayşe.

Not: Because ▲▲ yapılırken atılmak zorundadır.

4. *Diğer 1gler*

Not: Diğer 1gler ▲▲ yapılırken tutulmak zorundadır.

If it is used excessively, this drug can kill you.
When it is used excessively, this drug can kill you

If used excessively, this drug can kill you
When used excessively, this drug can kill you

Ek bilgiler:

Not1. Bazen tam cümleyi niteleyen RC (Relative Clause) yerine ya da aynı özneye bağlı "and" ile bağlı eylemlerin arasındaki "and" atılarak gerund çokça kullanılır.

…, meaning; …, causing; …, leading to; …, contributing; … depending on; …, making; gibi fiillerle bu yapı sıkça kullanılır.

Ayşe failed the exam, which made us sad. = Ayşe failed the exam, making us sad.

The bus hit into a big tree and caused many people to die. = The bus hit into a big tree, causing many people to die.

Not2. Remember, forget, regret, stop, mean, try fiilleri hem gerund hem de infinitive ile kullanılabilirler ama farklı anlamlar verirler. (Derste anlatırım ☺ oooo kim yazacak şimdi.)

Not3. SHOW fiilleri kendilerinden sonra me grubu alsalar bile (zone 1-3teki gibi) infinitive almazlar. Ya Ving ya da V1 alırlar. Bu fiiller eş zamanlı olduğu için asla to have done ya da having done almazlar.

See
Hear
Observe
Watch

Not4. "To" bazen preposition olarak kullanılabilir. Eğer preposition ise "to Ving" kullanmamız gerekir. "To"nun preposition olarak kullanıldığı yapılar: look forward to, limited to, key to, have an objection to, object to, adjust to, devoted to, dedicated to, committed to, addicted to, be/get used to, dedication to, devotion to…

I am used **to** listen**ing** to that kind of music.

She devoted herself **to** educat**ing** her children

I am looking forward **to** see**ing** you.

1. Test Gerund – Infinitive – Zone1

1. **Pasteur made very important discoveries in biology and chemistry, and the techniques he developed helped greatly ----- medical science.**

A) to have developed B) to develop

20. **----- all of humankind with his own discoveries which have saved many lives so far, Pasteur has greatly been admired around the world.**

A) To help B) To have helped
C) Having helped D) Helped
E) Having been helped

6. The Viking

About a thousand years ago, people known as the Vikings were known and **feared** **throughout** Europe. The Vikings were the people of the northern part of Europe, called Scandinavia, which includes the modern countries of Denmark, Norway, and Sweden. The Vikings **made their living** by farming and fishing. However, by about the year 700, they began making attacks, or **raids**, **upon** towns along the **coasts** of Europe in order to steal the **wealth** of those towns. The Vikings made their attacks very quickly and without any **warning**. They were very **cruel** to the people of the towns they attacked, and they sometimes destroyed the towns by **burning down** the buildings. In some parts of Europe, the **local** kings would often fight **against** the Vikings. Sometimes, however, the kings would pay the Vikings in order to **persuade** them not to attack. Although the Vikings were known as **fierce** warriors, they also built **excellent** ships. The wooden Viking ships, called longboats, were able to sail even in very bad weather. Many Viking longboats were about 20 metres long, but some were nearly 90 metres long. The Viking **sailors** used both sails and **oars** to move their ships. The Vikings travelled across a large area. They made many of their attacks in Britain, France, and Germany, but sometimes sailed south, into **the Mediterranean Sea**. Other Vikings moved to the east, and then south along the rivers of Russia. Some even went as far as the area that is now the country of Turkey. In some places, the Vikings decided to stay. Many Vikings **settled in** England and in France, and eventually they mixed with the local people. Other Vikings settled in Russia and also mixed with the people there. The most famous travels of the Vikings were in the Atlantic Ocean. Vikings sailed westward to the island of Iceland where many of them stayed. Today, the people of Iceland are **descended from** the Vikings. Some Vikings sailed farther west to the cold island of Greenland. Vikings lived in Greenland for several **generations**, but eventually they **died out**. Some Vikings had gone even further west and reached the Canadian island of Newfoundland. The Vikings only stayed for a few years, but they had reached North America about 500 years before Christopher Columbus! **Gradually**, the Vikings became **converted** to the Christian religion. They also stopped raiding the towns of Europe, and ***instead of*** fighting, they began **trading** with their neighbors. Today, the Scandinavian countries are known as very peace-loving nations.

about	aşağı yukarı, hemen hemen

7. William Shakespeare

There have been many great writers in the history of English **literature**, but **there is no doubt** about which writer was the greatest. Many people **consider** William Shakespeare to have been the best writer who ever lived. William Shakespeare was born in the town of Stratford, England, in the year 1564. When he was a young man, Shakespeare moved to the city of London, where he began writing plays. His plays were soon very successful, and were enjoyed both by the common people of London and also by the rich and famous. ***In addition to*** his plays, Shakespeare wrote many short poems and a few longer poems. ***Like*** his plays, these poems are still famous today. Shakespeare's most famous plays include Romeo and Juliet, Macbeth, Hamlet, King Lear, Othello, and Julius Caesar. Usually, Shakespeare did not **invent** the stories that he told in his plays. ***Instead***, he wrote his plays using stories that already existed. However, Shakespeare's plays told these stories in a more interesting way than ever before. Some of the stories were tragedies, some were comedies, and some **described** historical events. In his plays, Shakespeare **revealed** a very **wide** **knowledge** of many areas of life. The characters in his plays **discuss** many different topics, often with the knowledge of **experts**. But what is even more **impressive** about these plays is Shakespeare's use of the English language. His vocabulary was very large, and Shakespeare seems to have **introduced** many words to the language! Also, many of the **phrases** that are said by Shakespeare's characters are now used in everyday **conversation**. Today, writers often use **quotations** from Shakespeare's plays in their own works. But perhaps even the most impressive **features** of Shakespeare's plays are the characters within them. The many characters in his plays seem very different from each other, but they seem very realistic. The **emotions** they feel, the words they say, and the actions they perform are all easily understood. Many people who watch one of Shakespeare's plays will find that they know people who remind them somewhat of the characters in those plays. Shakespeare died in the year 1619, but his writings are still popular today, 400 years after they were written. The poems and plays are greatly admired by experts in literature, but also by people in general. Each year, hundreds of thousands of people enjoy **attending** performances of Shakespeare's plays. No other writer in the English language has **remained so popular** for such a long time.

8. Ice Hockey

One of the most popular sports in northern countries is the game of ice hockey. Each winter, this sport is played by hundreds of thousands of children and adults in North America and in Europe. Ice hockey is a fast and exciting game that can make winter much more **enjoyable**. The game of ice hockey is played on a flat **surface** of ice called a rink. The rink is about 60 metres long, and about 25 or 30 metres wide. **At any time**, each team has six players on the ice. On their feet the players wear skates, whose thin metal **blades** allow fast movement along the ice surface. Learning to skate requires time and practice, but many people can skate very quickly and smoothly. In many ways, ice hockey is similar to soccer. However, unlike soccer, there is no large ball used in hockey. Instead, the players use a hard, black, **rubber** disk, which is called a puck. The players skate around the ice, trying to get the puck. They do not use their hands or their feet to control the puck. Instead, they carry long wooden sticks, which are shaped in such a way that it is easy to push the puck along the ice. The players can pass the puck to each other by **sliding** it across the ice. To **score a goal**, a hockey player must shoot the puck into the **net** of the **opposing** team, but this is a difficult **task**. The net is **less than** two metres wide, and it is **protected** by a player called the goaltender. However, some players can shoot the puck very suddenly and with great power. Sometimes, the sport of ice hockey can be quite rough. Players try to take the puck from their **opponents** by **bumping into** them at a high speed. This is called a "body check." Players are not allowed to hit each other with their sticks. If a player does this, then that player may be given a **penalty** by the **referee**, who **enforces the rules** of the game. Naturally, the sport of ice hockey is most popular in countries that have cold winters. The sport was first played in Canada, but it is also very popular in many countries of Europe, including Russia, Sweden, Finland, Slovakia, the Czech Republic, and Germany. In addition, many people play hockey in the United States. In previous generations, ice hockey was considered a sport for men and boys only. However, in recent years, women and girls have been playing hockey much more **frequently** than in the past. Not only do many girls enjoy playing hockey for fun, but now women's hockey is **officially** a sport at the winter Olympics.

enjoyable	hoş, hoşlanılabilir
surface	yüzey

frequent	frequency, infrequency	frequent, infrequent	frequently, infrequently
officiate	office, officer, official, officialdom	official, unofficial	officially, unofficially

9. Chinese People in North America

In recent years, many people have moved to North America from China, but many people do not know that Chinese people have a long history in Canada and the United States. During the nineteenth century, both Canada and the United States were **rapidly** **expanding** to the west, **toward** the Pacific Ocean. In those days, there were of course no cars or airplanes to allow people and goods to move across the land. Instead, the best method of long-**distance** **transportation** was the railroad. Railway trains could move quickly across **the countryside**. However, there was one problem: before the railway trains could run, railroads had to be built across very long distances. To build the railroads was a very big job. Many men would be needed because the distance was so long and the land was so difficult, with many mountains and rivers to be crossed. For the men who owned the railroad companies, it would have been too expensive to hire Canadian or American men to build the railroads because those workers would only work for high **wages**. The railroad owners decided to get workers from **overseas**. Many Chinese men were **willing to** work for low wages because they were very poor. These men would work very hard and send much of the money back to their relatives in China. Thousands of Chinese men were brought to North America to work on the railroads. They did good work, but their employers treated them badly. The work day was very long, and working **condition**s were very unsafe. Many Chinese men died in accidents while constructing the railroads. Some Chinese women also came to North America, but there were many more men than women. After the railroads were **completed**, by about the year 1900, very few Chinese people were allowed to come to North America. Most people in Canada and the United States were not **familiar with** Chinese people and did not want **strangers** to come to their countries. Any Chinese person who came to North America had to pay an expensive tax. This made it difficult for Chinese men to bring their wives and families to join them in North America. Later, the **governments** of Canada and the United States made Chinese immigration illegal.

Eventually, the people of Canada and the United States **realize**d that their laws had been **unfair**. They changed the rules so that Chinese people could **immigrate** in the same way that people from other countries could do so. In recent **decades**, many Chinese people have moved to North America, and have **formed** a very lively and successful **community**. Many cities, such as Toronto, Vancouver, San Francisco, and New York, have been **enriched** by Chinese culture. Chinese people are now very **prominent** in North America, just as they were many years ago.

rapidly	hızlı bir şekilde
to expand	genişlemek, yayılmak,büyütmek

enrich	riches, richness, enrichment, the rich	rich	richly

10. The History of the English Language

Most people know that the English language is spoken by many millions of people around the world. However, few people **are aware of** the history of the English language. Today, English is one language, but **in some ways** it is a mixture of many different languages. The English language is most **closely related** to a group of languages called the Germanic languages. This group also includes languages such as German and Dutch. About 1500 years ago, these languages were not **yet distinct** from each other. Some of the people of Germany and the Netherlands then moved to England. Those people were called the Anglo-Saxons, and their language then **evolved** into English. Most of the **basic** words of the English language are **derived from** these very old Anglo-Saxon languages. For example, the words for the parts of the body, for numbers, and for animals are mostly Anglo-Saxon words. Some new words were brought to England over 1000 years ago by people who came from the Scandinavian countries of northern Europe. Many words that begin with the **letter**s "sk", such as skin and **skill**, are Scandinavian words. A **major** change happened in the English language after the year 1066. In that year, England was **conquered** by a king from the northern part of France. He and his followers spoke French, so French became an important language in England. During the next few hundred years, the English language **absorbed** **a very large number of** French words. **In fact**, today's English **dictionaries** contain more words of French **origin** than of Anglo-Saxon origin. Part of the **reason** why the English language has so many words is that it often has two words for each idea-one word of Anglo-Saxon origin, and one word of French origin. Many more words entered the English language a few hundred years ago, when science and technology became more **widespread**. Most scientific and technical words are derived from words of the **ancient** languages of Latin and Greek. Because there are so many of these **scientific** and technical words in the English language today, the **influence** of Latin and Greek has been quite large. Other languages have also **contributed** many words **to** the English language. Some words have come from the Celtic languages, spoken in Ireland, Scotland, and Wales. Many words have been **added** to the English language by **immigrant**s who came to North America from **various** countries of Europe. Also, many more words have been **adopted** from the Native languages of North America, Australia, and the Pacific, and from the languages of peoples in Africa and Asia. All of these words have made English a very interesting language!

19. **Some new words were brought to England over 1000 years ago by people ----- from the Scandinavia.**

A) to come B) to have come
C) being come D) having been come
E) having come

20. **Unlike soccer, there is no large ball ----- in hockey.**

A) using B) having used
C) to have used D) used
E) to use

2. Test Gerund - Infinitive – Zone3

1. **Although ----- their existence in North America today, many people do not know that the Chinese have a long history in Canada and the United States.**

A) knowing B) being known
C) known D) to be known
E) to have known

2. **----- by hundreds of thousands of children and adults all over the world, ice hockey is one of the most popular sports.**

A) Playing B) To play
C) Played D) To be played
E) Having played

3. **----- in Stratford, Shakespeare moved to the city of London, where he began writing plays.**

A) Bringing up B) Being brought up
C) Having been brought up D) Having brought up
E) To have brought up

4. **Although ----- as fierce warriors, the Vikings also built excellent ships..**

A) having known B) knowing
C) known D) to be known
E) to have been known

5. **----- the railroads, many Chinese men died in accidents.**

A) To be constructed B) To have constructed
C) Being constructed D) Having constructed
E) Constructing

6. **----- a very wide knowledge of many areas of life, Shakespeare was considered to be one of the greatest writers in English literature.**

A) Revealing B) Revealed
C) To reveal D) Being revealed
E) To have revealed

7. **----- in England and in France, many Vikings eventually mixed with the local people.**

A) To settle B) To have settle
C) Settled D) Having been settled
E) Having settled

8. **Although ----- a sport for men and boys only for many years in the past, ice hockey has been played by women and girls in recent years.**

A) considering B) to consider
C) having been considered D) to be considered
E) having considered

9. **While ----- the game of ice hockey on a flat surface of ice, many people can fall down.**

A) to play B) to have played
C) played D) having played
E) playing

10. **----- in 1900s, the railroads were used by many people in North America.**

A) Having been completed B) Having completed
C) Completing D) To complete
E) To be completed

11. **----- by the king who invaded England in 1066 and his followers, French became an important language in England.**

A) Speaking B) Spoken
C) To speak D) To be spoken
E) Have spoken

12. **The players in ice hockey skate around the ice, ----- to get the puck which is a rubber disk in order to score a goal.**

A) trying B) having tried
C) tried D) having been tried
E) to be tried

13. **----- much money, many Chinese men were willing to work for low wages in Canada in those years.**

A) To need B) To have needed
C) Needed D) Needing
E) Having been needed

14. **----- across a very large area including Europe, Russia an Turkey, the Vikings decided to settle in İceland.**

A) Having travelled B) Having been travelled
C) To travel D) Travelled
E) To have travelled

15. **----- the puck from their opponents, players are not allowed to hit each other with their sticks.**

A) Taken B) Being taken
C) Having taken D) Taking
E) To be taken

16. **----- his stories in a more interesting way than ever before, Shakespeare was enjoyed by many people in England.**

A) told B) having been told
C) telling D) to tell
E) to have told

17. **After ----- that their laws had been unfair. the people of Canada and the United States changed the rules.**

A) realized B) realizing
C) to realize D) having been realized
E) to have realized

18. **Although -----good work, Chinese men were treated badly by their employers who did not want to pay any money.**

A) done B) being done
C) having been done D) doing
E) to do

19. **----- England in 1700, the king banned speaking English in England for hundreds of years.**

A) Conquered B) Having been conquered
C) To conquer D) Having conquered
E) To be conquered

20. **Although ----- by experts in literature, his poems aren't enjoyed by people in general.**

A) to be admired B) to admire
C) admired D) admiring
E) having admired

11. African Slavery in the Americas

One of the most tragic parts of the history of North and South America is the period of African **slavery**. For hundreds of years, many people were taken from Africa, by **force**, to work in the **fields** of many different countries in North and South America. When Europeans first came to the Americas, some of them realized that they might make money by growing crops and selling them in Europe. However, in order to make money, they would need a **cheap source** of **labor**. Few Europeans would come to the Americas to work for low **wages**, so instead, the landowners looked for slaves. In the areas of the great farms, or **plantations**, there were few Indians, so they used another source of slaves: Africa. The plantation owners usually **obtained** slaves by buying them from local kings in western Africa. This **led to** many wars between **rival** kings within Africa, who tried to **capture** each other's people in order to sell them as slaves. A few kings tried to **avoid** the **slave trade**, but this was very difficult. During a period of several hundred years, from the 1500s to the 1800s, about 12 million people were taken from western Africa to the Americas. Many more people died as slaves before leaving Africa, and many more died on the ships that took them to the Americas. **This was because** the **conditions** on the ships were extremely **unhealthy**: the ships were far too **crowded**, and there was little food and water. When the African slaves arrived in the Americas, the plantation owners made them work on farms that produced goods such as cotton and sugar. In many places, the work was very hard, and many of the slaves died from **overwork**. They were then replaced by other slaves who arrived from Africa. However, many slaves **survived despite** the brutal conditions. In some places, the African slaves were able to **revolt against** the plantation owners. However, this was difficult because the slaves who had **recently** arrived spoke many different languages. Some slaves **escaped** into wilderness areas and were able to **remain** free from the plantation owners. As time went by, many people in Europe and in the Americas realized that slavery was wrong. **By** the 1830s, slavery had been ended, or **abolished**, in islands owned by the British, and in parts of the United States. In the southern United States, slavery was ended in the 1860s, during the Civil War. In some countries, such as Brazil and Cuba, slavery only ended in the 1880s. Today, many millions of people in North and South America are the **descendants** of slaves who were brought from Africa. The **effects** of slavery have **lasted** for many **generations**, and there was much **racial prejudice** against African people even when slavery ended. However, some have **achieved** success despite these disadvantages. Today, the people of African background in North and South America are a very important part of the **population** in many countries.

slavery	kölelik
force	güç
by force	güç kullanarak, zorla
field	alan, tarla
cheap	ucuz
source	kaynak
labor	iş
wage	maaş
plantation	bitki örtüsü, büyük çiftlik
to obtain	elde etmek, kazanmak
to lead to	neden olmak
rival	rakip
to capture	ele geçirmek, tutsak etmek
to avoid	sakınmak, çekinmek
slave trade	köle ticareti
this was because	bunun nedeni
condition	şart
unhealthy	sağlıksız
crowded	kalabalık
overwork	aşırı iş/çalışma
to survive	hayatta kalmak
despite	-e rağmen
to revolt against	-e karşı isyan etmek
recently	son zamanlarda
to escape	kaçmak, kurtulmak
to remain	kalmak, sürmek, sürdürmek
to abolish	tedavülden kaldırmak, feshet-
descendant	torun, soyundan gelen kimse
effect	etki
to last	sürmek, devam etmek
generation	nesil
racial prejudice	ırksal ön yargı
to achieve	başarmak, elde etmek
population	nüfus

11. Parça Kelime Çalışmaları

VERB	NOUN	ADJECTIVE	ADVERB
force	force	forceful, forcible	forcefully, forcibly
plant, transplant	plant, transplant, plantation, planter		
lead	lead, leader, leadership	lead, leading	
avoid	avoidance	avoidable, unavoidable

race	race, racism, racist	racial, multiracial, racist	racially
achieve	achievement, achiever	achievable	
populate	population	populated, unpopulated, populous	

12. Worries About Physical Appearance

Most people would like to have an **attractive** physical **appearance**, but some people become very **worried** about the way they look. This can sometimes lead them to do things that are unhealthy. **For example**, many women believe that they must be very **thin** in order to be attractive. They see pictures of fashion models who are very thin and then believe that an attractive woman must look the same way. However, many men prefer the appearance of women who are not so thin. In order to become thin, some women try to **reduce** the **amount** of food that they eat. When this is taken to an **extreme**, a woman might eat far too little food to remain healthy. Her weight may become **dangerously** low, as she tries to become thinner and thinner. This condition is called "anorexia," and it **affects** many thousands of women in Western countries. Anorexia is one of several conditions known as eating **disorders**. Another eating disorder is called "bulimia." A woman who has **bulimia** will sometimes eat large amounts of food, but then will try to **eliminate** the food, by **vomiting**. This is **intended** to prevent any weight **gain**, but it is also a very unhealthy behavior. Unfortunately, some women are **concerned about** being very thin, but some women have different concerns **related to** the appearance of their body. For example, some women believe that their **breasts** are not large enough, and **undergo surgery** to **enlarge** their breasts. In this surgery, some **artificial substance** is **implanted** inside the breast to make it larger. Many women have had this surgery, but many of them have **suffered** serious health problems as a result. In recent years, many men have also become very concerned about their physical appearance. For example, some men believe that they must become very muscular in order to have an **attractive** appearance. To achieve this appearance, some men use drugs called steroids, which make it **possible** to gain large amounts of muscle. However, steroids can have very unhealthy **side effects**. In addition to drugs, some men have used surgery to change their physical appearance. For example, some men have had **implants** to make their arms, legs, or chest appear larger. It is **unfortunate** that so many people feel so unhappy about their physical appearance and that they do unhealthy things to change the way they look. Of course, everyone should try to be healthy, but people must also learn to accept their physical appearance. Many different body types can be attractive, and there is no **single** ideal body type. There is no need to use unnatural methods of changing one's body.

attractive	çekici, cazip
appearance	görünüş
worried	endişeli
for example	örneğin
thin	ince, zayıf
to reduce	azatlmak
amount	miktar
extreme	son derece, uç nokta
dangerously	tehlikeli bir şekilde
to affect	etkilemek
disorder	hastalık, bozukluk
bulumia	Bir tür yeme bozukluğu
to eliminate	elemek, yok etmek
to vomit	kusmak
to intend	niyet etmek
to gain	elde etmek, kazanmak
weight gain	kilo alımı
concerned	kaygılı olmak, ilgili olmak
related to	ilişkili olmak, ilgili olmak
breast	göğüs
to undergo surgery	ameliyat geçirmek
to enlarge	büyütmek, genişletmek
artificial substance	yapay/suni madde
to implant	vücuda birşeyi nakletmek
to suffer	acı çekmek, sıkıntı yaşamak
possible	mümkün, olası
side effect	yan etki, ters etki
unfortunate	talihsiz
single	tek, bekar

12. Parça Kelime Çalışmaları

VERB	NOUN	ADJECTIVE	ADVERB
attract	attraction, attractiveness	attractive, unattractive	attractively
appear, disappear, reappear	appearance, disappearance, reappearance		
worry	worry, worrier	worried, unworried, worrying, worriedly, worrisome	worryingly
thin	thinness, thinner	thin	thinly
	extreme, extremism, extremist, extremity	extreme, extremist	extremely
endanger	danger	endangered, dangerous	dangerously
order	order, disorder	disordered, orderly, disorderly, ordered	
intend	intent, intention	intended, unintended, intentional, unintentional	intentionally, unintentionally
weigh, outweigh	weight, weights, weighting	overweight, underweight, weighted, weighty, weightless	weightlessly
concern	concern	concerned, unconcerned	
relate	relation, relations, relationship, relative	related, unrelated, relative	relatively
enlarge	enlargement	large	largely
suffer	sufferer, suffering, sufferance	insufferable	insufferably
	possibility, impossibility, the impossible	possible, impossible	possibly, impossibly
effect	effect, effectiveness, ineffectiveness	effective, ineffective, ineffectual	effectively, ineffectively
	fortune	fortunate, unfortunate	fortunately, unfortunately
single	single, singles	single, singular	singly

13. Physical Fitness

In modern **society**, many people find that they do not get very much **exercise**. They travel by bus, train, or car, and they can move up or down in **elevators**. They have machines that do most of the heavy work that was once done by people. However, exercise is important for staying healthy. A person who exercises frequently will be "physically fit." There are different **aspects** of physical fitness. One important element of being physically fit is called **cardio-vascular fitness**. The word "cardio-vascular" **refers to** the heart and **lungs**. If one's **heart** and lungs are in good condition, then one can exercise at a **steady pace** without soon getting tired. To develop cardio-vascular fitness, it is important to **perform** some exercise that makes one's **heart beat** quickly. For example, a person can **improve** cardio-vascular fitness by riding a bicycle, by running, by swimming, by **rowing**, or even by walking quickly. Some people go to special places, called "health clubs" or "gyms," where they can use different exercise machines to develop their cardio-vascular fitness. But many people improve their cardio-vascular fitness by playing **recreational** sports, such as tennis or soccer, or by dancing **vigorously**. By having good cardio-vascular fitness, one **is** less l**ikely to** suffer from heart disease. Of course, there is one way to improve cardio-vascular fitness that does not involve exercise: stop smoking! Another important aspect of physical fitness is called **flexibility**. Flexibility refers to one's **ability to stretch** comfortably. For example, a healthy person should be able to touch his or her toes without bending the legs. People can perform **various** stretching exercises to improve flexibility. By being flexible, a person can **avoid** injuries that might otherwise affect their body. Yet another important aspect of physical fitness is the **strength** and **endurance** of one's muscles. Many people suffer from injuries that **result**, **in part**, **from weakness** of the muscles. Muscular strength and endurance can be improved by **a variety of** exercises. Some of these exercises **involve** lifting a weight, but other exercises **simply** involve pushing or pulling against the weight of one's own body. One example is an exercise called the "push-up." In this exercise, a person lies on the floor, with the face **pointing down**. The person bends his or her arms, so that the **palms** of the hands are on the floor, next to the shoulders. The person then pushes with his or her arms, lifting the upper part of the body above the ground until the arms are **straight**.

Before starting to do any exercises, it is a good idea to have a medical check-up. Some people do not want to exercise because they think it will be too much work. However, many people find that they feel very good when they exercise. Exercising can be an enjoyable and fun way to **maintain** health and fitness.

society	toplum, topluluk
exercise	egzersiz
elevator	asansör
aspect	yön, özellik
cardio-vascular	kalp ve damarlara ilişkin
fitness	uygunluk, formda/zinde olma
to refer to	refere etmek, anlamına gelmek
lung	akciğer
heart	kalp
steady pace	sabit bir tempo
to perform exercise	egzersiz yapmak
heart beat	kalp atışı
to beat	atmak, çarpmak, yenmek, döv-
to improve	gelişmek, geliştirmek
to row	kürek çekmek, kavga etmek
recreational	dinleme, boş zamana ait
vigorously	hareketli, çaba gerektiren
be likely to	olası olamak, muhtemel olmak
flexibility	esneklik
ability	yetenek
to stretch	uzanmak, esnemek

vary	variable, variance, variant, variety, variation	variable, varied, various	invariably, variously
involve	involvement	involved, uninvolved	
simplify	simplicity, simplification	simple, simplistic	simply
straighten	straight	straight	straight

14. The History of Trial By Jury

In most English-speaking countries, a person who is **accused of** a **crime** has the **right** to a "**trial** by jury." In a trial by jury, the guilt or **innocence** of the accused person is decided by a group of 12 people, called **jurors**, who must listen to the **evidence** about the case. The idea of trial by jury is over 800 years old, but there was a time when criminal **cases** were decided in other ways. Today, many of these methods seem **ridiculous** and cruel. Many accused people were **forced to** undergo a trial by **ordeal**. There were several different kinds of this trial. For example, in the ordeal by fire, an accused man was forced to carry a red-hot piece of iron in his hand. People believed that if the man were innocent then the gods would protect him, and his hand would not be burned or **blistered** by the iron. Another form of the trial by ordeal was the ordeal by **combat**. If one person accused another of a crime, they would be forced to fight each other with some **weapon**. People believed that the gods would help the man who was right and allow him to win the fight. Yet another kind of ordeal was the ordeal by water. If a woman was accused of a crime, such as **witchcraft**, she might be thrown into a river with rocks attached to her. People believed that the gods would help an innocent woman and allow her to **float** on the water. Gradually, people realized that the trial by ordeal was a completely **worthless** way to judge a person's innocence or guilt. They wanted a less barbaric way to decide criminal cases. During the twelfth century, a new method was introduced by one of the kings of England, Henry the Second. Henry said that criminal cases should be decided by the opinions of twelve honest men who knew about the crime, the **victim**, and the accused person. This was the beginning of trial by jury in English-speaking countries, and the method soon became very popular. People trusted this new method much more than they trusted the old methods. Later, the system of trial by jury changed somewhat. Instead of having a jury of twelve men and women who knew about the crime, juries were chosen so that the twelve people did not know anything about the crime. This change **ensures** that the jurors do not have any **bias** or **prejudice** about the case. When jurors do not know any of the people involved in the case, their decisions are more likely to be **fair** and **accurate**. Today, citizens in many countries are called **occasionally** for jury **duty**. This can be **inconvenient** for people who are busy with their work and family life. However, many men and women are willing to serve on juries because of a feeling of responsibility to society. The use of juries in criminal cases helps to **ensure** that **justice** is done.

to accuse of	suçlamak
crime	suç
right	hak, sağ, doğru
trial	duruşma, mahkeme
ınnocence	masumiyet
evidence	delil
criminal case	suç davası
ridiculous	komik, mantıksız, gülünç
to force	zorlamak
to undergo a trial	duruşması yapılmak
ordeal	işgence
ınnocent	masum
to protect	korumak
to burn	yakmak, yanmak
to blister	kabarmak, su toplamak(yara)
combat	dövüş, kavga
weapon	silah
witchcraft	cadı işleri, büyücülük
to throw	fırlatmak, atmak
rock	kaya
to float	suyun üstünde kalmaki, yüzmek

	accuracy, inaccuracy	accurate, inaccurate	accurately, inaccurately
	occasion	occasional	occasionally
inconvenience	convenience, inconvenience	convenient, inconvenient	conveniently

15. Benjamin Franklin

Benjamin Franklin was one of the most famous people in American history. He was never a President of the United States, but he made great achievements in many areas of life, including business, literature, science, and politics. Benjamin Franklin was born in the city of Boston, during the year 1706. In his early years, Franklin was very poor. As a young man, he worked for his older brother, who was a **printer**. However, the two brothers soon argued with each other. Benjamin decided to leave, and he moved to the city of Philadelphia. He worked very hard and soon became a successful printer. He **published** his own newspapers, and he also published books called **almanacs**, which contained many **wise** sayings. Many of the wise sayings in Franklin's almanacs are still repeated today. Franklin's printing business was very successful, but he was also very interested in science. He performed **experiments** on the topic of electricity. Some of these experiments were very dangerous. In one experiment, Franklin was almost killed when he went outside during a **lightning** storm and flew a **kite** that had a metal key attached. However, Franklin was lucky enough to avoid injury, and he learned new facts about electricity. In addition to scientific research, Franklin was also an inventor. He invented a new kind of eye-glasses called "bifocals." Bifocals are eye-glasses that allow people to see things that are far away, but also allow them to read things that are very close. Another invention was a new kind of stove for **burning** wood. This new stove was much more **efficient** than the older stoves had been. He also invented a **lightning rod**, which keeps houses safe from lightning. Franklin was also interested in making his city a better place to live. He started a public library, and he helped to organize a hospital and a fire department. In addition, he **supervised** the postal service, which operated **profitably under his command**. In his later years, Franklin became heavily **involved in** politics. For most of Franklin's life, the United States was not yet a country. Instead, the states were still colonies of England, but Franklin **encouraged** other Americans to become an **independent** country. When the United States became a country, Franklin became the American **ambassador** to France. The French people liked Franklin very much. Franklin later returned to the United States, and he died in 1790. Today, many Americans still admire the **brilliant** achievements of Benjamin Franklin, who did so much to improve people's lives. The picture of Benjamin Franklin can be seen on the American hundred-dollar bill.

achievement	başarı
literature	edebiyat
printer	matbaacı, yazıcı
to publish	(kitap) basmak, yayımlamak
almanacs	almanak
wise	bilge, akıllı
to repeat	tekrarlamak
experiment	deney
to perform experiment	deney yapmak
lighting storm	şimşek fırtınası
kite	uçurtma
ınjury	yara, yaralanma
fact	gerçek, olay
efficient	etkili
lightning rod	paratöner, yıldırım savar
to supervise	denetlemek, gözlemek
profitably	karlı olarak
under his command	onun komutası altında
to encourage	cesaretlendirmek, teşfik etmek
ındependent	bağımsız
ambassador	büyük elçi
brilliant	parlak, zeki

10. **Unfortunately, some men and women change their appearances drastically ----- surgeries because they think they are not attractive enough.**

A) through B) from
C) to D) under
E) below

11. **Besides tourism, thousands of foreigners come ----- Turkey for rhinoplasty surgery ----- their countries.**

A) under/for B) in/for
C) from/on D) to/from
E) at/for

12. **I run ----- the park for 30 minutes every day to stay healthy and fit.**

A) off B) under
C) above D) around
E) into

13. **It is not known where he got the gun -----, and how he drove ----- the city without getting caught by the cops.**

A) from/across B) for/past
C) towards/over D) to/from
E) into/past

14. **The torture the African people got ----- the Americas was just ----- imagination.**

A) for/into B) in/in
C) into/at D) by/under
E)from/beyond

15. **In push-up exercise, a person lies ----- the floor, with the face pointing -----.**

A) in/off B) on/down
C) under/up D) off/toward
E) through/along

16. **A group of people got arrested and they were sent ----- the court on the day of school shooting during which several students were shot ----- the US.**

A) in/at B) in/from
C) at/for D) to/in
E) for/in

17. **If a woman was accused of a crime, such as witchcraft, she might be thrown ----- a river with rocks attached to her.**

A) out of B) at
C) into D) from
E) over

18. **We walked ----- the oldest public library ----- the Earth which is in Morocco.**

A) on/in B) at/around
C) into/on D) into/in
E) through/from

19. **Her way of eliminating the food ----- her body was vomiting.**

A) into B) beside
C) along D) beyond
E) from

20. **Today, many millions of people ----- North and South America are the descendants of slaves who were brought ----- Africa.**

A) in/from B) in/on
C) at/on D) for/from
E) under/before

3. other preps

3. Test Gerund - Infinitives – Zone1

1. **Flexibility refers to one's ability ----- comfortably, which is an important component of fitness that can be acquired by exercising regularly.**

A) to stretching B) stretching
C) to be stretched D) to stretch
E) stretched

2. **A woman who has bulimia will sometimes eat large amounts of food, but then will try ----- the food, by vomiting.**

A) to be eliminated B) eliminate
C) to eliminate D) being eliminated
E) to be eliminating

3. **Some of these exercises involve ----- a weight, but other exercises simply involve pushing or pulling against the weight of one's own body.**

A) lifting B) to be lifting
C) being lifted D) lifted
E) to lift

4. **Some women believe that their breasts are not large enough, and undergo surgery ----- their breasts.**

A) being enlarged B) to be enlarged
C) having been enlarged D) to have enlarged
E) to enlarge

5. **Instead of ----- a jury of twelve men and women who knew about the crime, juries were chosen so that they did not know anything about the crime.**

A) having had B) having
C) to have D) being having
E) to be having

6. **The plantation owners usually obtained slaves by ----- them from local kings in western Africa.**

A) being bought B) having bought
C) buying D) to buy
E) to be buying

7. **One important element of ----- physically fit is called cardio-vascular fitness.**

A) be B) to be
C) to being D) having been
E) being

8. **The states were still colonies of England, but Franklin encouraged other Americans ----- an independent country.**

A) to be becoming B) to have become
C) being become D) becoming
E) to become

9. **There is no need ----- unnatural methods of changing one's body, which put one's health at risk.**

A) being used B) to use
C) having been used D) to have been used
E) to be using

10. **After the two brothers soon argued with each other, Benjamin Franklin decided -----, and he moved to the city of Philadelphia.**

A) leaving B) to be leaving
C) to leave D) to be left
E) being leaving

11. **Many people feel so unhappy about their physical appearance that they do unhealthy things ----- the way they look.**

A) to be changing B) having been changing
C) changing D) to change
E) to have changed

12. **Benjamin Franklin's invention was a new kind of stove for ----- wood and it was much more efficient than the older stoves had been.**

A) to burn B) burning
C) to being burnt D) having burnt
E) being burnt

13. **For hundreds of years, many people were taken from Africa, by force, ----- in the fields of many different countries in North and South America.**

A) working B) to be worked
C) to work D) to have worked
E) having worked

14. **There is one way to improve cardio-vascular fitness that does not involve exercise: stop -----!**

A) to be smoked B) having smoked
C) to have smoked D) smoking
E) to smoke

15. **Some people become very worried about the way they look. This can sometimes lead them ----- things that are unhealthy.**

A) to be done B) to do
C) being doing D) doing
E) done

16. **To develop cardio-vascular fitness, it is important ----- some exercise that makes one's heart beat quickly.**

A) to perform B) to be performed
C) being performed D) to have performed
E) performing

17. **Of course, everyone should try to be healthy, but people must also learn ----- their physical appearance.**

A) accepting B) to accept
C) having accepted D) to have accepted
E) to be accepting

18. **Bifocals are eye-glasses that allow people ----- things that are far away and those that are close, so they don't need to use two separate glasses.**

A) having seen B) to see
C) seeing D) to have seen
E) to be seeing

19. **If one's heart and lungs are in good condition, then one can exercise at a steady pace without ----- tired soon.**

A) getting B) having been getting
C) to get D) to have got
E) being got

20. **Unfortunately, some women are concerned about ----- very thin, but some women have different concerns related to the appearance of their body.**

A) to be B) to being
C) to have been D) been
E) being

3. Test Gerund - Infinitives – Zone2

1. **Henry said that criminal cases should be decided by the opinions of twelve honest men ----- about the crime, the victim, and the accused person.**

A) knowing B) to have known
C) having been knowing D) having been known
E) to know

2. **A person ----- frequently will be "physically fit.", which means he can do his everyday tasks without any difficulty.**

A) to exercise B) exercising
C) having been exercising D) to have exercised
E) to be exercised

3. **In most English-speaking countries, a person ----- of a crime has the right to a "trial by jury".**

A) having accused B) accusing
C) accused D) to accuse
E) to be accused

4. **Many more African people died as slaves before leaving Africa, and many more died on the ships ----- them to the Americas.**

A) taken B) to be taking
C) to take D) taking
E) having been taken

5. **Many of the women ----- the stomach surgery have suffered serious health problems as a result.**

A) have B) to have had
C) to be having D) to have
E) having had

6. **By being flexible, a person can avoid injuries ----- by everyday tasks such as climbing a ladder, running, cycling.**

A) caused B) causing
C) to have caused D) having been caused
E) to cause

7. **When jurors do not know any of the people ----- in the case, their decisions are more likely to be fair and accurate.**

A) involved B) to be involved
C) involving D) having involved
E) to have been involved

8. **To develop cardio-vascular fitness, it is important to perform some exercise ----- one's heart beat quickly.**

A) to have made B) made
C) making D) being made
E) to be making

9. **By the 1830s, slavery had been ended, or abolished, in islands ----- by the British, and in parts of the United States.**

A) to be owning B) owning
C) to have owned D) owned
E) to be owned

10. **Many people suffer from injuries -----, in part, from weakness of the muscles.**

A) having been resulted B) being resulting
C) to result D) to have resulted
E) resulting

11. **Benjamin Franklin supervised the postal service, ----- profitably under his command because he himself established the system.**

A) operating B) operated
C) to operate D) having been operated
E) to have operated

12. **After many of the African slaves died from overwork, they were then replaced by other slaves ----- from Africa.**

A) brought B) to bring
C) bringing D) having brought
E) to be brought

13. **Many people in the modern world have machines ----- most of the heavy work that was once done by people.**

A) having been done B) to be doing
C) doing D) to have done
E) being done

14. **In one experiment, Franklin was almost killed when he went outside during a lightning storm and flew a kite ----- a metal key attached.**

A) had B) to have
C) having been had D) to be had
E) having

15. **Instead of having a jury of twelve men and women ----- about the crime, juries were chosen so that the twelve people did not know anything about the crime.**

A) knowing B) to have known
C) having been known D) being known
E) to be knowing

16. **Benjamin Franklin made great achievements in many areas of life, ----- business, literature, science, and politics.**

A) included B) to be including
C) to have included D) being included
E) including

17. **Revolting against the plantation owners was difficult because the slaves ----- recently ----- spoke many different languages.**

A) to have/arrived B) having/ been arrived
C) to have/been arrived D) having/arrived
E) to be/arriving

18. **A woman ----- bulimia will sometimes eat large amounts of food, but then will vomit to eliminate it.**

A) being had B) to have
C) having D) to be having
E) having had

19. **Benjamin Franklin published his own newspapers, and he also published books called almanacs, ----- many wise sayings.**

A) to contain B) containing
C) contained D) having been contained
E) to have contained

20. **Today, many millions of people in Americas are the descendants of slaves ----- from Africa.**

A) having been brought B) having brought
C) to be brought D) being brought
E) to have brought

A) To make B) Made
C) To be made D) Being made
E) Having made

18. **While ----- together as a printer, Benjamin Franklin and his older brother argued a lot with each other.**

A) having worked B) to work
C) work D) having been worked
E) working

19. **After ----- to the city of Philadelphia, Benjamin Franklin worked very hard and soon became a successful printer.**

A) to move B) to be moved
C) having been moved D) moving
E) move

20. **----- by Franklin in his own newspapers in the 18th century, almanacs contained many wise sayings.**

A) Published B) To be published
C) To publish D) Having published
E) Publishing

16. Preservation of Forests

Many thousands of years ago, much of the world's land area was covered in forests. **Since that time**, people have needed to clear the forests by cutting down the trees in order to **make room** for their farms and cities. Today, forests are still being **cleared**, and many people are worried that too much forest area is being lost. There are many reasons why it is important to **preserve** forests. One reason is that the trees inside the forests help to **remove** carbon dioxide from the air and put oxygen back into the air. This is important, because scientists believe that too much carbon dioxide in the air might be causing the world's temperature to **increase** quickly. The forests might help to reduce this problem by **absorbing** carbon dioxide from the air. Another reason for preserving forests is to maintain many different **species** of plants and animals. The forests are the home of a **huge** variety of plants and animals, which will become **extinct** if the forests are **destroyed**. These plants and animals are both beautiful and interesting, but they also have **practical benefits** for people. For example, doctors believe that many diseases might be treated by **chemicals** that are **obtained** from forest plants. Forests are also important for providing wood, or **lumber**, but sometimes people **cut down** too many trees for lumber. To preserve the forests, it is important to **ensure** that the **amount** of wood removed is not more than the amount of new wood that grows in the forest. Otherwise, the forest will gradually disappear. In many parts of the world, forests have already been cleared. In recent years, many forests have been cleared in South America, Africa, and **southeast** Asia. In other parts of the world, the forests had already been **cleared** a long time ago. There are only a few areas of the world where very large areas of forests have not yet been changed by people. These areas include the Amazon rain forest of Brazil, and the northern forests of Canada, Alaska, and Siberia. Some countries have **passed laws** to protect their forests from being cleared. For example, a country can **declare** its forest areas to be a national park and prevent the forests from being cut down. However, this is very difficult for poor countries to do. The people may want to cut down the forests to obtain wood, to gain **access** to natural **resources** in the forest areas, or to have new land for farming. When forests are cut down to gain new farmland, however, people usually find that the **soil** is not very good for farming. It is a difficult **challenge** to provide **opportunities** for poor people of these countries, and to protect the forests at the same time. However, it is very important that this challenge be met successfully because the forests will be needed by future generations of people.

17. Violence on Television

Nowadays, the **issue** of **violence** on television is often **debated**. Many people are concerned that the images of violent acts might cause the **viewers** to become more **aggressive**. Some of these people believe that there should be **restrictions** on violent television programs. Other people feel that **individuals** should be able to choose what they want to watch on TV. Many of these people believe that **violent** television is unlikely to affect people's **behaviour**. One of the concerns that some people have about violent TV is that viewers might **imitate** aggressive acts. For example, consider a TV program that shows professional **wrestlers**. Some people believe that children who watch the program might copy the actions of the wrestlers and that this could lead to serious **injuries**. As another example, consider a TV program that shows people **shooting guns** at each other. Some people believe that viewers of such a program might be more likely to use a gun in their **disputes** with others. Another concern that some people have with violent TV is that it might make people less **sensitive** to the effects of violence. In other words, people who watch many acts of violence on television might no longer be **shocked** by violent acts. They might then become quite **tolerant** of **the use of** violence. Some people do not believe that violence on television is likely to have **harmful** effects. They point out that many terrible acts of violence **occurred** long before television. They also **argue** that people can tell the difference between television and real life. That is, they say that people are unlikely to imitate violent acts, and are unlikely to become less sensitive to violence in real life. Also, they argue that parents are able to prevent their children from watching violent television. Psychologists have **conducted** some **research** studies on the effects of violent television. Some studies have **shown** that children who watch a lot of violent TV do become slightly more aggressive as adults. Other studies have found that people behave somewhat more aggressively after watching a violent program. This is **especially** true for people who have an aggressive **personality**. Finally, some other research has found that **rates** of **murder tend to** increase **slightly** in the days following a televised boxing match. Nearly all psychologists now agree that violence on television does **contribute to** aggressive behaviour in everyday life. The **issue** of violence on television is difficult because it is a **conflict** between public **safety** and individual **freedom**. Some people feel that violent TV should be restricted because it might have **harmful** effects on society, but other people feel that individuals should be free to watch the programs that they like.

18. The Inuit

Not many people would want to live in the **Arctic** areas of northern Canada, Alaska, and Greenland. In these places, the summers are very short, and the winters are extremely cold and dark. However, there are some people who have made this land their home for many generations. These people are called the Inuit. The word "Inuit" means "person" in the language of the Inuit, which is called Inuktitut. Before modern times, the Inuit had to **survive** by hunting. Because their homeland was in such a cold, northern place, the Inuit could not make a living by farming or by gathering plants. Many of the animals that the Inuit hunted are **mammals** that live in the water. For example, the Inuit used boats to hunt **whales**. Also, they **hunted** **seals** by waiting for the seals to rise to the surface of the water. Sometimes, the Inuit would hunt land mammals, such as **polar bears**. When eating the meat of the animals they had hunted, the Inuit often ate the meat raw. This was necessary because only raw meat could provide them with enough **nutrients** to survive in a place where fruits and vegetables were not **available**. In **previous** times, the Inuit were known as the "Eskimos," which means "people who eat raw meat." However, the Inuit did not like this name. The Inuit invented many **useful** **tools** for surviving in the cold, northern areas. They **sewed** warm clothing from the furs and skins of the animals they hunted. For **transportation**, they used dogs, which could **pull** them in **sleds** across the snow. For making heat and light, they used lamps that burned the fat and oil of whales. The Inuit were famous for their houses made of snow, which were called **igloos**. The igloos were made by cutting blocks of snow and then using these blocks to build a small round-shaped house. People could enter or exit the igloo through a **narrow** tunnel. In recent decades, the Inuit have had much **contact with** the modern world. Inuit children now attend schools, and Inuit adults work at **a variety of** **occupations**. In some ways, the Inuit have found it difficult to **adjust** **to** the changes from their traditional ways, but the Inuit are meeting this **challenge**. In Canada, there is a new **territory** in the far north, called Nunavut, where most of the people, including the **leaders**, are Inuit. The Inuit are famous for their beautiful **artwork**. **In particular**, Inuit **carvings** or sculptures are known for their excellent quality. These carvings, which **nowadays** are made from a kind of stone called **soapstone**, **depict** people or animals such as bears, seals, or whales. In addition to paintings, Inuit artists have produced beautiful **sketches** and paintings of northern **scenes**.

19. Kings and Queens of England

Today, in the early twenty-first century, most countries no longer have kings and **queens**. However, some countries have remained as **monarchies**, including England and its **former** colonies. However, even in these countries, the monarch is a **ceremonial** figure who **no longer** has any real power over his or her **subjects**. These countries are called **constitutional** monarchies because they are democracies in which the monarch remains the official head of **state**. Many years ago, the kings and queens of England did have real power, but gradually this power was transferred to the people and their **elected** officials. It is interesting to examine how this **transition** occurred. Even in very early times, the king of England did not have **absolute** power. He was the most powerful man in the country, but he could not **entirely** force his **will** upon others. If he became too **demanding**, he might face opposition from powerful local land-owners. These men, called the **barons**, might resist a king who tried to become too strong. This is exactly what happened in the year 1215. The king of England had made many **unreasonable** **demands** upon the country, and the barons decided to resist. They forced the king to agree to a list of rules that would limit his power. These rules were written in a famous **document** called the Magna Carta. This document **described** not only the rights of the barons, but also of the common people of England. During the next few hundred years, the kings still had much power. However, some other people, such as the **landowners** and the richer men of the towns, also had **influence**. Their meetings became known as Parliaments, and the king had to share power with the parliament. During the 1640s, one king tried to rule without Parliament, and tried to take away the rights of Parliament. This led to a **civil** **war**, and the king was **defeated**. England soon became a monarchy again, but it became clear that Parliament would have more power than the king. Until the twentieth century, the Parliaments of England became more democratic, as more and more people were **allowed** to **vote**. Today, England still has a constitutional monarchy. But not all English-speaking countries **recognize** the English queen. For example, the United States became an independent country over 200 years ago and has been a **republic** ever since. In some countries, there is **debate** about the future of the monarchy. Canada, Australia, and New Zealand still recognize the queen of England as their own queen even though those countries are no longer **governed** by England. Many people in those countries want to **abolish** the monarchy. They believe that their countries should now have their own head of state. On the other hand, some people in those countries want to keep the monarchy because it **reminds** them of their country's early history. This is an **ongoing** topic of debate for Canadians, Australians, and New Zealanders.

queen	kraliçe
monarchy	monarçi, krallık
former	önceki, eski
colony	koloni
ceremonial	seremonik, törensel
no longer	artık

20. Alcohol

Alcohol is the oldest drug that is used in Western countries. For thousands of years, people have made alcoholic **beverages**. These beverages are made by allowing a **process** called **fermentation** to occur. Alcoholic fermentation happens when **yeasts** or bacteria **break down** the sugars that occur in some liquids, and **convert** some of those sugars into alcohol. Many liquids, such as fruit juices, can **ferment**. Thousands of years ago, alcoholic drinks were common in the Middle East. However, the Islamic religion **forbids** alcohol, so very little alcohol is **consumed** in this part of the world. In European countries, and in other parts of the world, many different kinds of alcoholic beverages are produced and consumed. In warmer areas of Europe, people make wine by allowing **grape** juice to ferment. In cooler areas of Europe, people make beer by fermenting liquids made from water and **various** **grains**. The process of fermentation is also used to make stronger drinks known as "spirits." These drinks include vodka, whiskey, and rum. The techniques for making good wine, beer, and **spirits** have been developed over hundreds of years, and require scientific **precision**. Some people have developed a great **appreciation** for well-made wine, beer, or spirits, and have become experts about the many different varieties of these beverages. Many people appreciate the taste of alcoholic beverages, but many also enjoy the feelings that alcohol causes. Alcohol **belongs** **to** a category of drugs called "depressants" because it "depresses" the central nervous system, causing a person to feel less **inhibited** or **restrained**. Many people enjoy this feeling, but when a person drinks a lot of alcohol, he or she loses **co-ordination**, **balance**, and **judgment**. Speech may become **unclear**, and the person may speak too much. Some people become aggressive or depressed. When a person is under the influence of alcohol, the person is said to be drunk. One of the problems that can result from alcohol **consumption** is known as "drunk driving." Some people try to drive a car after having consumed alcohol, but this is extremely dangerous. Each year, thousands of people are killed by drunk drivers who lose control of their cars. In recent years, **attempts** have been made to reduce this problem, by public education campaigns and by strict laws and **punishments**. If you drink, don't drive! Another problem **associated** **with** alcohol is addiction, known as alcoholism. Some people drink so frequently that they develop a physiological addiction to alcohol. This problem can have terrible **consequences** for a person's health, personal **relationships**, and career. Alcoholic beverages are **firmly** a part of Western culture, and of many other cultures also. On the one hand, drinks provide many people with much **enjoyment** and appreciation. On the other hand, alcohol is a drug that can be **abused**, leading to accidents and **addiction**.

beverage	içecek, meşrubat
process	süreç
fermentation	mayalanma
yeast	maya
to break down	kırılmak, bozulmak
to convert	dönüşmek, değiştir-
to ferment	mayalanmak, ekşimek

C) To be made D) To make
E) Making

20. **Some people try to drive a car after ----- alcohol, but this is extremely dangerous because they may lose control over their actions.**

A) consumed B) to be consumed
C) consuming D) to be consuming
E) being consumed

21. The Origins of Canada and The United States

Most people are **aware** that Canada and the United States are two very large countries in North America. However, most people do not know how these countries came to **exist**. The story of the **creation** of these countries is a very interesting one. During the seventeenth and eighteenth centuries, some people from England and from France moved across the Atlantic ocean. English people lived on what is now the east coast of the United States, and French people lived in what is now Quebec, in the eastern part of Canada. The kings of England and France were often at war with each other. This meant that there was often **fighting** in North America between the soldiers of England and France. By about the year 1750, there were many more people in the English colonies than in the French colonies. When the next war began, the English king was **determined** to **defeat** the French and **gain** complete control of North America. The English **assembled** a large force of ships and soldiers and attacked the French at Quebec. The French fought **bravely**, but they were too few in numbers, and the English won the war. England then gained control of all of North America. After this war, the people of the English colonies in North America began to feel **dissatisfied with** their government. They were not **represented** in the English government, but they had to pay taxes to the English king. The taxes were used to pay for English soldiers who **defended** the American colonies, but the Americans did not want these soldiers. In 1775, the American **settlers** began to rebel, and in 1776 the Americans **declared** their independence. For several years, there was much fighting between the Americans and the English soldiers. **For a while**, it appeared that the Americans would lose, even though they fought bravely. Then, the king of France decided to help the Americans. He sent his ships and soldiers to America, and they helped the Americans to defeat the English forces. England recognized the United States of America as an independent country in 1783. However, England kept control of Canada. When the American colonies **rebelled against** England, some of the people who lived in those colonies did not rebel. Those people were called "Loyalists" because they were **loyal to** the king. When the war ended, the Loyalists had to leave the country. They moved **northward** to Canada, where they started new English-speaking colonies. During the year 1812, the Americans **invaded** Canada, but they were not able to **conquer** the country. During the nineteenth century, the people of Quebec continued to speak French and to **maintain** their French culture. **Meanwhile**, many more people moved to the English-speaking areas of Canada. In the year 1867, Quebec and the English-speaking colonies agreed to form a single country, Canada. By this time, there were two very large countries in the northern part of North America!

22. Hawaii

Of the fifty states in the United States, forty-nine are located on the **mainland** of North America. The other state is Hawaii, which **consists of** several islands in the middle of the Pacific Ocean. Hawaii is known as an especially beautiful and interesting place. The Hawaiian islands were formed by **volcanic eruptions** that pushed **molten rock**, called "lava," above the surface of the ocean. Some of the islands no longer have any volcanic **activity**, but there are still **active volcanoes** on two Hawaiian islands, Oahu and the "big island" (which is known simply as Hawaii). One of these volcanoes, Mauna Loa, still **erupts** sometimes, with **spectacular explosions** of **lava**. Another volcano, called Mauna Kea, is now **dormant**. These volcanoes are both very tall and reach over 4000 metres above sea level. The air above Mauna Kea is so clear and thin that scientists use the mountain as a **base** for observing the stars. The islands of Hawaii are located in the tropics, and they are known for their beautiful weather. The temperatures are usually in the **range** of 20 to 30 degrees Celsius, and the days are usually sunny. This weather allows people to enjoy swimming and surfing on the beautiful beaches of Hawaii. Despite the sunshine, most of the islands also receive enough **rainfall** to support many beautiful flowers and trees. The first people to live in Hawaii were Polynesian groups who arrived from other islands in the Pacific, well over 1000 years ago. The islands were visited by European explorers during the late eighteenth century. During the early nineteenth century, the islands became **unified** under a single king. However, during this time, many Hawaiians died from diseases that were brought by European and American visitors. The Hawaiian islands are excellent places for growing **sugar cane** and **pineapples**. In the late eighteenth century, some Americans began large farms, called "plantations," in Hawaii. The Americans **eventually** gained control of the government, and Hawaii became a **territory** of the United States. The United States built a **naval** base on the island of Oahu, at Pearl Harbor. This base was attacked by Japan in 1941, but it was soon **repaired**. The naval base is still in use today. During the nineteenth and twentieth centuries, there was great **demand for** labour on the sugar and pineapple plantations. People came to Hawaii from many lands, and Hawaii became a place of many cultures. The native Hawaiians mixed with people from places such as Japan, China, Korea, the Philippines, Portugal, and Puerto Rico, as well as the mainland United States. Today, many Hawaiians can **claim** a **diverse heritage**. In 1959, Hawaii became the 50th state of the United States, with the city of Honolulu as its **capital**. Today, there are more than one million people in Hawaii, more than half of whom live in Honolulu. Each year, many more people visit Hawaii as tourists, to **experience** the beauty of these islands.

mainland	anakara, kıta
to consist of	-den oluşmak
volcanic eruption	volkanik patlama
molten rock	erimiş kaya, eriyik
activity	aktivite, etkinlik
active volcanoes	aktif volkanlar
to erupt	patlamak (volkanın)
spectacular	görülmeye değer
explosion	patlama
dormant	uykuda, uyuşuk, etkin olmayan
base	üs, temel
range	sıra, dizi, aralık
rainfall	yağış
unified	birleşmiş, birleştirilmiş
sugar cane	şeker kamışı
pineapple	ananas
eventually	eninde sonunda
territory	bölge, alan
naval	donanmaya ait
demand for	talep, istek
to claim	iddia etmek
diverse	çeşitli, farklı
heritage	kalıt, miras, kalıtım
capital	başkent, anapara
to experience	tecrübe etmek, yaşamak

22. Parça Kelime Çalışmaları

VERB	NOUN	ADJECTIVE	ADVERB
activate	activity, inactivity	active, inactive, interactive, proactive	actively
explode	explosion, explosive	exploding, explosive	explosively
base	base, the basics, basis	baseless, basic	basically
demand	demand, demands	demanding, undemanding	
experience	experience, inexperience	experienced, inexperienced	

23. Charles Darwin

Charles Darwin made what might be the most important **scientific discovery** of all time-the **theory of evolution** by **natural selection**. It was Darwin who first understood how it was that plants and animals **evolved** over time to produce new and different **species**. At first, this **theory** faced much opposition, but since that time it has been **supported** by **evidence** from many areas of science. Darwin was born in a small town in England in 1809. When he was a young man, he went to university, first to study medicine, and later to study **religion**. However, Darwin found his schoolwork to be very boring. Instead, he preferred outdoor activities and was very interested in nature. While Darwin was at university, the British **navy** was planning to send one of its ships, called the Beagle, on a **voyage** of **exploration**. As part of this voyage, the ship would need a naturalist, who could study the various plants and animals that might be found. Darwin was **recommended** for this job by one of his professors, who had been impressed by Darwin. Darwin was chosen as the naturalist of the Beagle, and the ship left England in 1831. The ship's voyage took Darwin around the world, and he observed many species of plants and animals on his trip. In one place near South America, known as the Galapagos Islands, Darwin observed many unusual species of birds. Several of these birds seemed closely related to each other, but they differed in interesting ways. For example, some birds had long **beaks** that could **reach insects hidden** in the **bark of trees**, but other birds had **thick** beaks that could break open the **shells** of **nuts**. What Darwin realized was that certain characteristics could help an animal (or a plant) to survive and **reproduce**. Individuals that **lacked** those characteristics would be more likely to die without reproducing. Over many generations, the useful characteristics would then become more and more common, as the surviving individuals **passed** the characteristics **on** to their **offspring**. Eventually, after many generations, the changes would be so great that a new species would exist. In this way, a single species could divide into two or more new ones. This was called the "process of evolution by natural selection." When Darwin returned to England, he studied plants and animals in more **detail**. After much research, he began writing a book about his theory of evolution by natural selection. When the book, The Origin of Species, was published in 1859, it was very popular and very **controversial**. During the next twenty years, Darwin **continued** his scientific research, and he wrote several more books. By the time of his death, in 1882, many biologists had realized that Darwin had made one of the most important scientific **discoveries** of all time. For the first time, scientists could understand the origin of the many different species of plants and animals.

scientific discovery	bilimsel keşif
theory of evolution	evrim teorisi
natural selection	doğal seçim
to evolve	evrim geçirmek, gelişmek
theory	teori, kuram
species	tür
to support	desteklemek
evidence	delil
religion	din
navy	donanma
voyage	deniz yolculuğu
exploration	keşif, inceleme, araştırma
to recommend	tavsiye etmek, önermek
to be impressed	etkilenmek

controversial	tartışmalı
to continue	devam etmek
discovery	keşif

23. Parça Kelime Çalışmaları

VERB	NOUN	ADJECTIVE	ADVERB
	science, scientist	scientific, unscientific	scientifically
discover	discoverer, discovery		
theorize	theorist, theory, theorem	theoretical	theoretically
naturalize	nature, naturalist, naturalization, naturalness, the supernatural naturist, naturism	natural, supernatural, unnatural, naturalistic	naturally, unnaturally
support	support, supporter, supportiveness	supportive, supporting	supportively
	religion	religious, irreligious	religiously
explore	exploration, explorer	exploratory	
impress	impression	impressionable, impressive	impressively
	closeness	close	close, closely
relate	relation, relations, relationship, relative	related, unrelated, relative	relatively
thicken	thick, thickness, thickener	thick	thickly
characterize	character, characteristic, characterization	characteristic, uncharacteristic	characteristically
produce, reproduce	produce, producer, product, production, reproduction, productivity	productive, counterproductive, reproductive, unproductive	unproductively, productively
survive	survival, survivor	surviving, survivable	
pass	pass, overpass, underpass, passage, passing	passing, passable	
continue, discontinue	continuation, continuity	continual, continued, continuous	continually, continuously

24. Jazz

One of the most popular forms of music is known as jazz. Each year, hundreds of thousands of people **attend** jazz **concerts** and festivals in cities around the world. Jazz music, both old and new, is played on the radio and on home stereos. Two of the most important **features** of jazz music are "**improvisation**" and "syncopation." Improvisation means that music is created spontaneously by the musician during a performance. In other words, the musician **modifies** some **existing** music in a new and interesting way. Syncopation means that the **regular patterns** found in music may be broken up, with new accents and uneven patterns being **created**. The features of improvisation and syncopation are difficult to use with skill, and require great **creativity** on the part of the musician. Jazz music originated in the southern United States, during the late nineteenth and early twentieth centuries. It was **based on** African-American music that was **derived** in part **from rhythms** in western Africa. The earliest jazz musicians were **influenced** by a music **style** known as "ragtime," which was popular during the late nineteenth century. Jazz music also **incorporated** some aspects of a **related** kind of music called the "blues." By the beginning of the twentieth century, a fully developed form of jazz was being played in New Orleans, a city in the southern United States. Jazz musicians played instruments such as the trumpet, saxophone, cornet, and piano. Jazz soon became popular and was played on the riverboats that travelled along the Mississippi River. Some jazz musicians moved north to the city of Chicago, and young musicians in that city developed some new forms of jazz music. By the 1920s and 1930s, jazz was popular in many parts of the United States, and some musicians began forming large bands, **comprising** many musicians and many different instruments. This began the **period** known as the "big band" era when a popular form of jazz known as "swing" music was played. During the 1940s and 1950s, other forms of jazz, known as "bop" and "cool" jazz, were developed. Some people **preferred** these newer kinds of jazz, but others preferred the older **varieties**. By the 1960s, some jazz musicians began to **experiment** with different kinds of musical instruments and with other kinds of music. Some musicians incorporated musical styles from other parts of the world, or **combined** jazz **with** rock music, and today some musicians have **blended** jazz **with** rap music. However, some people prefer the more **traditional** forms of jazz music. Of course, most of the great jazz musicians of the early twentieth century-people such as Louis Armstrong, Duke Ellington, Count Basie, Dizzy Gillespie, and Billie Holliday-are no longer **alive**. However, many great jazz musicians are still active, and many younger musicians have continued this form of music. People will continue to enjoy jazz music for a long time to come.

to attend	katılmak, devam etmek(derse)
concert	konser
feature	özellik
improvisation	doğaçlama
to modify	değiştirmek, hafif değişiklik yap-
pattern	kalıp, örnek, model
regular	düzenli
to exist	var olmak
to create	yaratmak, oluşturmak
to require	gerektirmek

to blend with	karıştırmak, harmanlamak
traditional	geleneksel
alive	canlı

24. Parça Kelime Çalışmaları

VERB	NOUN	ADJECTIVE	ADVERB
attend	attention	attentive, inattentive	attentively
regulate	regular, regularity, irregularity	regular, irregular	regularly, irregularly
exist, coexist	existence	non-existent, existing, pre-existing	
create, recreate	creation, creativity, creator	creative, uncreative	creatively
relate	relation, relations, relationship, relative	related, unrelated, relative	relatively
prefer	preference	preferable, preferential, preferred	preferably
vary	variable, variance, variant, variety, variation	variable, varied, various	invariably, variously
experiment	experiment	experimental	experimentally
combine	combination	combined	
	tradition, traditionalist, traditionalism	traditional	traditionally

25. Australia : Nature

Australia is the only country in the world that is also a continent. Located in the southern **hemisphere**, between the Pacific and Indian oceans, Australia is one of the largest countries in the world. **Despite** its vast size, Australia does not have a large population. In the year 2000, there were about 19 million people in Australia. Most Australians live **within** a short **distance** of the ocean, because much of the **interior** of Australia is extremely **dry**. The **remote** areas of Australia, known as the "outback," **contain** several **sandy**, rocky deserts. Some parts of the **outback** receive somewhat more rainfall, and can support some **grassy** **vegetation**. In these areas, there are many **ranches**, or farms, where sheep and cattle are raised. Although the outback of Australia is a **harsh** place, some parts of it are quite beautiful. In the middle of the Australian **continent**, a large red rock known as Uluru stands in the desert. It is nearly 350 metres tall and is nearly 10 kilometres around. Tourists come from all over the world to see this huge and beautiful rock in the middle of a **flat** **desert**. **In** **contrast** **to** the dry interior areas, the northern **coast** of Australia receives **a great deal of** rainfall. This area is covered in thick, **lush** vegetation, with tropical rainforests whose exotic trees and flowers are found nowhere else in the world. Off the north-east coast of the continent, a large **coral reef** known as the Great Barrier Reef is found. A coral reef is a structure that consists of the bodies of small underwater animals called coral, whose dead bodies create this unusual **structure** **beneath** the surface of the water. The reef and the underwater life **surrounding** it are especially beautiful. Australia was **separated** **from** the rest of the world for millions of years. As a result, many of the plant and animal **species** in Australia are very different from those in other parts of the world. For example, many of the animals in Australia **belong to** a special category called the "marsupials." Marsupials are **mammal**s, but they are a special kind of mammal, because they give birth to **offspring** that are not yet well **develop**ed. In many marsupials, the offspring continue to develop, after being born, inside a **pocket** or "**pouch**" on the mother's body. The most famous marsupial is the kangaroo. Kangaroos can travel at great **speed**s by hopping on their hind legs and using their large tails for balance. The kangaroo is a rather large animal, with the larger individuals sometimes weighing 90 kilograms. Another famous marsupial is the koala. This animal is sometimes called a koala bear because it looks somewhat like a small bear. The koala lives in the **branches** of trees called eucalyptus trees. Koalas eat the leaves of eucalyptus trees. Of course, Australia also has people. We will discuss the people of Australia in the next **passage**.

hemisphere	yarımküre
despite	-e rağmen
within	içinde
distance	mesafe, aralık, uzaklık
interior	iç, içe ait
dry	kuru
remote	uzak
to contain	içermek, kapsamak
sandy	tozlu, kumlu
outback	taşra, şehirden uzak yer
grassy vegetation	çimenlik bitki örtüsü
ranch	büyük çiftlik, hayvan çifliği
harsh	sıkı, sert, zorlu, haşin
continent	kıta
flat	apartman dairesi, yassı, düz
dessert	tatlı

5. Test Bağlaçlar

1. **----- English people lived on what is now the east coast of the United States, French people lived in what is now Quebec, in the eastern part of Canada.**

A) But B) Moreover
C) While D) If
E) In case

2. **There are active volcanoes on Hawaiian Islands ----- Oahu and the "big island".**

A) as long as B) such as
C) whether D) in addition
E) thanks to

3. **When he was a young man, he went to university ----- study medicine.**

A) owing to B) in case of
C) hence D) so that
E) in order to

4. **Jazz musicians play instruments ----- the trumpet, saxophone, cornet, and piano.**

A) in order that B) similarly
C) because D) such as
E) due to

5. **----- its vast size, Australia does not have a large population because most of its area is not habitable because of inhospitable conditions..**

A) Despite B) Due to
C) In addition D) Thanks to
E) Instead of

6. **----- 1776, the Americans had not declared their independence.**

A) By the time B) Until
C) Owing to D) As a result
E) Hence

7. **----- Mauna Loa sometimes erupts with spectacular explosions of lava, another volcano, called Mauna Kea, is now dormant.**

A) If B) But
C) Thus D) While
E) Therefore

8. **----- Darwin was in the Galapagos Islands, he observed many unusual species of birds.**

A) Moreover B) On the other hand
C) When D) So that
E) For example

9. **----- the 1920s and 1930s, jazz was already popular in many parts of the United States.**

A) However B) Therefore
C) Besides D) By
E) In case of

10. **The northern coast of Australia receives a great deal of rainfall, ----- it is covered in thick, lush vegetation, with tropical rainforests, which need a lot of water.**

A) by the time B) due to
C) as a result of D) because of
E) so

11. **The French fought bravely, ----- they were too few in numbers, and the English won the war.**

A) if B) when
C) unlike D) however
E) consequently

12. **The islands of Hawaii are located in the tropics, ----- they are known for their nice weather.**

A) except for B) for instance
C) so D) though
E) in spite of

13. **Darwin preferred outdoor activities ----- schoolwork and was very interested in nature.**

A) instead of B) unless
C) although D) due to
E) thanks to

14. **----- some people, most people preferred new kinds of jazz.**

A) Until B) Because of
C) Consequently D) On the other hand
E) Unlike

15. **Most Australians live within a short distance of the ocean ----- much of the interior of Australia is extremely dry.**

A) while B) because of
C) as D) by the time
E) otherwise

16. **Some of the people who lived in American colonies did not rebel ----- they were loyal to the king.**

A) in case B) while
C) however D) besides
E) because

17. **The islands of Hawaii are located in the tropics, ----- the temperatures are usually in the range of 20 to 30 degrees Celsius.**

A) otherwise B) so
C) by the time D) in order to
E) unless

18. **Some birds have long beaks; -----, they can reach insects hidden in the bark of trees.**

A) for instance B) in addition to
C) thus D) because
E) as soon as

19. **----- the 1930s, some musicians began forming large bands, comprising many musicians and instruments.**

A) For fear that B) Contrary to
C) Thanks to D) When
E) After

20. **Koala is sometimes called a koala bear ----- it looks somewhat like a small bear.**

A) in addition B) as
C) until D) unlike
E) whether

21. ----- England gained control of all North America, the people of the English colonies in North America began to feel dissatisfied with their government.

A) Unless B) For example
C) When D) As well as
E) If

22. ----- the sunshine, most of the islands receive enough rainfall to support many beautiful flowers and trees.

A) In order to B) In spite of
C) Due to D) Because of
E) Owing to

23. ----- Darwin was at university, he was chosen as the naturalist of the Beagle.

A) While B) In addition
C) But D) However
E) So that

24. Jazz music has important features ----- "improvisation" and "syncopation."

A) when B) although
C) as soon as D) such as
E) hence

25. In Australia, there are some marsupials ----- kangaroos and koalas.

A) such as B) as
C) in addition D) regardless of
E) instead

26. ----- most people are aware that Canada and the United States are two very large countries, they don't know how these countries came to exist.

A) Therefore B) Although
C) If D) As well as
E) On the other hand

27. ----- the islands became unified under a single king, many Hawaiians died from diseases that were brought by European and American visitors.

A) In case B) Even so
C) After D) Whenever
E) But

28. ----- Darwin began writing a book about his theory of evolution by natural selection, he had studied plants and animals in more detail.

A) In addition to B) After
C) If D) For instance
E) Before

29. ----- the outback of Australia is a harsh place to live, some parts of it are quite beautiful.

A) Until B) Even if
C) Whenever D) In spite of
E) Due to

30. For a while, it appeared that the Americans would lose the war, ----- the king of France decided to help the Americans.

A) instead of B) because
C) in addition to D) but
E) by the time

31. ----- the war, the Loyalists had to move northward to Canada, where they started new English-speaking colonies.

A) Due to the fact that B) In case
C) Although D) After
E) Similarly

32. ----- you want to grow amazing sugar cane and pineapples, you can do it in the Hawaiian Islands, where the climate is perfect for it.

A) By the time B) As soon as
C) If D) Even though
E) Despite

33. Some birds have thick beaks ----- they can break open the shells of nuts, which are hard to break.

A) though B) in order that
C) thanks to D) even if
E) in order to

34. ----- the dry interior areas, the northern coast of Australia receives a great deal of rainfall.

A) However B) Thanks to
C) Contrary to D) But
E) On the other hand

35. Koalas live in the branches of trees called eucalyptus trees ----- they eat the leaves of eucalyptus trees.

A) though B) because of
C) in order to D) unlike
E) because

36. ----- French people who were loyal to the French king, English people lived on what is now the east coast of the United States.

A) Instead of B) Because
C) Unless D) Unlike
E) Thanks to

37. ----- the Americans eventually gained control of the government, Hawaii became a territory of the United States.

A) Otherwise B) When
C) Despite D) Due to
E) Whether

38. ----- his book, The Origin of Species, was published in 1859, Darwin continued his scientific research in order to fully understand the principles of evolution.

A) So B) Hence
C) Even though D) Thus
E) Instead

39. Many people visit Hawaii ----- experience the beauty of Hawaiian Islands.

A) but B) whereas
C) so that D) because of
E) in order to

40. Australia was separated from the rest of the world for millions of years. -----, many of the plant and animal species in Australia are very different from those in other parts of the world.

A) However B) As a result
C) But D) Unless
E) Because

5. Test Zamanlar

1. **During the 17th and 18th centuries, some people from England and France ----- across the Atlantic Ocean.**

A) move B) will have moved
C) moved D) had been moving
E) are going to move

2. **When the war -----, the English king was determined to defeat the French and gain complete control of North America.**

A) began B) will begin
C) has begun D) begins
E) is beginning

3. **In 1775, the Americans settlers began to rebel, and in 1776 the Americans ----- their independence.**

A) will declare B) have declared
C) had been declaring D) declared
E) are declaring

4. **During the nineteenth century, the Americans ----- Canada, but they were not able to conquer the country.**

A) invade B) invaded
C) had been invading D) will invade
E) have invaded

5. **Some of people who lived in American colonies didn't rebel when those colonies ----- against England.**

A) rebelled B) will have rebelled
C) have rebelled D) rebel
E) are rebelling

6. **Hawaii's temperature is generally in the range of 20 to 30 degrees Celsius and the days ----- usually sunny.**

A) were B) will be
C) had been D) have been
E) are

7. **The first people called Polynesians ----- in Hawaii by the time they arrived there 1000 years ago.**

A) had lived B) have lived
C) will live D) live
E) are living

8. **The Hawaiian Islands ----- excellent places for growing sugar cane and pineapples up to now because of its convenient climate.**

A) will be B) were
C) have been D) had been
E) are

9. **Americans began large farms called plantations in Hawaii after they ----- the control of the government.**

A) will gain B) had gained
C) gain D) were gaining
E) have gained

10. **In 1959, Hawaii ----- the 50th state of the United States with the city of Honolulu as its capital.**

A) becomes B) has become
C) became D) had become
E) will become

11. **While I ----- Hawaii as a tourist, I saw beautiful, interesting places and volcanoes.**

A) was visiting B) had visited
C) have visited D) will visit
E) will have visited

12. **One of the volcano in Hawaii, Mouna Loa, still ----- sometimes, with spectacular explosions of lava, which is amazing to watch.**

A) had erupted B) erupted
C) erupts D) will erupt
E) has been erupting

13. **Each year, many more people ----- Hawaii as tourists, to experience the beauty of islands.**

A) visit B) had visited
C) will visit D) were visiting
E) visited

14. **When Darwin was a young man, he ----- to university, first to study medicine and later to study religion.**

A) goes B) went
C) has gone D) had been going
E) will have gone

15. **When Darwin was at university, the British navy ----- to send one of its ships on a voyage of exploration.**

A) was planning B) has planned
C) plans D) is planning
E) will plan

16. **By the time Darwin died in 1882, many biologists ----- that he had made one of the most important scientific discoveries of all time.**

A) will realize B) realize
C) had realized D) were realizing
E) have realized

17. **Immediately after Ali returns to England, he ----- plants and animals in more detail.**

A) will study B) studied
C) was studying D) has been studying
E) had studied

18. **When Darwin's book, The Origin of Species, was published in 1859, it ----- very popular and controversial.**

A) becomes B) will become
C) has become D) became
E) had become

19. **I ----- Darwin's book, The Origin of Species since our last day at school.**

A) had read B) have been reading
C) will read D) am reading
E) read

20. **Many Hawaiian ----- from diseases that were brought by European and American visitors in the 18th century.**

A) will die B) died
C) had been dying D) have died
E) are going to die

21. Each year, hundreds or thousands of people almost always ----- jazz concerts in cities around the world.

A) attend B) attended
C) had attended D) will attend
E) were attending

22. Jazz music ----- in the southern United States, during the late 19th century and early 20th centuries.

A) had been originating B) will originate
C) originates D) originated
E) is originating

23. By 1920s and 1930s, jazz ----- popular in many parts of the United States.

A) is B) was
C) will be D) is going to be
E) has been

24. Some musicians ----- jazz with rap music recently as they want to create a new kind of music.

A) blend B) have blended
C) had blended D) will have blended
E) were blending

25. By the 1960s, some jazz musicians ----- to experiment with different kinds of musical instruments and with other kinds of music.

A) began B) had begun
C) have begun D) are beginning
E) will have begun

26. In the year 2000, there ----- about 19 million people in Australia although it is a vast continent which can inhabit far more people.

A) are B) had been
C) were D) have been
E) will be

27. Tourists always ----- from all over the world to see Australia's nature in the middle of the continent.

A) come B) came
C) had come D) have come
E) will be coming

28. Marsupials ----- mammals, but they are a special kind of mammal because they give birth to offspring that aren't yet well developed.

A) were B) are
C) will be D) have been
E) had been

29. Kangaroos ----- at great speeds by hopping on their hind legs and using their large tails for balance.

A) travel B) will travel
C) have travelled D) had travelled
E) were traveling

30. Koala generally ----- in the branches of trees called eucalyptus trees and they eat the leaves of eucalyptus trees.

A) will live B) was living
C) lives D) had lived
E) will be living

31. Australia ----- the only country in the world that is also a continent located in the southern hemisphere.

A) was B) will be
C) has been D) had been
E) is

32. Koala is sometimes called a koala bear because it ----- somewhat like a small bear.

A) looked B) will have looked
C) looks D) had looked
E) has been looking

33. Australia is one of the largest and most interesting countries I ----- to in my life.

A) have been B) will be

C) returned D) to be returned
E) having been returned

8. **Although not ----- in the English government, the people of the English colonies had to pay taxes.**

A) to represent B) to be represented
C) representing D) having represented
E) represented

9. **When ----- in 1859, the book, The Origin of Species, was very popular and very controversial.**

A) published B) publishing
C) to publish D) to be published
E) to have been published

10. **----- control of their cars, drunk drivers kill many people every year.**

A) Being lost B) Lost
C) To lose D) To be lost
E) Losing

11. **----- to Hawaii from many lands, people started to work on the sugar and pineapple plantations.**

A) Having been come B) To come
C) Having come D) To be come
E) Being come

12. **On ----- a lot of alcohol, a person loses co-ordination, balance, and judgment.**

A) to drink B) to have drunk
C) to be drunk D) being drunk
E) drinking

13. **Although ----- closely related to each other, these birds differed in interesting ways.**

A) looked B) looking
C) to look D) to be looked
E) to have looked

Look = görünmek (aman dikkat)

14. **----- the war, the English gained the control of all of North America, but this was not the end of the war, which would lead to American Independence.**

A) Having won B) Won
C) To be won D) Being won
E) Having been won

15. **Even though ----- bravely, the Americans would lose the war but the French king helped them to win it.**

A) to fight B) fought
C) to be fought D) fighting
E) having been fought

16. **Some people try to drive a car after ----- alcohol.**

A) consumed B) having consumed
C) having been consumed D) to have consumed
E) being consumed

17. **----- popularity, jazz was played on the riverboats that travelled along the Mississippi River.**

A) Having gained B) Having been gained
C) Gain D) To have gained
E) Being gained

18. **----- much research, he began writing a book about his theory of evolution by natural selection.**

A) Done B) Being done
C) To be done D) Having done
E) To do

19. **Alcohol is a drug that can be abused, ----- to accidents and addiction.**

A) to lead B) to be led
C) leading D) led
E) being led

20. **----- north to the city of Chicago, some jazz musicians developed some new forms of jazz music.**

A) Moved B) Having moved
C) Having been moved D) To be moved
E) To move

26. Australia : People

The first people who lived in Australia were known as the Aborigines. The Aborigines came to Australia by boat more than 40,000 years ago. They are the first people in the world who are known to have used boats for **transportation**. Even though many parts of Australia were very **inhospitable** places, the Aborigines survived. They lived by hunting and **gathering throughout** the continent, even in the desert areas where survival is almost impossible. The Aborigines felt a deep **spiritual attachment** to the land, and they made many beautiful paintings upon the rocks of many parts of the country. Their most famous **invention** is a **curved** hunting stick known as the "boomerang." The **design** of the **boomerang** is **remarkable**, because it can be **thrown** in such a way that it will turn around and return to the person who threw it. Until about two hundred years ago, the Aborigines had only a very limited amount of contact with people in the outside world. The next people to **migrate** to Australia were from the British Isles. Beginning in the late eighteenth century, Australia was used as a **prison** colony, where common criminals and political prisoners were sent from Britain. By the middle of the nineteenth century, many British people moved to Australia **voluntarily** to begin farms or to search for gold. By the late nineteenth century, Britain stopped sending its prisoners to Australia, but **migration** continued. After the **arrival** of the British colonists, the Aboriginal population **declined sharply**. This was partly **due to** disease, partly due to cruel **treatment** by **settlers**, and partly due to the loss of their **traditional** way of life. Today, the Aboriginal population is growing again, and the Australian government has taken some steps to correct the **injustices** of the past. The various parts of Australia were governed at first as **separate** colonies, but in 1901 they joined to form a single country. Australia continued to grow during the twentieth century, and after World War Two it attracted many **immigrants** from countries in Europe. During the past few **decades**, many people have moved to Australia from various parts of Asia and from other parts of the world. Today, Australia consists of one territory (the Northern Territory) and six states (Western Australia, South Australia, Tasmania, Victoria, New South Wales, and Queensland). Tasmania is a small island off the southern coast, and Victoria, New South Wales, and Queensland are found in the eastern part of the country. The two largest cities in Australia are Sydney and Melbourne, both of which are in the southeastern part of the country. Sydney has a beautiful **harbor** that is one of the largest in the world, and Melbourne has many beautiful parks and gardens. The capital city of the country is Canberra, which is located between Sydney and Melbourne. Other large cities in Australia are Brisbane (in the northeast), Perth (in the southwest), and Adelaide (in the south).

transportation	nakliye
ınhospitable	el verişsiz, misafir sevmez
to gather	toplamak, toplanmak
throughout	baştan başa, tamamında
spiritual attachment	ruhi bağlılık
ınvention	icat
curved	eğri, kavisli, yay
design	tasarım, dizayn

separate	separation, separatism, separatist	separable, inseparable, separate	inseparably, separately

27. The Earth Revolves Around the Sun

One year is the time required for the earth to travel around the sun. For most of history, however, people did not know that the earth moved around the sun. Instead, people believed that the sun moved around the earth. The old idea that the sun moved around the earth is known as the "geocentric" theory. This idea was first made famous by an **ancient** Greek scientist, Ptolemy, who lived in Egypt nearly 2000 years ago. Some other Greek **philosophers** had **suggested** instead that the earth might travel around the sun. However, this idea, which is known as the "**heliocentric**" theory, was not **widely** accepted. For centuries, people in Europe did not seriously question Ptolemy's **geocentric** theory. During the early fifteenth century, however, a Polish astronomer named Nicolaus Copernicus began to think that the heliocentric idea was right, and that the geocentric idea was wrong. Shortly before his **death**, Copernicus wrote a book that described the mathematical **details** of his theory that the earth **revolved**, or travelled, around the sun. Later astronomers came to agree with Copernicus's view. One of the most famous of these was Galileo, an Italian scientist. Galileo was famous for demonstrating that light and heavy objects fall at exactly the same speed, unless an object is so light that it is slowed by the air. Galileo was also the first astronomer to use a powerful telescope to observe the sky. He discovered many **unknown features** of the moon, the sun, and the planets. When Galileo **announced** that he believed in Copernicus's theory that the earth revolved around the sun, some officials of the Roman Catholic Church were angry. They **argued** that this theory was against the **beliefs** of the Church. Some church officials disagreed with this **view**, but the **authorities** decided that Galileo should be punished by "house arrest." (In other words, Galileo was not allowed to leave his house.) Also, Galileo was forced to **make a public statement** that **renounced** his belief in the heliocentric theory. At about the same time that Galileo **support**ed the heliocentric idea, another astronomer did some important work that **support**ed Copernicus's view. This astronomer was Johannes Kepler, who lived in Germany. Kepler used the observations of **previous** scientists to **figure out** the **motion** of the planets around the sun. He realized that the planets did not travel in **circular** paths, but instead in paths that were **elliptical**, or oval, in shape. Kepler's discoveries showed mathematically how the planets would revolve around the sun. Today, everyone knows that the earth moves around the sun; but for a long time, it seemed more **reasonable** to believe that the sun moved around the earth. We can thank the great scientists of the past who discovered the **surprising truth**.

ancient	eski, antik
philosopher	felsefeci
to suggest	önermek, ortaya koymak
heliocentric	güneşi evrenin merkesi sayan
widely	geniş ölçüde, yaygın bir şekilde
geocentric	dünyayı evrenin merkezi sayan
death	ölüm
detail	detay
to revolve	dönmek, döndürmek
unknown feature	bilinmeyen özellik
planet	gezegen
to announce	anons etmek, duyurmak
to argue	tartışmak

circle, circulate	circle, semicircle, circulation	circular	
reason	reason, reasoning, reasonableness	reasonable, unreasonable, reasoned	reasonably, unreasonably
	truth, untruth, truthfulness	true, untrue, truthful	truly, truthfully

28. George Washington Carver

George Washington Carver is **possibly** the most famous agricultural scientist of all time. He invented hundreds of products that could be made from crops such as **peanuts** and sweet potatoes, and he changed the methods of farming in the southern United States. The story of George Washington Carver's life is interesting and **inspiring**, as it shows how some people can achieve success despite **adversity**. George Washington Carver was born in a small town in the American state of Missouri, in 1864 or 1865. He was named after the first President of the United States. George's parents were **slaves**. His father was killed in an accident, and his mother was **kidnapped** and later died. George and his brother were raised by a married couple, the Carvers, who had owned George's mother. George was often sick during his childhood, but he showed an **intense** interest in nature. The Carvers taught George to read and write, and he became known locally as an expert on plants. Later, the Carvers sent George to a school for African-American children in a **nearby** town. After his **graduation**, George Washington Carver continued his education in the state of Iowa. While a student in Iowa, Carver had very little money and had to work at many jobs to **afford** the costs of his education. However, his knowledge of plants was very impressive, and after receiving his Master's **degree**, he became a teacher at the college he had attended as a student. Soon, however, Carver moved south to the state of Alabama, where he worked as a teacher and **researcher** at a college for African-American students. It was here that Carver stayed for the rest of his life, and it was here that he performed his important agricultural research. One problem for farmers in the southern United States was that the most widespread crops, cotton and tobacco, tended to remove nutrients from the soil. Carver realized that this problem could be **solved**, **to some extent**, by "**rotating**" the cotton and tobacco crops with other kinds of crops, such as peanuts and sweet potatoes, which could help to preserve the nutrients in the soil. Carver's discoveries made the peanut, the sweet potato, and the soybean very useful to southern farmers. He invented the food product known as peanut butter, plus hundreds of other products. For example, Carver found ways to produce plastics, **ink**, cooking oil, paints, and cosmetics from peanuts and other crops. Carver also developed a new variety of cotton. Carver received many **awards** for his scientific research, but he was never interested in **fame** or **fortune**. When Carver died, in 1943, the American government made his birthplace a national **monument**. Today, Carver is still known as a great agricultural scientist.

possibly	muhtemelen, olası, belki
agricultural	tarımsal
farming	çiftçilik
inspiring	ilham veren/verici
to achieve	başarmak, elde etmek
adversity	zorluk, güçlük, sıkıntı
slave	köle
to kidnap	çocuk kaçırmak
childhood	çocukluk

receive	receipt, receipts, receiver, reception, recipient, reciprocity	receptive, reciprocal, received	reciprocally
	fame	famed, famous, infamous	famously, infamously
	fortune	fortunate, unfortunate	fortunately, unfortunately

29. The Rights of the Accused

In English-speaking countries, the rights of an **accused** person are taken very seriously. Over many centuries, laws evolved in such a way that people could not be **arrested** or **charged** without a very good reason. Of course, every country needs to enforce its laws. This means that police officers are needed, and so are "**prosecutors**"-the lawyers whose job is to make criminal charges against people who break the laws, and to **prove** that those charges are true. However, it is very important that people's **freedoms** are not taken away wrongly. People should not be punished unfairly, and people who are accused of **crimes** must have the **opportunity** to **defend** themselves. In some parts of the world, people can be arrested and **imprisoned** for long periods of time, without any criminal charges being made against them. One of the most important **principles of justice** in English-speaking countries is that a person cannot be held by the police unless that person is charged with a crime. This principle is known by the Latin term, "habeas corpus." **According to** the idea of habeas corpus, the police are not allowed to **detain** a person for more than a certain period of time (usually, twenty-four hours), unless some charge is made against the person. A judge will order the **release** of a person who is not **charged with** a crime. Another important feature of justice systems in most English-speaking countries is that accused individuals have the right to be **represented** by a lawyer. Most accused people want to **hire** an expert lawyer. However, even if a person cannot afford to hire a lawyer, the criminal court must provide a lawyer who will represent that person. The lawyer for an accused person is required to defend that person as thoroughly as possible. One of the most important aspects of justice systems in the United States and the British Commonwealth is that an accused person must be **fully** informed of any charges made against them. Also, any evidence that will be used to show the accused person's **guilt** must be **shared** with the accused person and with that person's lawyer. In this way, accused persons can challenge the truth of any **evidence** that will be used against them. Similarly, any person who acts as a **witness** against an accused person can be cross-examined by the accused person's lawyer. This means that the statements of a witness can be challenged by the accused person. Another important element of most English-speaking justice systems is that evidence must be obtained fairly. Police officers cannot simply enter a person's home to look for evidence of a crime. They must first have a good reason to believe that a crime has been committed, and they must obtain **permission** from a judge to enter the person's property. This permission is called a "search **warrant**." Because search warrants are required, people are free from **arbitrary** **invasions** of their **property** by the police. Finally, another important aspect of most English-speaking **justice** **systems** is that trials must be held in public, where other citizens can watch the trial. An accused person is not tried **secretly**. Moreover, as discussed in another passage, the accused person has the right to be tried by a jury of other free citizens. All of these rules **ensure** that order can be maintained without taking away the freedom of **innocent** people.

an accused	suçlu, suçlanan, sanık
to arrest	tutuklamak
to charge with	suçlamak
prosecutor	savcı, davacı
to prove	ıspatlamak
freedom	özgürlük
crime	suç
opportunity	fırsat
to defend	savunmak, direnmek
to imprison	hapsetmek, hapse atmak

systematize	system, systematization	systematic	systematically
	secrecy, secret, secretiveness	secret, secretive	secretly, secretively
	innocence	innocent	innocently

30. New York City

New York City is the largest city in the United States, and one of the largest cities in the world. The city of New York has a population of over seven million people, and the surrounding **urban** areas bring the total to about twenty million people. However, New York City is not **merely** a very large city; it is also known as one of the world's leading centers of financial, artistic, and media activities. **Compared with** most of the great cities of the world, New York is very young. The first **permanent** settlements were **established** during the seventeenth century, by settlers from the Netherlands. Those people named their town "New Amsterdam." Soon, the colony was taken over by English settlers, who **re-named** the city "New York." New York grew quickly, and by the nineteenth century it was the largest city of the United States. New York was usually the place where new immigrants to the United States would arrive. In the nineteenth century, immigrants from Germany and Ireland were **numerous** in New York. In the early twentieth century, New York City was the home of many Jewish immigrants, and also immigrants from Italy. In addition, many African-American people arrived in New York from other parts of the United States, and many persons came to New York from the American territory of Puerto Rico, a Spanish-speaking island in the Caribbean. In more recent decades, immigrants have arrived in New York from places all over the world. One of the most famous features of New York City is its dramatic skyline. New York has more tall buildings, called "skyscrapers," than any other city in the world. Many of the tallest and most interesting buildings in New York-including the Woolworth Building, the Chrysler Building, and the Empire State Building-were **constructed** during the early decades of the twentieth century. In addition to these impressive buildings, New York is also known for the huge bridges that join the island of Manhattan to the surrounding areas. The Brooklyn Bridge is the most famous of these remarkable and old **bridges**. Of course, New York is famous for much more than just its **architecture**. New York City's financial **district**, Wall Street, and its theatre district, centered on Broadway, are the most important in the United States. Central Park is one of the world's great urban parks, and the art galleries, museums, and concert **halls** are among the greatest to be found anywhere. The United Nations has its **headquarters** in New York City. People around the world recognize the famous Statue of Liberty, which stands on an island in the harbor of New York, and the **bustling** Times Square, located in the mid-town Manhattan area. Visitors to New York find it to be an extremely busy, fast-placed city and are struck by the extremes of wealth and **poverty** that **surround** it. Many people love New York City, but even those who would not want to live in New York do agree that it is a very interesting place.

urban	şehir, şehre ait, kente ait
merely	only, yalnızca
compared with	karşılaştırıldığında
permanent	sürekli, sabit, geçici olmayan

6. Test Bağlaçlar

1. **----- many parts of Australia were very inhospitable places, the Aborigines survived for many generations.**

A) Despite B) In case
C) Since D) Though
E) Hence

2. **People didn't know that the earth moved around the sun. -----, people believed that the sun moved around the earth.**

A) Before B) If
C) While D) For fear that
E) Instead

3. **----- Carver was a student in Iowa, he had very little money.**

A) While B) Moreover
C) Because of D) Whenever
E) By

4. **----- an accused person cannot afford to hire a lawyer, the criminal court must provide a lawyer who will represent that person**

A) In addition B) Unless
C) Although D) Due to
E) If

5. **----- it is compared with most of the great cities of the world, New York is very young.**

A) Unlike B) As soon as
C) Owing to the fact that D) When
E) In addition

6. **----- you throw a boomerang, it will return to you no matter which way you throw it.**

A) Thanks to B) Thus
C) If D) Before
E) Due to

7. **----- his death, Copernicus wrote a book that described the mathematical details of his theory that the earth revolved around the sun.**

A) In addition to B) Thanks to
C) Before D) After
E) Because of

8. **George and his brother were raised by a married couple ----- their parents had been killed.**

A) so B) unlike
C) in order that D) whether
E) because

9. **The police are not allowed to detain a person for more than a certain period of time, ----- some charge is made against the person.**

A) despite B) whenever
C) due to D) unless
E) in addition to

10. **New York has tall buildings ----- the Woolworth Building and the Chrysler Building.**

A) in spite of B) owing to
C) such as D) in case of
E) similarly

11. **----- the eighteenth century, Australia was used as a prison colony.**

A) Once B) Because
C) After D) But for
E) Only if

12. **----- Galileo announced that he believed in Copernicus's theory, he was punished by house arrest.**

A) But B) When
C) Thanks to D) Unless
E) As a result

13. **Carver had very little money, ----- he had to work at many jobs to afford the costs of his education.**

A) in order that B) by the time
C) so D) otherwise
E) even so

14. **----- police officers enter a person's home to look for evidence of a crime, they must obtain permission from a judge.**

A) As long as B) In case of
C) Because D) Before
E) Although

15. **----- the nineteenth century, New York City was the largest city of the United States.**

A) In addition B) But for
C) Until D) While
E) Besides

16. **Many British people moved to Australia voluntarily ----- they could search for gold.**

A) but B) so that
C) on the other hand D) in order to
E) even if

17. **Light and heavy objects fall at exactly the same speed, ----- an object is so light that it is slowed by the air.**

A) unless B) if
C) while D) moreover
E) as

18. **----- Carver received many awards for his scientific research, he was never interested in fame or fortune.**

A) In addition B) However
C) Although D) Because
E) Such as

19. **Accused individuals have the right to be represented by a lawyer ----- it is difficult to afford to hire a lawyer.**

A) but B) so that
C) although D) therefore
E) by the time

20. **----- many people would not want to live in New York, they agree that New York is a very interesting place.**

A) Because of B) As long as
C) Whenever D) Even though
E) In order to

21. The Aborigines used boats ----- they wanted to go somewhere. -----, They are the first people who have used boats for transportation.

A) therefore/because of B) before/thus
C) when/what is more D) in spite of/in addition
E) except for/because

22. ----- some people believed in geocentric theory, other people believed in heliocentric theory but those believing in the former were more.

A) Despite B) While
C) Contrary to D) By the time
E) Hence

23. ----- his impressive knowledge of plants, Carver became a teacher after receiving his Master's degree.

A) Whenever B) Although
C) Moreover D) In spite of
E) Due to

24. Accused people can hire a lawyer ----- he or she can defend them and if they cannot afford to hire one, criminal system has to employ one to defend them.

A) so that B) until
C) before D) so long as
E) in case

25. ----- you go to New York for the first time, you can find it to be an extremely busy and fast-paced city.

A) However B) Whether
C) Unless D) If
E) Owing to

26. The Aboriginal population declined sharply ----- a disease.

A) in addition to B) due to
C) in spite of D) thanks to
E) in order to

Çok yerinde bir soru

27. Some officials of the Roman Catholic Church were angry about Copernicus's theory ----- they thought this theory was against the beliefs of the Church.

A) as a result of B) contrary to
C) because D) whenever
E) but

28. ----- Carver died, in 1943, the American government made his birthplace a national monument.

A) Hence B) Because of
C) Due to D) As
E) After

29. New York City is a very large city; -----, it is known as one of the world's leading centers of financial, artistic, and media activities.

A) in addition to B) thanks to
C) moreover D) though
E) unlike

30. ----- Britain stopped sending its prisoners to Australia, migration to Australia continued.

A) Unlike B) Although
C) As soon as D) In case
E) Besides

31. The Aborigines felt a deep spiritual attachment to the land, ----- they made many beautiful paintings upon the rocks to show their attachment.

A) so B) for fear that
C) while D) however
E) instead

32. ----- a powerful telescope he discovered, Galileo discovered many unknown features of the moon and the planets.

A) In addition to B) Despite
C) Instead of D) Thanks to
E) Because

33. Carver moved south to the state of Alabama, ----- receiving his Master's degree.

A) after B) because
C) on the other hand D) if
E) whether

C) to be making D) making
E) having made

9. **The police are not allowed ----- a person for more than a certain period (usually, twenty-four hours), unless some charge is made against the person.**

A) detaining B) detained
C) to have detained D) to be detained
E) to detain

10. **Most accused people want ----- an expert lawyer and if they can't afford one, they are provided by the system.**

A) hire B) hired
C) to hire D) hiring
E) to be hired

11. **Even if a person cannot afford ----- a lawyer, the criminal court must provide a lawyer for him/her.**

A) to be hired B) to hire
C) hiring D) to have hired
E) having hired

12. **The lawyer for an accused person is required ----- that person as thoroughly as possible.**

A) to defend B) having defended
C) to be defended D) to have defended
E) defending

13. **These rules ensure that order can be maintained without ----- away the freedom of innocent people.**

A) to take B) being taken
C) taking D) to be taken
E) take

14. **In different regions of North America, the Indians had very different cultures and very different ways of ----- a living.**

A) to make B) to be made
C) making D) being made
E) having made

15. **The Indians lived in settled villages and became experts in ----- wood from the tall trees of the area and making them into beautiful sculptures.**

A) to carve B) to be carved
C) to be carving D) having carved
E) carving

16. **The various nations of the Plains lived by ----- large animals called buffalo, or bison in order to feed and heat them.**

A) to hunt B) being hunted
C) hunting D) to be hunted
E) having hunted

17. **The Plains Indians lived in portable houses called "teepees," made by ----- together buffalo skins.**

A) to sew B) to have sewn
C) sewing D) having sewn
E) to be sewn

18. **Many Indians in the USA and Canada are very interested in ----- the cultural traditions of their ancestors.**

A) to be maintaining B) maintained
C) having maintained D) to maintain
E) maintaining

19. **Many people were intensely patriotic and supported the war effort without ----- carefully about the reasons for the war.**

A) think B) thinking
C) thought D) to think
E) to be thought

20. **Many people were intensely patriotic and eager ----- against other countries.**

A) to be fought B) to have fought
C) having fought D) to fight
E) fighting

6. Test Gerund – Infinitive - Zone2

1. **The first people ----- in Australia were known as the Aborigines, who first went there by boats.**

A) settled B) to be settling
C) to settle D) to be settled
E) being settled

2. **The Aborigines are the first people in the world ----- to have used boats for transportation.**

A) known B) knowing
C) to know D) having known
E) to be knowing

3. **The Aborigines' most famous invention is a curved hunting stick ----- as the 'boomerang' although they have invented many other important things.**

A) knowing B) having known
C) to know D) known
E) to have been known

4. **The next people after the Aborigines ----- to Australia were from the British Isles.**

A) being migrating B) migrating
C) having been migrated D) migrated
E) to be migrating

5. **The capital city of the country is Canberra, ----- between Sydney and Melbourne.**

A) having located B) locating
C) located D) to be located
E) having been located

6. **Shortly before his death, Copernicus wrote a book ----- the mathematical details of his theory.**

A) being described B) described
C) to be describing D) describing
E) to have described

7. **Galileo was also the first astronomer ----- a powerful telescope to observe the sky.**

A) to have been used B) to be used
C) having been used D) used
E) to use

8. **George Carver invented the food product ----- as peanut butter, plus hundreds of other products.**

A) to be known B) knowing
C) known D) being known
E) to know

9. **Lawyers' job is to make criminal charges against people ----- the laws, and to prove that those charges are true.**

A) breaking B) to be broken
C) to have broken D) broken
E) to break

10. **One of the most important aspects of justice systems in the world is that an accused person must be fully informed of any charges ----- against them.**

A) made B) to have been made
C) to make D) making
E) to be making

11. **An accused person and that person's lawyer can challenge the truth of any evidence ----- against them.**

A) using B) to use
C) to be used D) having used
E) used

12. **Any person ----- as a witness in a court can be cross-examined by the accused person's lawyer.**

A) to have acted B) having been acted
C) acted D) to act
E) acting

13. **New York City, ----- as one of the world's leading centers of financial, artistic, and media activities, is the largest city in the United States.**

A) to regard B) to have regarded
C) to be regarded D) regarded
E) having been regarded

14. **Wall Street, and its theatre district, ----- on Broadway, are the most important in the United States.**

A) to be centered B) centered
C) being centered D) centering
E) to have centered

15. **People around the world recognize the famous Statue of Liberty, ----- on an island in the harbor of New York.**

A) standing B) having stood
C) to stand D) to have stood
E) to be standing

16. **People around the world recognize the bustling Times Square, ----- in the mid-town Manhattan area.**

A) to be located B) locating
C) located D) to be locating
E) having been located

17. **Tobacco is widely grown in Cuba, and the country is famous for the cigars ----- in the capital city, Havana.**

A) having produced B) to have produced
C) to be produced D) produced
E) producing

18. **Most Jamaicans are the descendants of African people ----- to work as slaves on sugar plantations.**

A) bringing B) to have brought
C) brought D) to be brought
E) having brought

19. **The first people ----- in North America were the Indians because when the European first went there they had been living there for thousands of years.**

A) to live B) having been lived
C) lived D) to be living
E) to have been lived

20. **The Plains Indians lived in portable houses ----- 'teepees', which were made by sewing together buffalo skins.**

A) called B) to be called
C) calling D) having called
E) to call

6. Test Gerund – Infinitive – Zone3

1. **----- between the Pacific and Indian oceans, Australia is one of the largest countries in the world.**

A) Locating B) Located
C) Having located D) To locate
E) To be located

2. **Before ----- to Australia by boat, the Aborigines had lived by hunting and gathering.**

A) coming B) to come
C) being come D) to be come
E) having come

3. **----- in the branches of trees called eucalyptus trees, koalas eat the leaves of eucalyptus trees.**

A) Lived B) To live
C) Living D) To have lived
E) Being lived

4. **----- that the sun moved around the earth, people in Europe didn't seriously question Ptolemy's geocentric theory.**

A) Believing B) Believed
C) Being believed D) To believe
E) To have believed

5. **----- birth to offspring that are not yet well developed, many animals in Australia are a special kind of mammal called marsupials.**

A) Giving B) Given
C) Being given D) Having given
E) Having been given

6. **----- in public, trials can be watched by citizens in English-speaking countries.**

A) Being held B) Holding
C) To hold D) To be held
E) To have held

7. **When ----- that light and heavy objects fall at exactly the same speed, Galileo was awarded.**

A) demonstrated B) demonstrating
C) to demonstrate D) to be demonstrated
E) having been demonstrated

8. **Although ----- at first as separate colonies, the various parts of Australia joined to form a single country in 1901.**

A) to govern B) to be governed
C) governing D) having governed
E) having been governed

9. **----- how some people can achieve success despite adversity, the story of Carver's life is inspiring.**

A) Shown B) To show
C) Showing D) To be shown
E) Having been shown

10. **----- their large tails for balance, kangaroos can travel at great speeds.**

A) Using B) Used
C) Having used D) Having been used
E) Being used

11. **Before ----- to Australia from the British Isles, many people didn't know anything about it.**

A) having migrated B) migrating
C) migrated D) having been migrated
E) being migrated

12. **----- a great deal of rainfall, the northern coast of Australia can support grassy vegetation.**

A) To receive B) To have received
C) To be received D) Received
E) Receiving

13. **Before -----, Copernicus wrote a book that described the mathematical details of his theory.**

A) died B) dying
C) having died D) having been died
E) to die

14. **----- the observations of previous scientists to figure out the motion of the planets around the sun, Kepler realized that the planets didn't travel in circular paths.**

A) Used B) Having used
C) Having been used D) To use died
E) To have used

15. **----- a deep spiritual attachment to the land, the Aborigines made many beautiful paintings upon the rocks of many parts of the country.**

A) To feel B) Felt
C) To be felt D) Feeling
E) To have felt

16. **After -----, the offspring continue to develop inside a pocket or "pouch" on the mother's body.**

A) bearing B) to bear
C) being born D) to be born
E) to have been born

17. **----- from his university, George Washington Carver continued his education in the state of Lowa.**

A) To be graduated B) To graduate
C) Graduating D) Graduated
E) Having graduated

18. **When ----- that he believed in Copernicus's theory, Galileo was punished by "house arrest" and in the end, he had to renounce his statement.**

A) announced B) to announce
C) announcing D) to be announced
E) having been announced

19. **----- like a small bear, the koala is sometimes called a koala bear.**

A) Being looked B) Looked
C) Having been looked D) Having looked
E) Looking

20. **----- many immigrants from countries in Europe, Australia continued to grow during the twentieth century.**

A) To attract B) To be attracted
C) Attracting D) Attracted
E) Having been attracted

31. California

By far the most **populous** state of the United States is California. Located in the southwestern corner of the United States, California is home to a great **diversity** of natural **environments** and cultural influences. In the year 2000, over 33 million people lived in California. California's many **mountains** and **valleys** produce a wide variety of **climates** and natural **regions**. In the **interior**, southeastern parts of the state are many areas of **desert**. For example, Death Valley, which is so deep that it is **below sea level,** is extremely dry. Temperatures in Death Valley sometimes **exceed** 50 degrees Celsius. Other **valleys** are more pleasant and hospitable places. In the central valley, many farms grow vast amounts of fruits and vegetables. California also contains many tall, snow-covered mountains. On the **slopes** of some mountains are forests that have very large trees. Some of the **giant** redwood trees of California reach heights of 100 metres or more. Many of the cities in California have Spanish names. This is because many of those cities began as **religious** **missions** that were started by Spanish **priests**. Mexico owned California during the early nineteenth century, but few Mexican people lived there. The United States **gained** control of California during the 1840s, and the **discovery** of gold brought many Americans and others to California. Today, California **contains** some of the largest cities in the United States. Within the greater Los Angeles area, one can find Hollywood, known as the **movie** capital of the world. Many rich people live in **suburbs** such as Beverly Hills, and many poor people live in other **neighborhoods** throughout the city. The Los Angeles area is home to over 15 million people, many of whom have **immigrated** to the United States from Mexico and from many Asian countries. Los Angeles is a very large city that has **spread** across a great area. **As** **a** **consequence**, the city has many traffic jams and air pollution, or **smog**, is sometimes a problem. **Further** north is the city of San Francisco, one of the most beautiful cities of the United States. The image of the Golden Gate Bridge, which crosses the **harbour** of San Francisco, is famous around the world. Also famous are the **hilly** streets of San Francisco and the **trolley** cars that **provide** transportation along them. San Francisco's Chinese community is one of the largest in North America, and the city also contains a **vibrant** **artistic** and cultural life. San Francisco was **destroy**ed by an **earthquake** in 1906 and was **damage**d again in 1989. California has always had a special place in the **imagination** of Americans. This is hardly surprising, given the variety and **diversity** of this **vast** state!

populous	kalabalık, yoğun nüfuslu
diversity	çeşitlilik
environment	çevre
mountain	dağ
valley	vadi
climate	iklim
region	bölge
ınterior	iç, içe ait
desert	çöl

	art, artist, artistry	artistic	artistically
destroy	destroyer, destruction	indestructible, destructive	destructively
damage	damage, damages	damaging, undamaged	
imagine	imagination	imaginable, unimaginable, imaginary, imaginative	unimaginably, imaginatively

32. Drug Use Among Athletes

Drug use is a common problem in many sports **competitions** today. In both professional and **amateur** sports, many athletes use drugs that are **designed** to **improve** athletic performance. The use of these drugs may have **harmful** effects on the future health of athletes, but they also give an unfair **advantage** in athletic competitions. Some of the most **widely-used** **performance-enhancing** drugs are called "anabolic steroids." Anabolic steroids are drugs that are very similar to the male hormone, testosterone. These drugs allow athletes to develop larger and stronger muscles, and to **increase** the **intensity** of **training**. For sports that require **strength**, power, or speed, the use of steroids can provide advantages. In past years, many famous **sprinters** and **weightlifters** have been found to have used steroids. However, anabolic steroids have many negative side effects. To give just a few examples, steroids can cause changes in **mood**, including **irritability** and **anger**, and can also cause skin problems such as acne. In men, steroid use can lead to **reduction** in the **functioning** of the testicles. In women, steroid use can **interfere with** **menstruation**. In both men and women, long-term side effects include an increased risk of some forms of cancer. Another widely-used drug is known as EPO. EPO is a hormone that helps to produce red blood cells, which carry oxygen to the muscles. When taken by athletes who compete in sports that require great **endurance**, EPO may provide an advantage by allowing the athletes to maintain their speed for a longer time and distance. During 1998, there was a scandal at a famous bicycle race, the Tour de France, when it was found that many of these long-distance cyclists were using EPO to gain an advantage over their competitors. EPO has side effects. For example, it increases the **likelihood** of developing blood clots, which increase the risk of a **stroke** or **heart attack**. One difficulty in preventing the use of performance-enhancing drugs is that it is not always possible to detect the use of the drugs. Tests have been developed to **detect** the drugs, but new varieties of the drugs are often not detected. Also, athletes who stop using the drugs well before a drug test may avoid being detected. Preventing the use of performance-enhancing drugs in athletes is difficult, but it is important. Most athletes want to compete without using artificial substances that provide easy advantages, and they do not want to risk their health by using these **substances**. If those athletes are to have a fair chance, it is **necessary** to prevent other athletes from **gaining advantage**s due to the use of these drugs.

competition	yarışma
amateur	amatör
to design	tasarlamak, dizayn etmek
to improve	geliştirmek, iyileştirmek
harmful	zararlı
advantage	avantaj, fayda
widely-used	geniş ölçüde/yaygın kullanılan
performance-enhancing	performans arttırıcı
to increase	arttırmak, artmak
ıntensity	yoğunluk, şiddet
training	eğitim

	advantage, disadvantage	advantageous, disadvantaged	advantageously

33. Scotland

Scotland is the country that is located on the northern part of the island of Great Britain. The Scottish people are one of the four **main nationalities** of the British Isles, together with the English, the Welsh, and the Irish. Scotland and its people have played an important part in the history of the English-speaking world. Scotland can be **roughly** divided into two main **regions**. The lowland areas, in the southern part of Scotland, contain most of the population and the two main cities, Edinburgh and Glasgow. Most of Scotland's agriculture and industry are located in the lowland areas. The Highland areas, together with the islands that lie off the coast of Scotland, are not so **heavily populated.** The lakes and mountains of the highlands are known for their beautiful **scenery**. One of the main themes of Scottish history is **conflict** with England. During the Middle Ages, the English and Scottish kings were often at war. Around the year 1300, the Scots **repelled** some **invasions** from England. During the 1600s, though, Scotland and England had the same king, and the countries were officially **joined** as "the United Kingdom" in 1701. For people in the highlands of Scotland, the eighteenth century was very difficult. Most people worked as farmers on land that was owned by a few wealthy landlords. The **landlords** decided that they could make more money on the land if they **evicted** the farmers, so many of the farmers were **forced** to leave. The highlanders rebelled against the King in 1745, but they were defeated. During the eighteenth and nineteenth centuries, many people left the highlands of Scotland. They moved to the United States, Canada, Australia, and New Zealand. During the nineteenth century, Scotland was the first country to have universal public education for children. The country produced a great number of famous scientists and inventors during that time. Scotland is famous for its national costume. This costume includes the "kilt," which is a knee-length skirt worn by both men and women. The **kilt** is made from a fabric that contains **stripes** of different colors and widths, which cross over each other to produce a **pattern** that is called a "tartan." In the Scottish highlands, groups of related families, called "clans," have their own unique **tartan**. Another famous part of Scottish **heritage** is the musical instrument known as the **bagpipes**. The bagpipes have a **distinctive** sound that is easily recognized. Bagpipes were originally played to **intimidate enemies** in **battle**, but today Scottish people play the bagpipes at **parades** and other **celebration**s. People of Scottish heritage around the world celebrate their heritage on January 25th of each year. This day celebrates the birthday of Robbie Burns, the famous Scottish poet. People celebrate this day at parties, where people eat a famous Scottish food called haggis. Today, Scotland remains part of the United Kingdom, but some Scottish people would like Scotland to become **independent**. Whatever the Scottish people decide, their country will remain a unique and interesting place.

depend	dependant, dependence, independence, dependency	dependable, dependent, independent	dependably, independently

34. London

The city of London is one of the most famous cities in the world. In **previous** centuries, London was the centre of the British Empire. Today, it is one of the most important cities of the **emerging** European Union. London is located in southeastern England, on the Thames River (pronounced "tems"). The greater London area contains about 12 million people, and the surrounding areas contain several million more. London was the first city in the modern world to have reached a population of one million people. London is a very old city, and many of its neighbourhoods maintain their **distinct** character. One of the most famous parts of London is the East End, where people speak with an **accent** known as "Cockney." One of the features of the Cockney accent is that the letter "h" is often not **pronounced**. London's population is very cosmopolitan. The city contains, in addition to people of English background, large **communities** of South Asian, Chinese, African, and Caribbean people. Most of these people have their origins in countries that belong to the British Commonwealth of Nations. Many of the most famous buildings in London are located in a small central area. This area contains several huge churches, including Westminster Abbey, where many famous people are **buried**. Another famous church is St. Paul's Cathedral, which was re-built after the original was destroyed by fire in the year 1665. The Houses of Parliament are also found in central London. These buildings are famous for their Gothic **architecture** and for the sound of the large clock, known as "Big Ben." The Tower of London, which was **formerly** used as a prison, is now a popular tourist attraction. Buckingham Palace, the **residence** of the **royal family,** was first opened for public viewing during the 1990s. London is also famous for its many impressive museums, **art galleries**, and theatres. For example, the British Museum contains **priceless** objects from all parts of the world. The National Gallery holds a great **collection** of artistic **masterpieces**. The Globe Theatre has been re-built to appear as it did during the time of Shakespeare. Despite its age, London remains a vibrant and busy city. Most of the cultural and financial **institutions** in England are located in London, and the city attracts many young people from other parts of England and around the world. Of course, London is popular with tourists who come to see the many attractions of this city.

previous	önceki, önceden
to emerge	ortaya çıkmak, meydana çık-
to reach	uzanmak, erişmek, kavuşmak

	art, artist, artistry	artistic	artistically
price	price	overpriced, priceless, pricey/pricy	
collect	collection, collector	collected, collective	collectively

35. Soccer

Soccer is the most popular sport in the world. The basic rules of the sport are simple: two teams of eleven players try to **kick** the soccer ball into the opposing team's goal. Only one player on each team, the goal-keeper, is allowed to touch the ball with hands or arms. Perhaps part of the reason for the **popularity** of soccer is its **simplicity**. The game requires no expensive **equipment**, **merely** a ball and a playing surface, **preferably** a large grassy area. For children in most parts of the world, soccer is the sport that is played most widely. Soccer is also known as football, especially in England. However, soccer should not be **confused with** American Football, Australian Rules Football, and Rugby Football, which are very different sports. Although the basic rules of soccer are easy to learn, it is very difficult to **master** the **skill**s of the game. The best soccer players have developed, through natural talent and hard work, a remarkable **ability** to control the soccer ball with their feet, knees, **torso**, and head. They can pass the ball very **accurately**, or **shoot the ball** very hard. The most famous soccer **tournament** is the World Cup. Every four years, teams **representing** countries from around the world play in a tournament to decide which country has the best soccer team in the world. Because soccer is such a popular sport, it is not possible for every country in the world to be represented at the World Cup tournament. To decide which countries may **participate in** the World Cup, it is necessary to have tournaments within various regions of the world. The countries that perform well within their parts of the world can then **proceed** to the World Cup. In the past, most of the **available** places at the World Cup have been **reserved** for teams from Europe and from South America. The reason for this is that soccer has been extremely popular in these continents, which have produced the winning teams in previous World Cup tournaments. Recently, however, several African and Asian countries have played quite well at the World Cup, so there are now **additional** places provided for teams from Africa and Asia. Someday, teams from these areas will win the World Cup. However, there will **no doubt** be strong competition from countries that have **traditionally** had very strong teams, such as Argentina, England, Brazil, France, Germany, Italy, and the Netherlands. In many parts of the world, soccer has been an increasingly popular sport for women. There are now many soccer **league**s and tournaments available for women athletes, and it seems likely that the number of women who play soccer will someday **equal** the number of men who play soccer. Among children in many parts of the world, soccer is **equally** popular for boys and girls.

basic	temel, esas
to kick	tekmelemek, tekme atmak
popularity	popülarite, ün
simplicity	basitlik

E) around/on

7. Test Gerund – Infinitive - Zone1

1. **Bagpipes were originally played ----- enemies in battle, but today Scottish people play the bagpipes at parades and other celebrations.**

A) to be intimidated B) being intimidated
C) to intimidating D) intimidating
E) to intimidate

2. **Athletes who stop using the drugs well before a drug test may avoid -----.**

A) detecting B) to detect
C) to be detected D) being detected
E) detected

3. **They advised me -----the Tower of London, which was formerly used as a prison.**

A) visiting B) to have visited
C) to visit D) visited
E) being visited

4. **Anabolic steroids allow athletes ----- larger and stronger muscles, and to increase the intensity of training.**

A) develop B) to develop
C) developing D) developed
E) to be developed

5. **The basic rules are simple: two teams of eleven players try ----- the soccer ball into the opposing team's goal.**

A) to have kicked B) to have been kicked
C) kicking D) to kick
E) being kicked

6. **If some athletes are to have a fair chance, it is necessary ----- other athletes from gaining advantages due to the use of the drugs.**

A) to have prevented B) preventing
C) to prevent D) being prevented
E) to have been prevented

7. **Only one player on each team, the goal-keeper, is allowed ----- the ball with hands or arms.**

A) to touch B) touching
C) being touched D) touched
E) to be touched

8. **EPO is a hormone that helps us ----- red blood cells, which carry oxygen to the muscles.**

A) producing B) to produce
C) being produced D) to be produced
E) having produced

Bu soruda doğrudan V1 de kullanılabilirdi. Help'ten dolayı

9. **Although the basic rules of soccer are easy to learn, it is very difficult ----- the skills of the game.**

A) being mastered B) to have mastered
C) to mastering D) mastering
E) to master

10. **Most athletes want to compete without ----- artificial substances that provide easy advantages.**

A) using B) to use
C) used D) to have used
E) being used

11. **Because soccer is such a popular sport, it is not possible for every country in the world ----- at the World Cup tournament.**

A) to represent B) representing
C) to be represented D) being represented
E) to have represented

12. **In both professional and amateur sports, many athletes use drugs that are designed ----- performance.**

A) to improve B) to be improved
C) improving D) being improved
E) to have improved

13. **Some Scottish people would like Scotland ----- independent as soon as possible.**

A) becoming B) become
C) being become D) to become
E) to becoming

14. **One difficulty in ----- the use of performance-enhancing drugs is that it is not always possible to detect the use of the drugs.**

A) being prevented B) to prevent
C) preventing D) to be prevented
E) having prevented

15. **The Globe Theatre has been re-built ----- as it did during the time of Shakespeare.**

A) appearing B) to appear
C) being appeared D) to be appeared
E) to have been appeared

16. **They advised -----the Tower of London, which was formerly used as a prison because it is one of the most important tourist attractions there.**

A) visiting B) to be visited
C) to visit D) having visited
E) being visited

Mutlaka 3. Soru ile karşılaştırın.

17. **EPO may provide an advantage by ----- the athletes to maintain their speed for a longer time and distance.**

A) to allow B) to have allowed
C) to be allowed D) being allowed
E) allowing

18. **Most athletes do not want ----- their health by using these substances.**

A) risking B) risked
C) being risked D) to risking
E) to risk

19. **The landlords decided ----- more money on the land by employing farmers.**

A) making B) being made
C) to make D) to have made
E) to have been made

20. **In past years, many famous sprinters and weightlifters have been found ----- steroids.**

A) being used B) used
C) to be used D) to have been used
E) to have used

7. Test Gerund – Infinitive – Zone2

1. **In both professional and amateur sports, many athletes use drugs ----- to improve their performance.**

A) to design B) to be designed
C) designing D) designed
E) having designed

2. **EPO is the best hormone ----- to produce red blood cells, which carry oxygen to the muscles.**

A) helped B) to help
C) helping D) to have helped
E) having been helped

3. **Most people worked as farmers on land ----- by a few wealthy landlords.**

A) owning B) to own
C) to be owned D) to have owned
E) owned

4. **Many of those cities began as religious missions ----- by Spanish priests.**

A) started B) starting
C) to start D) to be started
E) having started

5. **The kilt is made from a fabric ----- stripes of different colors and widths crossing over each other.**

A) to contain B) to be contained
C) contained D) containing
E) having contained

6. **Every four years, teams ----- countries from around the world play in a tournament to decide which country has the best soccer team in the world.**

A) to represent B) represented
C) representing D) to be represented
E) being represented

7. **It seems likely that the number of women ----- soccer will someday equal the number of men who play soccer.**

A) to play B) to have played
C) being played D) played
E) playing

8. **The Los Angeles is home to over 15 million people ----- to the United States from Mexico many years ago.**

A) immigrated B) to immigrate
C) being immigrated D) having immigrated
E) having been immigrated

9. **The countries ----- well in the tournaments in their regions can then proceed to the World Cup.**

A) performed B) performing
C) to perform D) to be performed
E) having been performed

10. **Most of the people have their origins in countries ----- to the British Commonwealth of Nations.**

A) to belong B) belonging
C) belonged D) to be belonged
E) being belonged

11. **During the nineteenth century, Scotland was the first country ----- universal public education for children.**

A) to have B) having
C) had D) to having
E) having had

12. **For sports ----- strength, power, or speed, the use of steroids can provide advantages.**

A) required B) requiring
C) having required D) to have required
E) to having been required

13. **California ----- in the United States is home to a great diversity of natural environments and cultural influences.**

A) locating B) having located
C) located D) having been located
E) to be located

14. **Los Angeles is a very large city ----- across a great area.**

A) to spread B) spreading
C) to be spread D) spread
E) having been spread

15. **London is the first city in the modern world ----- a population of one million people.**

A) reached B) being reached
C) having been reached D) reaching
E) to have reached

16. **When taken by athletes ----- in sports, EPO may provide an advantage by allowing the athletes to maintain their speed for a longer time and distance.**

A) competed B) being competed
C) competing D) to compete
E) to be competed

17. **London is popular with tourists ----- to see the many attractions of this city.**

A) being come B) having come
C) having been come D) coming
E) to come

18. **Many people ----- in suburbs such as Beverly Hills are rich unlike those living in slum areas.**

A) to live B) to be lived
C) having lived D) living
E) lived

19. **The Tower of London, ----- as a prison formerly, is now a popular tourist attraction.**

A) having used B) having been used
C) using D) to use
E) to be used

20. **The hilly streets of San Francisco and the trolley cars ----- transportation along them are famous.**

A) providing B) provided
C) being provided D) to provide
E) to have provided

7. Test Gerund – Infinitive – Zone3

1. **----- in the southwestern corner of the United States, California is home to a great diversity of natural environments and cultural influences.**

A) Locating B) To be located
C) To locate D) Having located
E) Located

2. **----- as the movie capital of the world, Hollywood has transformed into a wealthy and popular residential area.**

A) Knowing B) To known
C) Known D) Having known
E) To be known

3. **----- across a great area, Los Angeles is home to over 15 million people.**

A) Spreading B) To be spread
C) To spread D) Having spread
E) Spread

4. **----- by an earthquake in 1906, San Francisco was damaged again in 1989.**

A) Destroying B) Destroyed
C) To be destroyed D) To destroy
E) Having destroyed

5. **Although ----- possible harmful effects on health of them, performance-enhancing drugs are commonly used by both professional and amateur athletes.**

A) had B) having
C) to have D) to have had
E) having had

6. **When ----- by athletes, EPO may provide an advantage by allowing the athletes to maintain their speed for a longer time and distance.**

A) having taken B) to be taken
C) to take D) taken
E) taking

7. **After ----- against the king in 1745, the highlanders in Scotland were defeated and many people had to leave the highlands of Scotland.**

A) having been rebelled B) to rebel
C) to be rebelled D) rebelled
E) rebelling

8. **----- the highlands of Scotland during the 18th and 19th centuries, many people moved to the United States, Canada, Australia, and New Zealand.**

A) Left B) Having left
C) Being left D) To have left
E) To leave

9. **----- from a fabric that contains stripes of different colors and widths, '*kilt*' is a knee-length skirt worn by both men and women.**

A) Made B) To make
C) Making D) Having made
E) To be made

10. **Originally ----- to intimidate enemies in battle, the Scottish musical instrument known as the bagpipes are today played at parades and other celebrations.**

A) playing B) to play
C) to be played D) played
E) having played

11. **----- in southeastern England, on the Thames River, London contains about 12 million people, and the surrounding areas contain several million more.**

A) stretching B) To be stretch
C) stretched D) To stretch
E) Having stretch

12. **----- an accent, known as '*Cockney*', people living in the East End of London don't pronounce the letter 'h'.**

A) To speak B) Speaking
C) To be speaking D) Spoken
E) Having been spoken

13. **----- after the original one was destroyed by fire in the year 1665, St. Paul's Cathedral is a famous church.**

A) Having rebuilt B) To rebuild
C) Being rebuilt D) Rebuilding
E) Rebuilt

14. **Formerly ----- as a prison, The Tower of London is now a popular tourist attraction.**

A) to be used B) using
C) used D) having used
E) to use

15. **----- as the residence of the royal family, the Buckingham Palace was first opened for public viewing during the 1990s.**

A) Having been used B) using
C) to be used D) having used
E) to use

16. **----- priceless objects from all parts of the world, the British Museum is a popular tourist attraction, which can be seen throughout the year.**

A) Having been contained B) Contained
C) To be containing D) Containing
E) To contain

17. **----- most of the cultural and financial institutions in England, London attracts many young people from other parts of England and around the world.**

A) To be hosting B) Hosted
C) To have hosted D) To host
E) Hosting

18. **Also ----- as soccer, especially in the USA, football should not be confused with American football and rugby, which are very different sports.**

A) to know B) to be known
C) having known D) known
E) being known

19. **Upon ----- an ability to control the soccer ball through natural talent and hard work, some soccer players can pass the ball accurately, or shoot the ball very hard.**

A) developing B) developed
C) having been developed D) to be developing
E) to develop

20. **Before ----- their capitals in information technology, many organizations at first assess several questions for possible benefits and losses.**

A) having invested B) investing
C) to invest D) invested
E) having been invested

36. Extinctions

Ever since human beings appeared on the Earth, we have had a serious **impact on** other living things. One of the most serious results of the **human presence** has been the **extinction** of other species. Since the **arrival** of **humans**, many species of animals and plants have **died out** as a result of human activity. The extinction of species is a serious problem. When certain species are **eliminated**, this may **disrupt** the balance of nature, **leading to overpopulation** of some species and extinction of others. These changes may have an impact on humans. Also, some of the species that **become extinct** might have had **benefit**s for human beings. For example, scientists believe that some of the plants growing in rain forest areas might be **valuable** for treating human diseases. If these plants become extinct as a result of human activity, then these **treatment**s will never be found. The earliest extinctions caused by humans occurred very long ago. Modern humans **emerged** in Africa over 100,000 years ago, and some of those people migrated to other parts of the world. When they reached new areas, they found that it was very easy to hunt the large animals, which had not previously been hunted by humans. As these **prehistoric** people moved into Europe, Australia, and the Americas, they killed large numbers of large animals. Within a few hundred years, many species of animals had become extinct. For example, prehistoric people reached New Zealand less than 1000 years ago, but they soon hunted a huge bird, called the giant moa, to extinction. With the beginnings of modern technology, several hundred years ago, many other species were driven to extinction. **Hunters** armed with guns were able to kill **vast** numbers of animals. In North America, this led to the extinction of bird **species** such as the passenger **pigeon**, which had previously been very **numerous**. Other species were nearly **wiped out**, such as the large **prairie** mammals called bison. There were once millions of these animals, but now only a few thousand remain. Today, many more species of animals and plants are going extinct. Sometimes this happens because of human **expansion** into areas that are the **habitat** of certain species. When people clear a forest, some species may be lost. In the near future, many other extinctions are possible or likely. In some cases, the problem is due to human **greed**. For example, some people buy **ivory** that is taken from the bodies of animals such as elephants or **rhinoceros**. Hunters sometimes kill these animals simply to take their ivory, and the result is a **tragic decline** in populations. Another example involves bears in North America. Some people buy the sexual organs of these animals for use as **aphrodisiacs**, or sexual **stimulants**. The result is that hunters kill bears simply to obtain these organs, and this leads to a **reduction** in the number of bears. **Fortunately**, many countries have laws to **prevent** the hunting of species that are **facing** extinction, known as "**endangered species**." However, some hunting of these endangered animals continues. Only by **refusing** to buy the **product**s that are made from endangered species can we prevent this **terrible** crime.

impact	etki, darbe,vuruş
presence	varlık, var olma, bir yerde bulunma
extinction	yok olma,neslin tükenmesi
arrival	varış, kavuşma, erişme
human	insan, insanoğlu
to die out	nesli tükenmek, tamamen yok ol-
to eliminate	elemek, yok etmek
to disrupt	aksatmak, bozulmasına yol açmak, toplantı vs.yi bölmek
to lead to	neden olmak
overpopulation	aşırı nüfus
to become extinct	nesli tükenmek, sona gelmek
benefit	fayda, kar, avantaj
valuable	değerli
treatment	tedavi, davranış
prehistoric	tarih öncesi
hunter	avcı
vast	geniş, kocaman, büyük
pigeon	güvercin
numerous	çok sayıda, birçok
to wipe out	silip süpürmek, yok etmek
prairie	ağaçsız otlaklı geniş düzlük
expansion	genişleme, yayılma, büyüme

produce, reproduce	produce, producer, product, production, reproduction, productivity	productive, counterproductive, reproductive, unproductive	unproductively, productively

37. Obesity and Nutrition

For people in many countries, one of the great **triumphs** of modern life is that there is a great **abundance** of food. In those places, problems such as **starvation** and **malnutrition** are no longer **prevalent**, and people do not worry about going hungry. Despite the fact that there is plenty of food in modern countries, people still face many health problems that are related to their diet. One problem is that modern technology has made it possible to produce cheap and tasty food that is not very healthy. This leads to the problem that many people are **obese**, or very **overweight**. One example of this is the "fast food" that is served by many restaurants. This food is often cooked by **frying**. Fried food contains a high **proportion** of fat. Also, fast food meals are often very large. When people frequently eat large **amounts** of fried "fast food," they will likely eat too much fat. This excess can lead to weight gain. Of course, many people enjoy the taste of fried fast food and like to eat it **occasionally**. However, eating this kind of food too often is bad for one's health. Another example of health problems caused by modern food products involves soft drinks and other sweetened **beverage**s. These drinks, sometimes called "pop," have a sweet taste that many people enjoy on occasion. However, these drinks contain large amounts of sugar. When people drink soft drinks very frequently, they **consume** **a great deal of sugar**. This **excess** sugar can lead to weight gain. The weight gain that can result from consuming too much fast food and too many soft drinks can have several **harmful** effects. For example, people who are very obese have an increased risk of heart **disease** and of **diabetes**. Of course, fast food and soft drinks are not the only causes of **obesity**. Other eating **habits** may be involved, and so are lack of exercise and genetic factors. To avoid the health problems that are **associated with** obesity, it is important that one does not eat too much food. However, this does not mean that one should try to eat as little as possible. People need an **adequate** amount of food in order to stay healthy. Also, it is important to **avoid** new "fad" diets that become popular from time to time, because these are often unsafe. Some of the diets that are **recommended** in popular books do not contain adequate amounts of **nutrients**, such as vitamins and minerals. Instead, one should try to eat foods that are **nutritious**. For example, foods such as fruits, vegetables, grains, and lean meats have many vitamins and minerals that are needed for good health. People whose diet consists **mainly** of these foods will probably be much healthier, **on average**, than people whose diet contains too many foods that have high levels of fat or sugar. In addition, many of these nutritious foods are also very tasty and enjoyable to eat!

triumph	zafer
abundance	bolluk, bereket
starvation	açlıktan ölme, açlık
malnutrition	yetersiz/kötü beslenme
prevalent	hakim, yaygın, çok rastlanan
obese	obez
overweight	aşırı kilolu
proportion	oran, orantı, nispet
meal	yemek, öğün
amount	miktar
excess	aşırılık, fazlalık
to fry	kızartmak, kızarmak
occasionally	arasıra, bazen, sometimes
beverage	içecek, meşrubat
to consume	tüketmek
a great deal of	çok miktarda(sayılamayan isimle)
harmful	zararlı
disease	hastalık
diabete	şeker hastalığı, diyabet
obesity	obezite, aşırı kiloluluk
habit	alışkanlık, adet
associated with	ilişkili olmak, alakalı olmak
adequate	yeterli
to avoid	sakınmak, kaçınmak
to recommend	tavsiye etmek
nutrient	besleyici, besin maddesi
nutritious	besleyici
on average	ortalama, vasati, sıradan
mainly	esasen, başlıca

37. Parça Kelime Çalışmaları

VERB	NOUN	ADJECTIVE	ADVERB

	occasion	occasional	occasionally
	greatness	great	greatly
deal	deal, dealer, dealings		
harm	harm, harmfulness	unharmed, harmful, harmless	harmlessly
	habit	habitual	habitually
avoid	avoidance	avoidable, unavoidable	

38. Sexual Harassment

When an employee is **subjected to** **unwanted** sexual advances or **comment**s by a co-worker or an employer, we say that the employee is experiencing sexual **harassment**. In some workplaces, sexual harassment is a serious problem. In its most **blatant** form, a boss may demand sexual favours from an employee and **threaten** to fire the employee if she fails to **comply**. Similarly, the employer might promise a promotion or raise in exchange for some sexual **favor**. Whenever an employer uses the **prospect** of **reward** or **punishment** as a way of obtaining sexual **access** to an employee, sexual harassment has occurred. This is not the only form of sexual harassment. Sometimes, an employee may be subjected to **demeaning** comments by her employer or **co-worker**. For example, a boss might make **vulgar** comments about the physical appearance of the employee. Another example is that a co-worker might make remarks that **speculate** about the sexual behaviour of the employee. In both of these cases, the employee is treated **disrespectfully** **on the basis** of her sex, so both **cases** would **represent** sexual harassment. Some forms of sexual harassment are more subtle. If a group of workers **exchanges** **offensive jokes** of a sexual nature, in such a way that they can be easily **overheard** by other workers, then this is also a form of sexual harassment. Similarly, if workers post pornographic pictures in their workplace, in such a way that they can be seen by other workers, then this also represents sexual harassment. In both cases, the workplace becomes an **environment** in which the employee is made to feel uncomfortable because of her sex. Sexual harassment usually involves a female employee who is being **bothered** by a male employer or co-worker. In some cases, a woman might sexually harass a man, or one person might sexually harass another person of the same sex. However, these cases are not as common. Also, in some cases, the person who **commits sexual harassment** is not a boss or co-worker, but a customer or a visitor to the workplace. Sexual harassment is a form of **intimidation** and **abuse** of power that causes much stress for many employees. In recent years, many steps have been taken to reduce the occurrence of sexual harassment. Educational **campaigns** have been designed to teach people that sexual harassment is wrong. Stronger **penalties** for sexual harassment have been introduced. Another way to reduce the **prevalence** of sexual harassment is to develop a culture of respect in the workplace. People need to be aware of how their **jokes** or comments might be perceived by others, and to imagine how they would feel if one of their relatives were subjected to sexual harassment. Employers and employees must recognize that sexual harassment is a serious **concern** and treat **potential** cases of sexual harassment very seriously. Each company should have clear policies about sexual harassment, and each should **establish** a fair and **efficient** process for **dealing with** complaints of this kind. In this way, the workplace can be a comfortable environment for all persons.

concern	concern	concerned, unconcerned	
deal	deal, dealer, dealings		

39. Cultural Differences : Individualism and Collectivism

The many cultures of the world differ in a great variety of ways. One of the most interesting ways in which cultures **vary** is in the extent to which they are "individualistic" or "collectivistic." An **individualist** society and a **collectivist** society are different in many ways. In an individualistic culture, each person tends to think of himself or herself **in terms of** his or her own characteristics and **preferences**-the things that make the person unique or different from others. In a collectivistic culture, each person tends to think of himself or herself in terms of his or her social relationships and roles-the things that make the person a part of a larger group, such as an extended family or an ethnic group. Another difference between individualist and collectivist cultures involves the **tendency** to help others. In an individualist society, people feel some **obligation** to help persons who share some group **identity**-such as their distant relatives, or persons from the same town-but this obligation is not nearly as strong as in collectivist cultures. On the other hand, people in collectivist cultures tend to feel very little **inclination** to help other people who do not belong to their groups, whereas people in individualist cultures are more often **willing to** help others even if they do not belong to the same group. Another difference between individualist and collectivist cultures involves the relationship between people and the groups to which they belong. In an individualist culture, people usually join or leave groups when it is in their personal interest to do so. In a collectivist culture, people usually stay with one group for a long time. For example, people in individualist societies are more willing to quit their job, and take a new job at another company. People in collectivist societies usually prefer to stay with one company throughout their career. Similarly, people in individualist countries usually get married for reasons of personal **choice**, and are more likely to get **divorced**. However, people in collectivist societies usually get married **according to** the wishes of their relatives, and are less likely to get divorced. Western countries, such as those of western Europe and North America, are usually **considered** to be very individualist. However, not all individualist countries are **similar** in every way. For example, the individualism of the United States is **viewed as** more "competitive" than that of socialist countries, such as Sweden. In contrast to Western countries, the countries of most parts of Asia and Africa are usually considered to be very collectivist. Collectivist countries also differ from each other in many ways. The idea of individualism **versus** collectivism is an interesting way to understand some of the differences between cultures. By learning about ideas like this, one can better **appreciate** the customs of other peoples.

to vary	çeşitlenmek, değişmek, değiştir-
ındividualistic	bireysel
collectivistic	topluluğu ön planda tutan
ın terms of	bakımından, açısından
preference	tercih
obligation	zorlama, zorunluluk
ınclination	eğilim, meyil, istek, heves
willing to	istekli, hevesli
choice	seçenek
to divorce	boşanmak, ayrılmak
to consider	düşünmek
similar	benzer
to view as	olarak görmek
versus	-e karşı
to appreciate	takdir etmek, anlamak
tendency	yatkınlık
identity	kimlik

	similarity	similar, dissimilar	similarly
view, preview, review	view, overview, preview, review, viewer		
appreciate	appreciation	appreciable, appreciative	appreciatively

40. The Protestant Reformation

Until about 500 years ago, there was only one Christian church in western and **central** Europe. People from Portugal to Poland all **belonged to** the Roman Catholic Church. However, soon after the year 1500, people in many parts of Europe broke away from the Roman Catholic Church and began their own churches **instead**. This was known as the Protestant Reformation. The leader of the early Protestant **movement** was a German **theologian** named Martin Luther. Luther believed that many of the **priests** of the Roman Catholic Church had become too concerned about wealth and **luxury**. Also, he **disapproved of** some practices in the Church. One such practice was that priests allowed people to pay money to the Church in exchange for committing various **sins**. Luther believed that it was wrong to allow people to buy the freedom to **commit** acts that were against the teachings of the Church. Luther began to **criticize** the Roman Catholic Church in public, and he **refused** to **acknowledge** the **authority** of the Church. He said that instead he would follow the teachings of the Bible as he understood them. The officials of the Church **declared** that Luther was a **heretic**. However, the local German rulers did not punish Luther. Many of them **resented** the power of the Church and welcomed his ideas. Luther and other Protestant leaders disagreed with the Church on several important **issues**. The Protestants believed that priests should be allowed to marry, whereas the Roman Catholic Church believed that priests should remain **celibate**. The Protestants believed that people should read the Bible for themselves, whereas the Roman Catholic Church believed that priests should **interpret** the Bible for the people. During the decades that followed Luther, the Protestant movement spread throughout much of Europe. Over time, many different Protestant churches were formed. During this period, many wars were fought between local rulers who favoured Protestantism, and other local rulers who supported the Roman Catholic Church. In the end, many parts of Europe became Protestant, such as Scandinavia, England, and parts of Germany, Holland, and Switzerland. However, the people and **rulers** of many other areas of Europe preferred to remain in the Roman Catholic Church. These areas included most of southern Europe, as well as Poland and Ireland. The Roman Catholic Church changed a few of its practices **in response to** Protestant **criticism**, but kept its most important **beliefs**. In recent times, relations between the Roman Catholic Church and the various Protestant churches have become much more friendly. Some **discussions** have been held between Catholic and Protestant officials, in order to **resolve** some of their **disagreements**.

ınstead	bunun yerine
movement	hareket, fikir akımı, eylem

A) -/cooked B) has been/cooked
C) can/cook D) was/cooked
E) is/cooked

19. **Some of the diets that ----- in popular diet books do not contain adequate amounts of nutrients.**

A) had been recommended B) will be recommended
C) recommended D) are recommended
E) recommend

20. **Many wars ----- between local rulers who favoured Protestantism, and other local rulers who supported the Roman Catholic Church.**

A) were fought B) fought
C) have been fought D) fight
E) had been fought

8. Test RC

1. **Ever since human beings appeared on the Earth, we have had a serious impact on other living things, just one of ----- is the extinction of many other species.**

A) why B) where
C) which D) who
E) when

2. **When modern humans reached new areas, they found that it was very easy to hunt the large animals, ----- had not previously been hunted by humans.**

A) which B) why
C) when D) where
E) whose

3. **Only by refusing to buy the products ----- are made from endangered species can we prevent this crime.**

A) when B) where
C) which D) whom
E) why

4. **Today, people face many health risks, one of ----- is that modern technology has made it possible to produce cheap and tasty food that is not very healthy.**

A) where B) when
C) why D) which
E) whom

5. **People ----- drink soft drinks very frequently can gain weight as a result of its ingredients.**

A) who B) which
C) when D) where
E) whom

6. **People ----- diet consists mainly of fruits, vegetables, grains and lean meat will probably be much healthier.**

A) whom B) whose
C) where D) who
E) when

7. **The reason ----- some employees ----- are exposed to sexual harassment cannot complain is because they are afraid of losing their jobs.**

A) why/whom B) which/why
C) when/where D) why/who
E) who/who

8. **Generally, a woman ----- boss demands sexual favor or threatens her to fire unless she complies can feel uncomfortable.**

A) when B) where
C) whose D) who
E) why

9. **The many cultures of the world differ in a great variety of ways, one of ----- is to discriminate them as "individualistic" or "collectivistic".**

A) who B) which
C) where D) that
E) when

10. **Although the Church declared that Luther was a heretic, the local German rulers, many of ----- resented the power of the church, didn't punish him.**

A) which B) whose
C) when D) where
E) whom

11. **There was only one Christian church in western and central Europe about 500 years ago, to ----- people from Portugal to Poland all belonged.**

A) who B) where
C) which D) when
E) why

12. **Many parts of Europe, some examples of ----- are Scandinavia England and parts of Germany Holland and Switzerland, became Protestant,.**

A) which B) why
C) when D) where
E) who

13. **Prehistoric people moved into Europe, Australia and the Americas ----- they could live comfortably.**

A) when B) who
C) why D) which
E) where

14. **Prehistoric people reached New Zealand, ----- they soon hunted a huge bird, called the giant moa, to extinction. .**

A) who B) where
C) when D) whose
E) which

15. **People ----- health is at risk of heart disease and diabetes should be careful about their eating habits.**

A) why B) which
C) whose D) where
E) when

16. **Sexual harassment is a bad thing ----- can be encountered at any place.**

A) that B) why
C) when D) who
E) whose

17. **People ----- belong to collectivist cultures tend to feel very little inclination to help other people who do not belong to their groups.**

A) whose B) who
C) when D) which
E) whom

18. **The earliest extinctions caused by human beings occurred about 100,000 years ago ----- modern humans emerged in Africa.**

A) who B) whose
C) which D) where
E) when

19. **Hunters armed with guns were able to kill vast numbers of animals in North America, ----- led to extinction of many animals.**

A) where B) who
C) which D) that
E) why

20. **Problems such as starvation and malnutrition are no longer prevalent, so people do not worry about going hungry in places ----- people can live in comfort.**

A) who B) whose
C) when D) where
E) why

PhD Akademi

8. Test NC

1. **Scientists believe ----- some of the plants growing in rainforests areas might be valuable for treating human diseases.**

A) that B) who
C) when D) which
E) why

2. **----- disrupts the balance of nature is extinction of animals especially caused by human beings.**

A) Where B) Which
C) Why D) What
E) Who

3. **It is obvious ----- the most probable reason of extinction is human expansion into animals' habitats.**

A) whose B) who
C) where D) whom
E) that

4. **----- starvation and malnutrition are no longer prevalent is so obvious in developed countries.**

A) Why B) The fact that
C) Which D) When
E) Where

5. **Obesity is mostly related to ----- a person is careful about his or her diet or not.**

A) whether B) who
C) when D) which
E) if

6. **We don't know ----- it takes sugar to stay in our bodies after it is consumed.**

A) when B) who
C) how long D) what
E) why

7. **Being subjected to unwanted sexual advances or comments by a co-worker or an employer means ----- the employee is experiencing sexual harassment.**

A) which B) where
C) when D) whose
E) that

8. **No matter ----- sexual harassment happens in the world, it is a significant issue that must be dealt with.**

A) Why B) What
C) Who D) Which
E) Where

9. **Our teacher told us ----- societies and countries differ from each other with respect to individualism and collectivism.**

A) why B) where
C) when D) how
E) who

10. **Did you hear ----- the first Christian church was built in the world.**

A) who B) which
C) what D) where
E) why

11. **Luther believed ----- it was wrong to allow people to buy the freedom to commit acts that were against the teachings of the Church.**

A) that B) which
C) where D) why
E) when

12. **----- modern humans emerged in Africa or not is not known for sure, but many believe that they did so.**

A) If B) When
C) Whether D) Where
E) Which

13. **----- extinction is a big problem for both human beings and nature cannot be ignored.**

A) The fact that B) Where
C) When D) Who
E) Why

14. **----- eats fast food frequently will most probably become "obese" or "overweight".**

A) Whichever B) Whenever
C) Wherever D) Whoever
E) Whomever

15. **If you want to stay fit, you should always stay away from ----- is unhealthy.**

A) whatever B) whomever
C) whenever D) wherever
E) whichever

16. **----- annoys me most is to abuse children because they cannot defend themselves.**

A) Which B) Where
C) Who D) When
E) What

17. **Sociologists want to learn ----- individualistic and collectivist culture affect the behavior of individuals both in western and eastern countries**

A) how B) who
C) that D) which
E) where

18. **One of the students asked teacher ----- individualism and collectivism are different from each other.**

A) the fact that B) why
C) that D) whose
E) what

19. **----- people clear forests may cause some species to be lost , that is to say, in near future many other extinctions are possible, or likely.**

A) The fact that B) Where
C) What D) Which
E) How

20. **If you are on a diet, you should be careful about ----- foods are healthy or unhealthy.**

A) who B) when
C) where D) what kind of
E) why

8. Test Gerund – Infinitive – Zone1

1. **Many people enjoy ----- fried fast food and want to eat it occasionally.**

A) to taste B) tasting
C) tasted D) being tasted
E) having tasted

2. **A boss may demand sexual favors from an employee and threaten ----- the employee if she fails to comply.**

A) to fire B) firing
C) to be fired D) being fired
E) having been fired

3. **Another way ----- the prevalence of sexual harassment is to develop a culture of respect in the workplace.**

A) reducing B) being reduced
C) to have reduced D) to be reduced
E) to reduce

4. **When they reached new areas, they found that it was very easy ----- the large animals.**

A) hunting B) hunted
C) to hunt D) being hunted
E) to hunting

5. **In an individualist society, people feel some obligation ----- persons who share some group identity such as their distant relatives.**

A) to help B) helping
C) to be helped D) to have been helped
E) to helping

6. **We have had a serious impact on ----- out of many living things.**

A) to die B) to be died
C) dying D) being died
E) having been died

7. **People in collectivist societies usually would prefer ----- with one company throughout their career.**

A) stay B) staying
C) being stayed D) to stay
E) to staying

8. **One should try ----- as little as possible to avoid obesity, which is thought to be one of the main health problems faced in our societies today.**

A) having eaten B) being eaten
C) to eating D) to be eaten
E) to eat

9. **Priests allowed people ----- money to the Church in exchange for committing various sins.**

A) paid B) paying
C) being paid D) to pay
E) to have paid

10. **One problem is that modern technology has made it possible ----- cheap and tasty food that isn't very healthy.**

A) to produce B) producing
C) having produced D) to have produced
E) to producing

11. **The weight gain that can result from ----- too much fast food and soft drink can have several harmful effects.**

A) to consume B) consuming
C) being consumed D) to be consumed
E) having consumed

12. **In recent years, many steps have been taken ----- the occurrence of sexual harassment.**

A) reducing B) being reduced
C) to reduce D) reduced
E) to reducing

13. **In an individualistic culture, each person tends ----- of himself or herself in terms of his or her own characteristics and preferences.**

A) to think B) thinking
C) to be thought D) being thought
E) to thinking

14. **Scientists believe that some of the plants growing in rain forest areas might be valuable for ----- human diseases.**

A) being treated B) having been treated
C) treating D) to treat
E) to have treated

15. **Some of the foods that are recommended ----- in popular books do not contain adequate amounts of nutrients, such as vitamins and minerals.**

A) eating B) to eat
C) being eaten D) to be eaten
E) having eaten

16. **People in individualist cultures are more often willing ----- others even if they don't belong to the same group.**

A) helping B) to help
C) to helping D) to having helped
E) being helped

17. **It is important ----- the health problems that are associated with obesity.**

A) avoiding B) being avoided
C) to avoiding D) to be avoided
E) to avoid

18. **People in collectivist societies usually get married according to the wishes of their relatives, and are less likely ----- divorced.**

A) to get B) getting
C) to be got D) to getting
E) to have got

19. **Luther refused ----- the authority of the Church, as a result, he was declared 'heretic'.**

A) having acknowledged B) acknowledging
C) to be acknowledged D) to acknowledge
E) having been acknowledged

20. **Many people advise ----- to buy the products that are made from endangered species.**

A) to refuse B) refused
C) refusing D) being refused
E) to have refused

8. Test Gerund – Infinitive - Zone2

1. **Scientists believe that some of the plants ----- in rain forest areas might be valuable for treating diseases.**

A) grown B) to grow
C) growing D) to be grown
E) having grown

2. **To avoid the health problems ----- with obesity, it is important that one does not eat too much food.**

A) associating B) associated
C) to associate D) to be associated
E) to associating

3. **In an individualistic culture, each person tends to think of himself in terms of his own characteristics and preferences ----- the person unique.**

A) making B) having been made
C) to have made D) made
E) being made

4. **When they reached new areas, they found that it was very easy to hunt the large animals not ----- previously by humans.**

A) to hunt B) to be hunted
C) hunting D) being hunted
E) having been hunted

5. **During the decades ----- Luther, the Protestant movement spread throughout much of Europe.**

A) having been followed B) followed
C) to follow D) following
E) being followed

6. **Educational campaigns ----- formerly for the needs of students of that time are used efficiently today.**

A) designed B) being designed
C) designing D) having designed
E) to design

7. **One example of health problems ----- by modern food products involves soft drinks and other beverages.**

A) caused B) causing
C) to cause D) to causing
E) to be caused

8. **People in collectivist cultures tend to feel very little inclination to help people not ----- to their groups.**

A) to belong B) being belonged
C) to have belonged D) belonged
E) belonging

9. **Luther was the first person ----- that many of the priests of the Roman Catholic Church had become too concerned about wealth and luxury.**

A) believing B) believed
C) to believe D) to be believed
E) having believed

10. **Some people buy ivory ----- from the bodies of animals such as elephants or rhinoceros.**

A) to take B) taking
C) to be taken D) taken
E) having taken

11. **Some of the species ----- extinct might have had benefits for human beings.**

A) becoming B) being become
C) to become D) to be become
E) to becoming

12. **Some of the diets ----- in popular books don't contain adequate amounts of nutrients like vitamins and minerals.**

A) to recommend B) to be recommended
C) recommended D) to recommending
E) having recommended

13. **The earliest extinctions ----- by humans long ago occurred when they started to use land areas of forests to make a living.**

A) to cause B) to have been caused
C) having caused D) causing
E) having been caused

14. **In an individualist society, people feel some obligation to help persons ----- some group identity-such as their distant relatives.**

A) sharing B) shared
C) having shared D) to share
E) to have shared

15. **Many wars were fought between the Church and local rulers ----- Protestantism.**

A) favored B) to favor
C) favoring D) to be favored
E) to have favored

16. **Only by refusing to buy the products ----- from endangered species can this terrible crime be prevented.**

A) being made B) making
C) made D) having made
E) to be made

17. **Some discussions ----- between Catholic and Protestant officials were about some of their disagreements.**

A) holding B) held
C) to hold D) to holding
E) having held

18. **Foods such as fruits, vegetables and lean meats have many vitamins and minerals ----- for good health.**

A) needing B) to need
C) needed D) having been needed
E) to be needed

19. **Fast food meals ----- a high proportion of fat are often very large and thus they are really unhealthy to eat in large amounts.**

A) to contain B) to be contained
C) to containing D) containing
E) having contained

20. **One reason of being overweight is the "fast food" ---- by many restaurants.**

A) to serve B) having served
C) to be served D) having been served
E) served

8. Gerund – Infinitive – Zone3

1. **When ----- new areas, they found that it was very easy to hunt the large animals, which had not previously been hunted by humans.**
A) to reach B) to have reached
C) to be reached D) reaching
E) reached

2. **----- by frying, fast food is served by many restaurants.**
A) Cooking B) Having been cooked
C) To cook D) To be cooked
E) Having cooked

3. **If ----- unwanted sexual advances by a co-worker or an employer, an employee is said to undergo sexual harassment.**
A) experiencing B) experienced
C) to experience D) to be experiencing
E) having been experienced

4. **When certain species are eliminated, this may disrupt the balance of nature, ----- overpopulation of some species and extinction of others.**
A) leading to B) led to
C) being led to D) to lead to
E) to have led to

5. **When ----- some obligation to help persons who share some group identity-such as their distant relatives, or persons from the same town, people are called individualist society.**
A) to feel B) felt
C) to have felt D) feeling
E) being felt

6. **If ----- clear policies about sexual harassment, each company will provide a comfortable workplace for his/her workers.**
A) adopting B) adopted
C) being adopted D) having adopted
E) having been adopted

7. **----- to acknowledge the authority of the Church, Luther was punished.**
A) To refuse B) To have refused
C) Refusing D) Being refused
E) To be refused

8. **When ----- soft drinks very frequently, people consume a great deal of sugar.**
A) drinking B) drunk
C) to drink D) to have drunk
E) to be drinking

9. **Even though ----- to teach people that sexual harassment is wrong, educational campaigns are not as effective as they are expected.**
A) designing B) to design
C) to be designed D) designed
E) to designing

10. **When ----- a forest, people cause some species to be lost.**
A) cleared B) to be cleared
C) having cleared D) clearing
E) to clear

11. **----- a high proportion of fat, fried foods are dangerous for our health.**
A) Contained B) To be contained
C) To contain D) Containing
E) Having contained

12. **----- that many of the priests of the Roman Catholic Church had become too concerned about wealth and luxury, Luther disapproved of some practices in the Church.**
A) Believed B) Having believed
C) To believe D) To be believed
E) To believing

13. **Upon ----- on the Earth, human beings have had a serious impact on other living things.**
A) to appear B) appeared
C) being appeared D) having been appeared
E) appearing

14. **----- an <u>adequate</u> amount of food in order to stay healthy, people <u>avoid</u> new "fad" diets that become popular from time to time.**
A) Needed B) To need
C) Needing D) To be needed
E) To have needed

15. **Although ----- in popular books, some of the diets do not contain adequate amounts of nutrients, such as vitamins and minerals.**
A) recommending B) to recommend
C) recommended D) to be recommended
E) having recommended

16. **----- about ideas of individualism versus collectivism, one can better appreciate the customs of other peoples.**
A) To learn B) To be learnt
C) Learnt D) Having been learnt
E) Learning

17. **Upon ----- into Europe, Australia, and the Americas, they killed large numbers of large animals.**
A) to move B) to have moved
C) moving D) moved
E) having been moved

18. **----- their job, people in individualist societies take a new job at another company easily.**
A) To quit B) To be quit
C) Having quit D) Having been quit
E) Being quit

19. **Whenever ----- the punishment as a way of obtaining sexual access to an employee, an employer often threatens to fire his/her employee.**
A) to use B) to be used
C) to using D) using
E) used

20. **Upon ----- cheap and tasty food that is not very healthy, people face many health problems that are related to their diet.**
A) to be eating B) to eat
C) to have eaten D) eating
E) eaten

41. Modern Engineering Wonders

During the twentieth century, there were great improvements in engineering technology. These new **development**s allowed the **construction** of many **amazing** tunnels, bridges, **towers**, and office buildings. For centuries, people had dreamed about the **possibility** of connecting the island of Great Britain to the **mainland** of Europe. However, it was only in 1994 that such a **link** was completed, when a tunnel was **dug** under the English Channel, between England and France. The Channel Tunnel, also known as the "Chunnel," **actually** consists of three separate railway tunnels. These tunnels are about 50 kilometres long. They are located about 150 metres below the bottom of the sea. **Obviously**, this was an extremely challenging project to **undertake**. **As a result of** the Chunnel, it is now possible to travel between London and Paris by train. And the trip takes only three hours, of which only 20 minutes are spent inside the tunnel! A **suspension bridge** is a bridge that is supported by strong **wires** that **hang** from tall towers. The world's longest suspension bridge is the Akashi-Kaikyo bridge, near the city of Kobe, Japan. This bridge is nearly 4 kilometres long, and the two towers near the middle of the bridge are about 2 kilometres **apart**! It took almost 20 years to design this bridge, and 10 years to build it. This bridge was designed to **withstand** extremely strong winds, because Japan often experiences wind **storm**s called **typhoons**. The bridge was also designed to withstand powerful earthquakes, which sometimes hit Japan. At the beginning of the twenty-first century, the world's tallest free-standing tower was the Canadian National Tower, or the CN Tower. The CN tower is 553 metres tall. It is located in the city of Toronto, within the Canadian **province** of Ontario. This **structure** was built in 1975 as a television and radio tower. Before the CN tower was built, TV and radio reception in the Toronto area was poor. This was because the TV and radio signals were **blocked** by the buildings of downtown Toronto. When the CN tower was built, this problem was solved. Of course, the CN **tower** is also a famous tourist attraction. People can ride in the very fast **elevator**s that take them to observation areas, which are at about 350 and 450 metres above the ground. Although the CN Tower is the world's tallest tower, it is not an office building. The tallest buildings in the world are the Petronas Towers, in the city of Kuala Lumpur, Malaysia, and the Sears Tower, in the American city of Chicago. The Sears Tower, which is 442 metres tall, was completed in 1974. It has 110 floors, and its top floor is the highest office floor in the world. However, the Petronas Towers reach **slightly** higher, to a height of 452 metres. The Petronas Towers were completed in 1998. Obviously, the late twentieth century witnessed some amazing **achievement**s of engineering. It will be very interesting to see what new **wonders** will be **construct**ed in the twenty-first century!

achieve	achievement, achiever	achievable	
wonder	wonder	wonderful	wonderfully

42. Anne Sullivan and Helen Keller

The story of Anne Sullivan and Helen Keller is the story of a **dedicated** teacher and an **eager** student. This story is very **remarkable** and **inspiring** because the teaching was done without **sight** and without sound. Helen Keller was born in the American state of Alabama in 1880. She was a happy and healthy baby, but before she reached the age of two, she was **struck** by a **severe** fever. As a result of this fever, she became both **deaf** and **blind**. After her illness, the young Helen Keller learned to use her other senses. For example, she **touched** other people's hands to **figure out** what they were doing. In this way, she also learned that people could communicate by moving their lips. Helen could not talk; instead, she communicated with her family by making sign **movements** with her hands and body. However, Helen became very **frustrated** by her **inability** to see, hear, and talk. She often became very angry and had many "temper tantrums." When Helen Keller was six years old, her family took her to see Dr. Alexander Graham Bell, who was an expert on educating deaf children. (This man was also famous for inventing the telephone.) As a result of this visit, Helen's parents hired a tutor for their daughter. The tutor was a very **intelligent** **deaf** woman named Anne Sullivan. At first, it was difficult to teach Helen because she still made many angry **outbursts**. Gradually, Anne Sullivan gained Helen's trust. One day, Anne began to teach Helen to communicate. Anne took Helen to a well and **pumped** some water onto Helen's hand. Then, Anne used her finger to write the letters w-a-t-e-r onto Helen's hand. By repeating this, Anne was able to teach Helen how to write the word "water." As soon as Helen learned that things could be named in this way, she wanted to learn the names of many other objects and actions. She was **curious** about many things, and learned a great number of words. She also learned to read by using the Braille alphabet. This alphabet allows the reader to feel letters and words, which are represented by bumps on a page. Also, Helen learned to talk, by feeling and then copying the movements of people's mouths. When Helen Keller was 16 years old, Anne Sullivan went with her to college. Anne **acted** as Helen's **interpreter**, and Helen was very successful in her studies. After her **graduation**, Helen dedicated her life to improving conditions for the **blind**, the deaf, and the poor. Anne Sullivan died in 1936 and was remembered as the "Miracle Worker" for her **triumph** in **educating** Helen Keller. After Anne's death, Helen continued to give **lectures** in countries around the world, and was active in many political causes. She met with presidents and **prime ministers**, and helped to improve conditions for people who were deaf or blind. At the time of her death, in 1968, Helen Keller was one of the most admired people in the world.

dedicated	kendini adamış
eager	hevesli, istekli
inspiring	ilham verici
sight	görme, görüş, görme ile ilgili
severe	ciddi, şiddetli, güç, zor
deaf	sağır
blind	kör

educate	education	educated, uneducated, educational	educationally

43. The Automobile, or Car

In many ways, the automobile has been one of the most important **inventions** of the modern age. People have been able to travel much more freely, and across much greater distances, than was possible in the past. The automobile, which most people refer to as the "car," has also had some harmful **consequences**, such as pollution and accidents. However, it is clear that life has changed **profoundly** as a result of the car. Modern cars are very **complicated**, but the basic idea of how a car works can be described **briefly**. When the keys are turned in the **ignition** of the car, this creates a **spark** that **ignites** some **gasoline** **vapour** inside a **cylinder**. Then, the **rapid** **expansion** of this vapour pushes against a part called a piston. The movement of the piston then causes a turning **motion** in a **shaft** that is **connected** to the wheels. The wheels turn, and the car moves. The invention of the car, and the engines used by cars, happened gradually in the late nineteenth century, mainly in France and Germany. In the early twentieth century, an American engineer named Henry Ford developed a new way of making cars. Instead of having one worker produce an entire car, he had each worker perform one part of the production of many different cars. This system was very **efficient** and allowed the **mass** **production** of cars. The first car to be produced in large numbers was called the "Model T." The Model T Ford and other cars that were soon produced in large numbers were cheap enough that many people could afford to buy them. Many new roads were built and **paved** throughout North America to allow cars to be driven from town to town. People were able to travel much more easily and to visit places that had previously been difficult to reach. Some problems also came with the **widespread** use of cars. One of these problems was air pollution, because **car** **engines** burn gasoline, which produces **poisonous** exhaust **fumes**. Gradually, new laws and new technology have led to reductions in the air pollution that is caused by cars. Moreover, cars today are much more "fuel efficient" than they were in the past, requiring less gasoline to travel a given distance. However, this pollution is still a problem because of the many millions of cars that are used each day. Another problem has been car accidents, which have caused many thousands of deaths each year. During the 1960s, some journalists brought attention to the unsafe features of many cars. As a result, the safety of cars has been greatly improved. In addition, the use of seat belts is now required by law. However, car accidents continue to be a serious problem. The future is likely to bring many interesting new changes to the car. **Improvements** in the safety of cars, in fuel **efficiency**, and in the **cleanliness** of car **emissions** are continuing to be made. Also, the increasing use of the car in economically developing countries will probably have important effects upon people's lives around the world.

invention	icat

invent, reinvent	invention, inventiveness, inventor	inventive	inventively
complicate	complication	complicated, uncomplicated	
connect, disconnect	connection	connected, unconnected, disconnected	
produce, reproduce	produce, producer, product, production, reproduction, productivity	productive, counterproductive, reproductive, unproductive	unproductively, productively
clean	cleaner, cleaning, cleanliness	clean, unclean	cleanly

44. Sexual Attitude and Behavior

During the past several decades, there have been **major** changes within most Western countries in people's **attitudes** toward sex, and in sexual behaviour. For people who have lived throughout this period, the changes have seemed quite remarkable. Until the early twentieth century, people in most Western countries did not have **permissive** attitudes **regarding** sexuality. For the most part, young people were expected to wait until marriage before having **sexual intercourse**. Of course, some **premarital** sex did occur, and **prostitution** was not rare. However, sexual behaviour was **relatively restricted**. As the twentieth century progressed, there was a gradual trend toward **liberalization** of attitudes toward sex. However, this **trend** was greatly speeded after 1960, when the first birth control pills became **available**. These contraceptive pills made it possible for women to **engage in** sexual intercourse without much risk of an unwanted **pregnancy**. As a result, many women were more willing to have premarital sex than was previously the case. Also during the 1960s, Western countries were reaching high levels of wealth and education. A new and very large generation of young people was **approaching adulthood**, and there was a **mood** of **rebellion** against **traditional norms**. There was an increase in the number of people who engaged in sex before marriage, and also a greater **openness** about such behaviour. By the 1970s, sexual **attitudes** had become quite liberal, and many young people were quite **promiscuous** in their sexual behaviour. However, this pattern **reversed** somewhat during the 1980s. There was increased concern about **sexually transmitted diseases,** including AIDS; moreover, many young women had been uncomfortable with the idea of unrestricted sexual behaviour. As a result, sexual attitudes became slightly more **conservative** during the 1980s and 1990s, although they remained much more liberal than in previous decades. In the early twenty-first century, most young people in Western countries begin having sex during their high school years, although some people wait until they are **considerably** older. Some young people are promiscuous, but most engage in **monogamous** relationships that **typically** last for a period of several months or a few years. When one relationship ends, another usually begins soon after. This pattern usually continues until **marriage**. After marriage, most people have sex **exclusively** with their **spouse**; however, some people do **commit adultery**. Sexuality has changed a great deal in recent decades. It will be very interesting to see how people's sexual attitudes and behaviour will change in the future.

major	ana, asıl
attitude	tavır, tutum
permissive	aşırı hoş görülü, müsamahakar
regarding	hakkında
premarital	evlilik öncesi

typify	type, typing, typist	typical	typically
marry, remarry	marriage	married, unmarried, marriageable	
commit	commitment	noncommittal, committed	

45. The Mississippi River

The Mississippi River is the longest river within the United States, and the fourth longest river in the world. This river holds a special place in American history and **literature**, and in the imagination of ordinary Americans. The Mississippi River begins in the hills of northern Minnesota, near the Canadian **border**, and flows southward about 3700 kilometres, through ten states, before **draining** its water and **silt** into the Gulf of Mexico. Traditionally, the river is viewed as a natural **boundary** between the eastern and western halves of the United States. Until the year 1803, the areas to the west of the Mississippi River, and the areas around the mouth of the river, were **claim**ed by Spain and by France. In that year, the French **emperor**, Napoleon, decided to sell this land to the United States of America. This sale, which is called the Louisiana Purchase, was very important for the United States. By controlling the Mississippi River, the Americans would be able to use it for transporting goods and people in this **rapidly** developing area. For many years, river-boats were the main method of long-distance transportation for people living near the Mississippi. **Steam-powered** boats, with large "paddle wheels" that **push**ed the boat forward, were very popular in the time before cars and airplanes. One of the famous cities along the Mississippi River is St. Louis. This city is known as the "**gateway** to the west." During the nineteenth century, St. Louis was the last large town that people would pass through on their way to new farmland farther west. Today, St. Louis is famous for the "Gateway Arch," a tall **monument** that welcomes people to the west. St. Louis is also known as the city where the music known as "the Blues" began. Near the mouth of the Mississippi River is another famous city, New Orleans. In terms of the style of buildings, New Orleans is said to be the most unusual American city, because it is influenced so **strongly** by Spanish and French traditions. Even today, the traditional festival of "Mardi Gras" is celebrated in New Orleans each year. New Orleans and the **surrounding** areas of the state of Louisiana are famous for **spicy** "Cajun" food. This style of cooking was developed by the French-speaking settlers of Louisiana. The Mississippi River is famous in many stories of American literature. For example, The Adventures of Tom Sawyer and Huckleberry Finn, which were written by the author Mark Twain, are both set along the Mississippi River. Today, the federal and state governments of the United States are working to **preserve** the natural **environment** along the Mississippi River. People **recognize** the **importance** of keeping this river healthy and clean.

literature	edebiyat
border	sınır
to drain	akıtmak, boşaltmak,suyunu çek-
silt	alüvyon, silt
boundary	sınır
to claim	iddia etmek, ileri sürmek

28. New Orleans is said to be the most unusual American city ----- it is influenced so strongly by Spanish and French tradition.

A) as B) whenever
C) in case of D) unlike
E) by the time

29. The Mississippi River is important, ----- the federal and state governments of the US are working to preserve the natural environment along it.

A) in order that B) but for
C) hence D) after
E) as soon as

30. The bridge was designed to withstand extremely strong winds, ----- powerful earthquakes.

A) as a result of B) in addition to
C) on the other hand D) unless
E) owing to

31. People can go to the CN Tower ----- observe areas, which are at about 450 meters above the ground.

A) regardless of B) after
C) in order to D) instead
E) in addition to

32. Helen had many temper tantrums, ----- her illness, which made it difficult for Anne to teach her.

A) due to B) owing to the fact that
C) by the time D) thanks to
E) in order to

33. Some young people are promiscuous, ----- some others who are more conservative engage in monogamous relationships.

A) before B) in case
C) even if D) while
E) furthermore

34. There are increased concern about sexually transmitted diseases ----- HPV and AIDS.

A) unlike B) after
C) such as D) in order that
E) though

35. The Sears Tower has 110 floors; -----, its top floor is the highest office floor in the world.

A) further B) however
C) due to D) unless
E) even so

36. ----- the Chunnel, people cannot travel between London and Paris by train.

A) Thanks to B) If it weren't for
C) In addition D) Besides
E) In order to

37. ----- Anne Sullivan, Helen was very successful in her studies despite her deafness.

A) While B) Therefore
C) Thanks to D) Instead
E) Except for

38. The Mississippi River is famous in many stories of American literature ----- "The Adventures of Tom Sawyer" and "Huckleberry Finn".

A) because B) despite
C) if D) such as
E) though

39. Japan often experiences windstorms called typhoons; -----, the bridge was designed to withstand extremely strong winds.

A) before B) for fear that
C) as well as D) for example
E) therefore

40. ----- Helen's illness, her parents hired a tutor for their daughter.

A) Besides B) Due to
C) Thus D) If
E) Though

PhD Akademi

9. Test Zamanlar

1. **Before the CN tower was built, TV and radio reception in the Toronto area ----- poor because the TV and radio signals were blocked.**

A) is B) would be
C) had been D) has been
E) will be

2. **During the 20th century, there ----- great improvements in engineering technology.**

A) were B) are
C) had been D) will be
E) have been

3. **At the beginning of the 21st century, the world's tallest free-standing tower ----- the Canadian National Tower, or the CN Tower.**

A) is B) will be
C) had been D) has been
E) was

4. **I hope that achievements of engineering ----- very interesting to see in the near future.**

A) will be B) were
C) are D) had been
E) have been

5. **Helen Keller was a healthy baby, but before she ----- the age of two, she was struck by a severe fever.**

A) had been reaching B) reached
C) will have reached D) reaches
E) was reaching

6. **When Helen Keller was 6 years old, her parents ----- her to see Dr. Alexander Graham Bell, who was an expert on educating deaf children.**

A) take B) took
C) had been taking D) will take
E) have taken

7. **As soon as Helen learned that things could be named by spelling, she ----- to learn the names of many other objects and actions.**

A) wants B) has wanted
C) wanted D) had been wanting
E) will want

8. **When Helen was 16 years old, Anne ----- with her to college where Anne acted as Helen's interpreter.**

A) had gone B) went
C) is going D) goes
E) will be going

9. **The story of Anne Sullivan and Helen Keller ----- the story of a dedicated teacher and an eager student of all time up to now.**

A) was B) had been
C) will be D) is
E) has been

10. **After Helen ----- from college, she dedicated her life to improve conditions for the blind, the deaf and the poor.**

A) has graduated B) had graduated
C) will graduate D) graduates
E) will have graduated

11. **While Helen ----- to give lectures in countries around the world, Anne was dead.**

A) had continued B) will continue
C) was continuing D) continues
E) is continuing

12. **As soon as Helen was active in many political causes, she ----- with presidents and prime ministers.**

A) met B) meets
C) will have met D) had been meeting
E) has met

13. **I ----- the story of Anne Sullivan and Helen Keller since my teacher recommended me that dedicated story three days ago.**

A) had read B) will read
C) read D) have been reading
E) was reading

14. **By the time Helen learned a great number of words, she ----- to read by using the Braille alphabet.**

A) will be learning B) had learned
C) has learned D) learns
E) is learning

15. **New developments ----- the construction of many amazing tunnels, bridges and office buildings up to now.**

A) allowed B) will be allowing
C) have allowed D) had allowed
E) allow

16. **In many ways, the automobile, which is also called 'car' ----- one of the most important inventions of the modern age in recent years.**

A) had been B) will be
C) is D) was

A) created B) is going to create
C) creates D) had created
E) was creating

18. **The invention of the car and the engines ----- in the 19th century, mainly in France and Germany.**

A) happened B) happen
C) will have happened D) had been happening
E) are happening

19. **Cars today ----- much more "fuel efficient" than they were in the past, requiring less gasoline to travel given distance.**

A) are B) were
C) had been D) will be
E) would be

20. **The increasing use of the car in economically developing countries ----- important effects upon people's live around the world soon.**

A) had B) has had
C) had had D) will have
E) have

21. During the past several decades, there ----- major changes within most Western countries in people's attitudes towards sexual behaviour.

A) have been B) had been
C) will be D) were
E) are

22. In 20th century, people in most Western countries ----- permissive attidutes regarding sexuality.

A) won't have B) don't have
C) haven't had D) hadn't had
E) didn't have

23. By the 1970s, sexual attitudes ----- quite liberal, and many young people were quite promiscuous.

A) had become B) has become
C) becomes D) will have become
E) became

24. Sexual attitudes ----- slightly more conservative during the 1980s and 1990s.

A) became B) become
C) will be becoming D) have become
E) are going to become

25. The Mississippi River, which is the longest river within the USA and the fourth longest river in the world, ----- throughout an extensive area.

A) flowed B) will flow
C) flows D) had flowed
E) has flowed

26. Mississippi River ----- a special place in American history and literature, and in the imagination of ordinary Americans so far.

A) had held B) will hold
C) holds D) has held
E) held

27. St Louis ----- the last large town that people would pass through on their way to new farmland farther west in 19th century.

A) is B) was
C) had been D) has been
E) will be

28. Today, St Louis ----- famous for the " Gateway Arch" a tall monument that welcomes people to the west.

A) is B) will be
C) had been D) has been
E) was

29. Mississippi River ----- famous in many stories of American literature. For example, The Adventure of Tom Sawyer and Huckleberry Finn.

A) will be B) had been
C) has been D) is
E) was

30. The federal and state governments of the United States ----- to preserve the natural environment along the Mississippi River now.

A) were working B) have worked
C) are working D) had been working
E) will work

31. The world's longest suspension bridge ----- the Akaski-Kaikyo bridge which was completed in 1998, near the city of Kobe, Japan.

A) is B) was
C) will be D) has been
E) had been

32. Bridge was designed to withstand extremely strong winds because Japan often ----- wind storms, typhoon.

A) had experienced B) experiences
C) will be experiencing D) was experiencing
E) experienced

33. The CN tower is a famous tourist attraction which millions of tourists ----- there so far.

A) visited B) visit
C) had visited D) have visited
E) will visit

34. Many people ----- some amazing achievements of engineering in the 20th century.

A) had witnessed B) witnessed
C) witness D) will witness
E) have witnessed

35. After Helen had a severe fever at the age of two, she ----- to use her other senses because she could no longer see or hear.

A) learned B) will be learning
C) had learned D) learns
E) has learned

36. Helen was both blind and deaf, and It was not until Anne ----- Helen's trust that Anne could begin to teach Helen to communicate.

A) will gain B) was gaining
C) had gained D) gained
E) gains

37. After Anne's death in 1936, Helen ----- to give lectures in countries around the world and tried to inspire young people.

A) continued B) continues
C) will continue D) had continued
E) has continued

38. The future probably ----- many interesting new changes to the car such as improvements in the safety of the cars and in fuel efficiency.

A) brought B) had brought
C) has brought D) was bringing
E) will bring

39. I am interested in American literature, so lately I ----- The Adventure of Tom Sawyer and Huckleberry Finn, which were written by Mark Twain.

A) have been reading B) had read
C) read D) will have read
E) was reading

40. The French emperor, Napoleon ----- to sell the areas to the west of the Mississippi River to the United States of America in 1803.

A) will decide B) decides
C) decided D) had decided
E) has decided

9. Test Passive

1. **New developments ----- the construction of many amazing tunnels, bridges, towers, and office buildings in the 19th century.**

A) had allowed B) have allowed
C) have been allowed D) were allowed
E) allowed

2. **It was only in 1994 that such a link -----, when a tunnel was being dug under the English Channel.**

A) completed B) has been completed
C) was completed D) will be completed
E) is completed

3. **Today, tunnels ----- about 150 metres below the bottom of the sea.**

A) were located B) locate
C) are located D) located
E) have located

4. **Before the CN tower -----, TV and radio reception in the Toronto area was poor.**

A) was built B) built
C) has been built D) had been built
E) is built

5. **Anne Sullivan died in 1936, but since then, she ----- as the "Miracle Worker" for her triumph in educating Helen Keller.**

A) has been remembered B) was remembered
C) had been remembered D) remembered
E) will remember

6. **Modern cars are very complicated, but the basic idea of how a car works ----- briefly.**

A) would describe B) can describe
C) may describe D) can be described
E) should have been described

7. **The Model T Ford and other cars that ----- in large numbers were cheap enough that many people could afford to buy them.**

A) produced B) will be produced
C) have been produced D) had produced
E) were produced

8. **During the 1960s, some journalists ----- attention to the unsafe features of many cars.**

A) have brought B) were brought
C) brought D) had been brought
E) bring

9. **Today, the Mississippi River ----- a special place in American history and literature, and in the imagination of ordinary Americans.**

A) holds B) is held
C) held D) has been held
E) had held

10. **Traditionally, the river ----- as a natural boundary between the eastern and western halves of the United States.**

A) was viewed B) is viewed
C) had been viewed D) has viewed
E) viewed

11. **Akashi-Keiko bridge (opened in 1998) ----- to withstand extremely strong winds, because Japan often experiences wind storms called typhoons.**

A) has been designed B) is designed
C) designed D) was designed
E) design

12. **The world's tallest free-standing tower ----- in the city of Toronto, within the Canadian province of Ontario.**

A) was located B) locates
C) has been located D) located
E) is located

13. **A suspension bridge is a bridge that ----- by strong wires that hang from tall towers.**

A) is supported B) support
C) supported D) was supported
E) will support

14. **It is very interesting to see what new wonders ----- by the engineers by the next century.**

A) constructed B) construct
C) will construct D) have been constructed
E) will have been constructed

15. **The automobile has some harmful consequences, such as pollution; however, it is clear that life ----- profoundly as a result of the car since its arrival.**

A) was changed B) change
C) has been changed D) changed
E) has changed

16. **An American engineer named Henry Ford ----- a new way of making car.**

A) was developed B) has been developed
C) developed D) develops
E) had developed

17. **When the keys ----- in the ignition of the car, this creates a spark that ignites some gasoline vapour inside a cylinder.**

A) are turned B) was turned
C) turn D) turned
E) will be turned

18. **People ----- the importance of keeping the Mississippi River healthy and clean so far.**

A) recognized B) have recognized
C) are recognized D) recognize
E) have been recognized

19. **The use of seat belts ---- now ----- by law. However, many people resist wearing seat belts although it has been proved that they save lives.**

A) has been/required B) was/required
C) -/requires D) -/required
E) is/required

20. **Until the year 1803, the areas to the west of the Mississippi River, and the areas around the mouth of the river, ----- by Spain and by France.**

A) were being claimed B) have been claimed
C) claimed D) had claimed
E) were claimed

A) completed B) to be completed
C) having completed D) completing
E) to complete

4. **----- away from the Roman Catholic Church in the beginning of 16th century, people in many parts of Europe began their own churches.**

A) To break B) To be breaking
C) Breaking D) To be broken
E) To have broken

5. **----- her students as a deaf and blind teacher, she was an extraordinary and inspiring educator.**

A) Taught B) Having been taught
C) To be taught D) To teach
E) Teaching

6. **Upon ----- both deaf and blind as a result of a severe fever, Helen Keller learned to use her other senses.**

A) to be left B) being left
C) to have left D) leaving
E) to leave

7. **Although ----- to communicate with her family by making sign movements with her hands, she was still very frustrated by her inability to see, hear, and talk.**

A) learned B) to learn
C) learning D) to be learning
E) learn

8. **As soon as ----- that she could learn the names of objects using her fingers, she wanted to learn the names of other objects and actions.**

A) realized B) having been realized
C) to realize D) to be realized
E) realizing

9. **----- from college, Helen dedicated her life to improving conditions for the blind, the deaf, and the poor.**

A) Graduated B) To graduate
C) Having graduated D) To have graduated
E) Having been graduated

10. **Cars today are much more "fuel efficient" than they were in the past, ----- less gasoline to travel a given distance.**

A) to require B) required
C) requiring D) to be required
E) having required

11. **The Mississippi River begins in the hills of northern Minnesota and flows southward about 3700 kilometres, through ten states, before ----- its water and silt into the Gulf of Mexico.**

A) draining B) to be drained
C) drained D) to drain
E) having drained

12. **One fundamental problem related to cars is car accidents ----- many thousands of deaths each year.**

A) causing B) caused
C) having caused D) to be caused
E) to have caused

13. **Before ----- the age of two, Helen Keller was struck by a severe fever, which left her deaf and blind.**

A) reached B) having been reached
C) to reach D) reaching
E) to be reached

14. **----- a tunnel under the English Channel, between England and France, engineers were able to connect the island of Great Britain to the mainland of Europe.**

A) Dug B) Having been dug
C) To be digging D) Having dug
E) To dig

15. **Although ----- extreme challenges to undertake, engineers were able to dig three separate tunnels about 150m below the bottom of the sea.**

A) facing B) having been faced
C) to be faced D) to face
E) faced

16. **----- wind storms called typhoons, the Japanese designed a bridge to withstand extremely strong winds.**

A) To be experienced B) Experiencing
C) Having been experienced D) To experience
E) Experienced

17. **After ----- the 100-metre sprint in the 1988 Summer Olympic Games in Seoul, South Korea, Johnson was tested and his drug test was found to be positive.**

A) to win B) won
C) having been won D) winning
E) to be winning

18. **----- in 1971 by the federal government, the project 'ParticipAction' was successful in encouraging Canadians to be active and to stay healthy.**

A) To have created B) Having created
C) To create D) Creating
E) Created

19. **After ----- in 1894, the first Olympic Games was held in Athens, Greece, in 1896, in recognition of the ancient Greek Olympic Games.**

A) constituted B) to be constituted
C) to constitute D) having constituted
E) constituting

20. **After ----- the benefits of television during the end of the 1950s, major sporting organizations decided to attract viewers through televised events.**

A) realized B) to be realized
C) to realize D) having been realized
E) realizing

46. Doctors Without Borders

In 1999, the Nobel Prize for Peace was won by the organization known as "Doctors Without Borders." This is the English name of the organization, based in Belgium, which won the prize for its **humanitarian assistance** to people around the world, in areas that have been **struck** by **disaster**. The **fundamental** ideas of Doctors Without Borders is that people who suffer from a disaster have the right to receive professional help as soon as possible. The organization helps people **regardless of** their **nationality**, race, religion, **ethnicity**, sex, or political **opinions**. Also, the **assistance** provided by Doctors Without Borders is given **in response to** all kinds of disasters, such as **famines**, earthquakes, and wars. The people who belong to Doctors Without Borders are experienced medical workers who **volunteer** their time, **effort**, and **skills** **in an attempt to** help people who are in need. These volunteers include doctors, nurses, **surgeons**, anesthetists, laboratory technicians, and other medical workers. There are also some non-medical volunteers who work for Doctors Without Borders in positions of **administration** or logistics. Volunteers must first take a course before participating in a humanitarian mission. They promise to **abide** **by** a code of professional **ethics**, and they **promise** to remain **neutral** in any **conflicts** within a disaster area. A mission typically lasts about six months, but the **duration** varies. The volunteers are **insured** by the organization, but they are not paid in any way for their work. When Doctors Without Borders began in 1971, it consisted of only a few French doctors who wanted to provide humanitarian aid to people in disaster areas. Over the years, it grew rapidly, and by 2001, Doctors Without Borders had 2500 volunteers working in 80 countries around the world. They have helped people by providing emergency health care, **vaccinations**, medicine, water, and basic food, and also by developing improved water and **sanitation systems**. In many areas, Doctors Without Borders has also helped to provide basic medical training to local people. Although Doctors Without Borders remains neutral in any conflicts within a disaster area, the organization does speak out against **abuses** of human rights. By remaining independent of the influence of governments and **corporations**, Doctors Without Borders is able to **criticize** the people and organizations who cause suffering. The volunteers are witnesses who tell the world about the **cruelty** that is **inflicted** **upon** innocent people. Obviously, the work of Doctors Without Borders is extremely important. The volunteers of this organization are **brave** and **selfless** people whose **efforts** have **relieved** the suffering of millions of people.

47. Chicago

Chicago is one of the most famous American cities. Some cities in the United States-such as New York, Los Angeles, and San Francisco-may be more **glamorous**, but many people agree that Chicago is the city that best represents the United States. Located in the middle of North America, Chicago has **derived** much benefit from its geography. The city's central **location** has made its O'Hare International Airport the "hub" for most airlines in the United States. Its location on the **shores** of Lake Michigan has made it a major **port** and business centre, where the **agricultural** and **industrial** products of the American Midwest are shipped overseas. Until about the 1830s, Chicago was a **minor** trading post. But then it grew rapidly as the most important town in the rapidly developing areas of the midwestern United States. In 1871, the city was **destroy**ed by a fire. It is often said that the fire started when a cow **knocked over** an oil lamp. It took about 20 years for the city to be completely **rebuilt**, but it continued to **expand**. In 1882, the first **skyscraper** was built in Chicago. Around the turn of the century, the population of Chicago was growing quickly. Many African-American people moved to Chicago from the southern United States, and many immigrants from Eastern Europe also arrived in Chicago during this time. Because of the busy and active atmosphere of the city, an American poet described Chicago as "the city of broad shoulders." Chicago became **notorious** for organized crime during the Prohibition Era of the 1920s, when the sale of alcohol was illegal. Mobsters such as Al Capone became rich by **smuggling** **liquor**, and many people were killed in conflicts between **rival** **gangs** of **criminal**s. But the influence of organized crime later became weaker. In the decades following World War Two, Chicago experienced some problems with crime, poverty, and **racial conflict**. However, the city has recently **prospered**, and social conditions have improved for many people in Chicago. Compared with other large cities, Chicago is viewed as an **affordable** place to live, with a high quality of life. The city has efficient transportation, and many beautiful parks along the Lake Michigan **shoreline**. Chicago is famous for its many attractions, including the Art Institute of Chicago, the Field Museum of Natural History, the Shedd Aquarium, the Sears Tower, and the "Miracle Mile" shopping **district**. **Indeed**, Chicago is one of the most interesting cities in the United States.

48. Women and the Right to Vote

In most countries today, people think it is **obvious** that all adults should have the right to **vote** in democratic **elections**. But it was not so long ago that women did not have this right. Only after a long **struggle** did women gain the right to vote. By the early nineteenth century, modern democratic forms of government were appearing in the United States, Great Britain, and some European countries. In these countries, most adult men had the right to vote in democratic elections. Some men were **denied** this right if they were poor or if they **belonged to** a racial **minority** group, but gradually this right was **extended** to all men. It took much longer for women to gain the right to vote. Only in special cases, such as that of a widow who owned land, could a woman be allowed to vote. Many men believed that it was not **necessary** for women to vote, because they **assumed** that the husband should decide **on behalf of** his wife. Some men believed that women did not **possess** the **intelligence** or the **discipline** to vote carefully. Some women also believed that women should not be involved in politics, but many others wanted the right to vote. By about the year 1850, some women began to organize in an **effort** to change the laws **regarding** women and the vote. This movement was known as the "woman suffrage" movement, because the word "suffrage" means voting. Leaders such as Susan B. Anthony and Elizabeth Cady Stanton brought **attention to** this issue, and **persuaded** many people that women should vote. The first part of the United States to recognize women's right to vote was Wyoming, in the year 1869. During the following decades, many other states recognized women's right to vote, **particularly** in the western part of the country, where women had a high social status. However, the United States was not the first country to recognize women's right to vote at the national level. The first country to recognize women's right to vote was New Zealand, in 1893. Soon after, Australia also allowed women to vote, and so did the Scandinavian countries of northern Europe. But in countries such as the United States, Canada, and Great Britain, women could not yet vote. Women in those countries struggled to gain the vote. For example, in Great Britain, Emmeline Pankhurst and her daughters **participated in hunger strikes**. During World War One (1914-1918), women's work efforts were very important to winning the war, and people's **attitudes** were **increasingly in favor of** women having the right to vote. Women then gained the right to vote in Canada, the United States, and Great Britain. Gradually, other democracies around the world also **recognized** women's right to vote. Today, it seems difficult to believe that women were not allowed to vote only a few generations ago. But there is still **progress** to be made. In most countries, women are under-represented among political leaders. Perhaps the day will soon come when women are **elected** as often as men.

49. Charles Dickens

Charles Dickens is considered one of the greatest writers in the history of English **literature**. Dickens wrote his many **novels** during the nineteenth century, but those novels remain popular even today. Literary experts admire his **genius at** describing the lives and **personalities** of the many characters in his books. Charles Dickens was born in England in 1812. His father was a **clerk** who worked for the Navy. Unfortunately, his father was not good at **managing** money, and the family soon went **deeply** into **debt**. In those days, people who owed money were sent to prison, and their families were sent to places called "workhouses." When Charles's father was unable to pay the debts, Charles was sent to a workhouse, where he had to work long hours, and Charles's father was sent to **prison**. After a few years, the family **regained** its freedom, but the experience had a **lasting** effect upon Charles. As a young man, Charles Dickens worked as a journalist in the law courts and in Parliament. But he soon began writing stories for newspapers. These stories were very popular with the readers. Soon, Dickens began writing **entire** novels for the newspapers. Each month, the newspaper would publish another chapter of Dickens's latest novel. One of Dickens's most famous early novels is called Oliver Twist. This is the story of a young man who is poor and alone in the city of London, and becomes involved in criminal activities to support himself. The characters in this novel have a very **wide range of** personalities, but seem very real to the reader. This book **exposed** the conditions that faced the poor people of London, and helped to **encourage** reforms **aimed at** improving those conditions. Perhaps Dickens's most popular novel is A Christmas Carol. In this story, a rich but **stingy** old man, Ebenezer Scrooge, refuses to give his employee a day off work at Christmas, and **refuses** to **donate** money to help the poor. But, while sleeping, Scrooge is visited by **ghosts** from his past, present and future. These ghosts show Scrooge how badly he has **behaved**. When Scrooge wakes up, he becomes a kind and **generous** man who fully appreciates the spirit of the Christmas holiday. Another famous novel of Dickens is A Tale of Two Cities. This is a story of the **violence** and **upheaval** during the French Revolution. The story is famous for the **heroic** act of sacrifice that is made by one character for the benefit of the others. Dickens was famous as a public speaker, and large crowds **assembled** to hear his performances. When he died in 1870, he was a very famous man. The novels of Charles Dickens allow the reader to experience the life of nineteenth century London, showing the **poverty** and injustice that were so common. The characters of these novels show the range of human behaviour, from **cruelty** and **selfishness** to **kindness** and love. It is no surprise that Dickens is viewed as one of the great figures of English literature.

	cruelty	cruel	cruelly

50. Samuel Clemens, or Mark Twain

Mark Twain was the **author** of some of the greatest works of American English literature, such as Tom Sawyer, Life on the Mississippi, and The Adventures of Huckleberry Finn. Mark Twain's real name was Samuel Langhorne Clemens. He used Mark Twain as his "pen name". Samuel Clemens was born in the American state of Missouri in 1835. As a child he enjoyed many **outdoor** activities, such as swimming and fishing. When Samuel was eleven years old, his father died, and he began working to help **support** his family. As a young man, Samuel Clemens began to write stories for newspapers. However, he took a job working as a **navigator** on the **steamboats** that travelled up and down the Mississippi River. Clemens greatly enjoyed this period of his life, during which time he gained much knowledge about life on the river. He also learned much about human behaviour by observing the many people on the boats and along the river. It was as a result of this time that Clemens began using his pen name, Mark Twain. This name is taken from a **term** that was used by the men who worked on the river. It is used to describe water that is just deep enough to be navigated **safely**. The earliest of Mark Twain's really famous novels was The Adventures of Tom Sawyer. This novel describes a boy who **engages in** much **mischief**, but who has a kind heart. The story contains several scenes that are quite funny. In one of these, Tom is working at the boring task of painting a **fence**. He persuades several other boys to help him, by pretending that painting the fence is a fun and enjoyable activity. Another famous novel by Mark Twain was Life on the Mississippi. This book describes many interesting characters similar to those that Twain **actually** observed while working on a steamboat. This story gives the reader a **vivid** image of the people who lived and worked along the Mississippi River. Probably the best novel by Mark Twain was The Adventures of Huckleberry Finn. This novel tells the story of a boy who runs away from his **violent** father. The boy, whose name is Huckleberry Finn, is joined in his **escape** by a man named Jim. Jim is a slave who has decided to **run away from** his owners. Huck and Jim travel north along the Mississippi, hoping to reach the areas where slavery is not allowed. In this story, the reader can experience the moral **sense** of Huckleberry, who must make several important **decisions** during the escape. Mark Twain died in 1910, after writing many more novels and many stories of his travels around the world. Twain's works are still widely read today. His books are **appreciated** for their **humor**, for their interesting **descriptions** of life in nineteenth century America, and for showing both the good and **evil** that people can do. Many critics consider Twain to have been the greatest American writer.
